The History of Make-Believe Holly Haynes, 2003-12-11 In The History of Make Believe Holly Haynes acutely queries the relationship of historiography historical reality and symbolic representations of lived historical processes This is a serious book informed by wide reading and full of startlingly original insights on some of the most prominent and significant themes in Tacitus s works Indeed it deserves close attention by anyone interested in the political and social strategies of high Imperial Rome T Corey Brennan author of The Praetorship in the Roman Republic In Tacitus the historical truth is conveyed in literary truth telling Instead of leaving the two separated as we do Holly Haynes shows that Tacitus put them together in what she calls the combination make believe Her book shines with originality and intelligence while opening the way to Tacitus s canny wisdom Harvey Mansfield author of Machiavelli s Virtue

Belief and Make-Believe George, 2013-12-01 Why do so many people sometimes even intelligent people swallow the preposterous claims of religion G A Wells the leading freethinker of our time tries to shed light on this puzzle in his entertaining and enormously learned book Belief and Make Believe Professor Wells begins by analyzing the nature of belief To dispel popular confusions on the relation between words and thoughts he compares the thinking process of scientists laymen and chimpanzees The power of emotion and instinct to help form people s ideological outlooks is analyzed by preference to defiance and reliance polar attitudes which arise from the need for dominance and submission in primate groups Wells shows the influence of defiance and reliance in patriotism and in monotheistic religions where submission to the will of the omnipotent is a wonderful technique for feeling secure in the face of life s actual and ineradicable dangers Since the knowledgeable Christians now accept that the Bible is uneven unreliable and sometimes morally abhorrent and that the New Testament account of the origin of Christianity is mostly

legend various attempts have been made to save something from the debris by selective re interpretation Wells evaluates several typical examples showing how the apologists shrink from the clear implications of their arguments which would demolish the whole edifice of Christian doctrine Finally Professor Wells debunks some of the extravagant and mystical claims that have been made for the arts notably poetry as quasi religious vehicles for gaining insights into the human condition

Religion as Make-Believe Neil Van Leeuwen,2023-11-21 Drawing on a range of hard evidence Neil Van Leeuwen shows that the psychological mechanisms underlying religious belief are the same as those enabling imaginative play He argues that we should therefore understand religious belief as a form of make believe that people use to define their group identity and express the values sacred to them *Lawrence and Aaronsohn* Ronald Florence,2007-07-19 The rivalry that presaged

the world s most tenacious conflict As the Arab Israeli conflict continues to plague the Middle East historian Ronald Florence offers extraordinary new insights on its origins This is the story of T E Lawrence the young British officer who became famous around the world as Lawrence of Arabia Aaron Aaronsohn an agronomist from Palestine and the antagonism that divided them over the fate of the dying Ottoman Empire during World War I a clash of visions that set Arab nationalism and Zionism on a direct collision course that reverberates to this day *Travel Writing in the Nineteenth Century* Tim

Youngs,2006-09-01 Long popular with a general readership travel writing has in the past three decades or so become firmly established as an object of serious and multi disciplinary academic inquiry Few of the scholarly and popular publications that have focused on the nineteenth century have regarded the century as a whole This broad volume examines the cultural and social aspects of travel writing on Africa Asia America the Balkans and Australasia **How To Make A Negro Christian**

Kamau Makesi-Tehuti,2006-03-31 What will be the benefit of giving enslaved Africans christianity It is a matter of astonishment that there should be any objection at all for the duty of giving religious instruction to our Negroes and the benefits flowing from it should be obvious to all The benefits we conceive to be incalculably great and one of them is there will be greater subordination amongst the Negroes page 52 *Magic, Monsters, and Make-Believe Heroes* Douglas E.

Cowan,2019-02-26 *Magic Monsters and Make Believe Heroes* looks at fantasy film television and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story Why do we tell and retell the same stories over and over when we know they can t possibly be true Contrary to popular belief it s not because pop culture has run out of good ideas Rather it is precisely because these stories are so fantastic some resonating so deeply that we elevate them to the status of religion

Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master to Mad Max Douglas E Cowan offers a modern manifesto for why and how mythology remains a vital force today *Highest Stage Of The Development Of Capitalism In The United States And Its Effects On The American Family, Volume III, Book II, 1960 To 1980* Lionel D. Lyles, 2024-04-08 For 10 000 years before any European immigrants arrived on the North American Continent Native American Indians engaged in a communal lifestyle From 1600 to 1791 American Colonists established a thriving home production economy and having ownership of their tools or means of production they produced everything they needed to survive They were self reliant and the American Colonists sold their excess goods to merchants who resold them for a profit By 1791 the merchants were able to start the first textile factories as a result which brought an abrupt end to the home production economy and the beginning of American Capitalism Former independent colonists were now forced into the textile factory and the first wage contract appeared in America The wage contract also set in motion a contradiction between the capitalist owners of the means of production and the new American Working Class The wage contract allowed the owners of working class labor and the instruments of production to evolve into an American Ruling Class and the producers of all commodities and wealth became the American Working Class People wage workers class Because of their divergent interests the two classes formed a class contradiction and the latter became known as the capitalist American Ruling Class Opposite and the American Working Class Opposite People wage workers This development occurred mainly in the northern factory economy while in the South uncompensated African Slave Labor was dominant which was owned by an American Slaveholding Class By 1860 the contradiction between the capitalist American Ruling Class Opposite owner of the wage labor system came into a head on contradiction with uncompensated African Slave Labor and a bloody Civil War was fought to determine which type of means of production would prevail and dominate during the 20th Century The South was defeated and the wage contract system became nationalized Therefore throughout the twentieth Century including the beginning of the new Millennium the capitalist American Ruling Class Opposite expropriated the labor s product of the American Working Class Opposite People wage workers which resulted in this class accumulation of multiple billions of dollars of Surplus Value and simultaneously this loss translated into the American Working Class Opposite People wage workers increasing alienation estrangement loss self identity self expression and freedom **Old World Empires** Ilhan Niaz, 2014-03-26 This book is a sweeping historical survey of the origins development and nature of state power It demonstrates that Eurasia is home to a dominant tradition of arbitrary rule mediated through military civil and ecclesiastical servants and a marginal tradition of representative and responsible government through autonomous institutions The former tradition finds expression in hierarchically organized and ideologically legitimated continental bureaucratic states while the latter manifests itself in the state of laws In recent times the marginal tradition has gained in popularity and has led to continental bureaucratic states attempting to introduce democratic and constitutional reforms These attempts have rarely altered the actual manner in

which power is exercised by the state and its elites given the deeper and historically rooted experience of arbitrary rule Far from being remote the arbitrary culture of power that emerged in many parts of the world continues to shape the fortunes of states To ignore this culture of power and the historical circumstances that have shaped it comes at a high price as indicated by the ongoing democratic recession and erosion of liberal norms within states that are democracies
