Piracy, Maritime Terrorism and Securing the Malacca Straits Graham Gerard Ong-Webb, 2003-08-01 Maritime piracy continues to persist as a significant phenomenon revealing a range of social historical geo political security and economic issues Today the waters of Southeast Asia serve as the dominant region for the occurrence of piracy and the challenges it poses to regional security and Malacca Straits security in particular As a second instalment within the Series on Maritime Issues and Piracy in Asia by the International Institute of Asian Studies Leiden University and the Institute of Southeast Asian Studies the authors of this volume add fresh perspectives to the ongoing debate about piracy the threat of maritime terrorism and the challenge of securing the Malacca Straits today *Transnational Actors in War and Peace* David Malet, Miriam J. Anderson, 2017-06-01 Transnational Actors in War and Peace provides a comparative examination of a range of transnational actors who have been key to the conduct of war and peace promotion and of how they interact with states and each other It explores the identities organization strategies and influence of transnational actors involved in contentious politics armed conflict and peacemaking While the study of transnational politics has been a rapidly growing field to date the disparate actors have not been analyzed alongside each other making it difficult to develop a common theoretical framework or determine their influence on international security This book brings together a diverse set of scholars focused on a range of transnational actors such as foreign fighters terrorists private military security companies religious groups diasporas NGOs and women s peace groups Malet and Anderson provide the standard for future study of transnational actors in this work intended for those interested in security studies international relations conflict resolution and global governance Security Sector Reform in Southeast Asia F. Heiduk, 2014-03-07 Successful reform of the security sector has been regarded as pivotal for a successful transition from authoritarianism to democracy by Western donors A global cast of contributors examines SSR in a variety of policy fields in Southeast Asia paying specific attention to the adaption of Western reform concepts by local actors **The Business of War** James McCarty, Matthew Tapie, Justin Bronson Barringer, 2020-10-01 The Business of War incisively interrogates the development and contemporary implications of the military industrial complex It exposes the moral dangers of life in neoliberal economies dependent upon war making for their growth and brings the Christian tradition s abundance of resources into conversation with this phenomenon In doing so the authors invite us to rethink the moral possibilities of Christian life in the present day with an eye toward faithful resistance to the business of war and its influence in every aspect of our lives In combining biblical historical theological and ethical analyses of the business of war the authors invite us to better understand it as a new moral problem that demands a new faithful response With contributions from Pamela Brubaker Stan Goff Christina McRorie Logan Mehl Laituri Kara Slade Won Chul Shin David Swartz Jonathan Tran Myles Werntz Matthew Whelan Tobia Winright *KIND* Graham Allcott, 2024-10-10 What if someone told you the key to success was kindness While it doesn t always make headlines there is

a growing recognition that kindness is vital to strong performance at work In the broad range of leadership skills kindness is inherently quieter more personal and harder to see and yes less interesting or cinematic than controversial tweets and bullying boss behaviour But kindness builds empathy and trust which ultimately creates a sense of psychological safety and that safety leads to more creativity a better quality of decision making safer critical thinking higher levels of staff loyalty flexibility and retention a heightened sense of engagement and ultimately higher productivity and profitability In *KIND* Graham Allcott explores how we can create work cultures that encourage kindness He argues that far from being a fluffy or nebulous idea kindness and empathy are 21st century superpowers which can transform any organization into a dynamic environment where people want to work The author aims to convince the doubters as well as helping already kindful people to articulate the power of kindness and make a stronger case for its greater profile in their working environments Drawing on psychology and neuroscience as well as management theory and business research he shows how kindness helps encourage productive and positive work cultures From busting three important myths that need to be addressed to engage the more cynical reader or the reader's more cynical colleagues to covering *The Eight Principles of Kindfulness at Work* Graham Allcott offers practical advice on how to make kindfulness part of the fabric of your working life so both you and your team can thrive

The Business of Killing Indians William S. Kiser, 2025-03-18 How colonial conquest was driven by state sponsored profit driven campaigns to murder and mutilate Indian peoples in North America From the mid 1600s through the late 1800s states sponsored scalp bounties and volunteer campaigns to murder and mutilate thousands of Indians throughout North America Since central governments in Amsterdam Paris London Mexico City and Washington DC failed to provide adequate military support and financial resources for colonial frontier defense administrators in regional capitals such as New York Quebec City New Orleans Boston Ciudad Chihuahua Austin and Sacramento took matters into their own hands At different times and in almost every part of the continent they paid citizens for killing Indians taking Indians captive scalping or beheading Indians and undertaking other forms of performative violence As militant operatives and civilians alike struggled to prevail over Indigenous forces they considered barbaric and savage they engaged in not just plundering slaving and killing but also dismembering corpses for symbolic purposes and for profit Although these tactics mostly failed in their intent to exterminate

populations state sponsorship of indiscriminate violence took a significant demographic toll by flooding frontier zones with murderous units whose campaigns diminished Indigenous power reduced tribal populations and forced weakened survivors away from traditional homelands High wages for volunteer campaigning along with cash bounties for Indian body parts and the ability to take captives and keep valuable plunder promoted a state sponsored profit opportunity for civilians

Postmodern War Chris Hables Gray, 2013-11-12 Postmodern War poses an urgent challenge to the ways we conceptualize and actually wage war in our high technology age Computerization and artificial intelligence have brought about a revolution in warfare spawning both increasingly powerful weapons and a rhetoric which disguises their apocalyptic potential in catch phrases like smart weapons and bloodless combat Postmodern War examines contemporary practices of war defining and critiquing trendy military doctrines hidden behind phrases like Infowar and Cyberwar the roles of those who manipulate high technology those who are manipulated by it and those who are increasingly merging with it the role of peace activists and socially responsible scientists in countering dangerous assumptions made by a postmodern military Far from opposing technological change however Gray finds new hopes for peace in the twenty first century Provocative and far reaching in its scope the book argues that postmodern war has left us poised between the most dreadful and most utopian of alternatives we may eradicate either the human race or war itself
