## **Making America The Cultural Work Of Literature:**

**Making America** Susanne Rohr, Peter Schneck, Sabine Sielke, 2000 Making America tackles issues crucial to the formation and continuing re imagination of American identity and accordingly crucial to the field of American Studies from contemporary theoretical positions The essays collected in this volume are based on the premise that literature and other cultural artifacts make culture work and thus make culture Hence they explore from various critical angles the interdependencies of this process whereby American cultural and national identity has been and still is shaped and challenged at the same time Consequently the volume foregrounds the rhetorical strategies which orchestrating various conflicting cultural forces locations and voices produce the multi faceted phenomenon America The central interest which animates the critical work of the collaborative project of Making America is the dialogue between text and theory

**Reading the Social in American Studies** Astrid Franke, Stefanie Mueller, Katja Sarkowsky, 2022-03-12 Reading the Social in American Studies offers a unique exploration of the advantages and benefits in using sociological terms and concepts in American literary and cultural studies and conversely in using literature understood broadly to uncover a microlevel of the social Its temporal scope ranges from the early 19th to the 21st century providing a historical dimension that is otherwise often missing from studies on the conjunction of literature and sociology The contributors approaches include genre reflections as well as close readings theoretical discussions of crucial sociological terms and literary observations backed up by empirical sociological studies The book will familiarize international readers with ideas on the social from both sides of the Atlantic including scholarship of such figures as John Dewey Georg Simmel Norbert Elias and Pierre Bourdieu

**The Cambridge Companion to the Literature of the American Renaissance** Christopher N. Phillips, 2018-03-07 The American Renaissance has been a foundational concept in American literary history for nearly a century The phrase connotes a period as well as an event an iconic turning point in the growth of a national literature and a canon of texts that would shape American fiction poetry and oratory for generations F O Matthiessen coined the term in 1941 to describe the years 1850 1855 which saw the publications of major writings by Hawthorne Melville Emerson Thoreau and Whitman This Companion takes up the concept of the American Renaissance and explores its origins meaning and longevity Essays by distinguished scholars move chronologically from the formative reading of American Renaissance authors to the careers of major figures ignored by Matthiessen including Stowe Douglass Harper and Longfellow The volume uses the best of current literary studies from digital humanities to psychoanalytic theory to illuminate an era that reaches far beyond the Civil War and continues to shape our understanding of American literature

**Making Americans** Gary D. Schmidt, 2013-12 Making Americans is a study of a time when the authors and illustrators of children s books consciously set their eyes on national and international sights with the hope of bringing the next generation into a full sense of citizenship Schmidt examines the literature for young people published during a momentous period in our nation s past and documents in detail

its role as an instrument of nation building and social reform A thought provoking contribution to our understanding of children s books as cultural transmitters and transformers      Space in America Klaus Benesch, Kerstin Schmidt, 2005

America s sense of space has always been tied to what Hayden White called the narrativization of real events If the awe inspiring manifestations of nature in America Niagara Falls Virginia s Natural Bridge the Grand Canyon etc were often used as a foil for projecting utopian visions and idealizations of the nation s exceptional place among the nations of the world the rapid technological progress and its concomitant appropriation of natural spaces served equally well as David Nye argues to promote the dominant cultural idiom of exploration and conquest From the beginning American attitudes towards space were thus utterly contradictory if not paradoxical a paradox that scholars tried to capture in such hybrid concepts as the middle landscape Leo Marx an engineered New Earth Cecelia Tichi or the technological sublime David Nye Not only was America s concept of space paradoxical it has always also been a contested terrain a site of continuous social and cultural conflict Many foundational issues in American history the dislocation of Native and African Americans the geo political implications of nation building immigration and transmigration the increasing division and clustering of contemporary American society etc involve differing ideals and notions of space Quite literally space and its various ideological appropriations formed the arena where America s search for identity national political cultural has been staged If American democracy as Frederick Jackson Turner claimed is born of free land then its history may well be defined as the history of the fierce struggles to gain and maintain power over both the geographical social and political spaces of America and its concomitant narratives The number and range of topics interests and critical approaches of the essays gathered here open up exciting new avenues of inquiry into the tangled contentious relations of space in America Topics include Theories of Space Landscape Nature Technoscape Architecture Urban Utopia Literature Performance Film Visual Arts      **Rethinking Postmodernism(s)** Katrin Amian, 2008

Rethinking Postmodernism s revisits three historical sites of American literary postmodernism the early postmodernism of Thomas Pynchon s V 1961 the emancipatory postmodernism of Toni Morrison s Beloved 1987 and the late or post postmodernism of Jonathan Safran Foer s Everything Is Illuminated 2002 For the first time it confronts these texts with the pragmatist philosophy of Charles Sanders Peirce staging a conceptual dialogue between pragmatism and postmodernism that historicizes and recontextualizes customary readings of postmodern fiction The book is a must read for all interested in current reassessments of literary postmodernism in new critical dialogues between seminal postmodern texts and in recent attempts to theorize the post postmodern moment      Handbook of the American Novel of the Twentieth and Twenty-First Centuries Timo Müller, 2017-01-11

Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on

dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification A

*Critical History of the New American Studies, 1970-1990* Günter H. Lenz, 2016-12-06 Starting in 2005 Gunter H Lenz began preparing a book length exploration of the transformation of the field of American Studies in the crucial years between 1970 and 1990 As a commentator on contributor to and participant in the intellectual and institutional changes in his field Lenz was well situated to offer a comprehensive and balanced interpretation of that seminal era Building on essays he wrote while these changes were ongoing he shows how the revolution in theory the emergence of postmodern socioeconomic conditions the increasing globalization of everyday life and postcolonial responses to continuing and new forms of colonial domination had transformed American Studies as a discipline focused on the distinctive qualities of the United States to a field encompassing the many different Americas in the Western Hemisphere as well as how this complex region influenced and was interpreted by the rest of the world In tracking the shift of American Studies from its exceptionalist bias to its unmanageable global responsibilities Lenz shows the crucial roles played by the 1930s Left in the U S the Frankfurt School in Germany and elsewhere between 1930 and 1960 Continental post structuralism neo Marxism and post colonialism Lenz s friends and colleagues now his editors present here his final backward glance at a critical period in American Studies and the birth of the Transnational

City on a Hill Abram C. Van Engen, 2020-01-01 A fresh original history of America s national narratives told through the loss recovery and rise of one influential Puritan sermon from 1630 to the present day In this illuminating book Abram C Van Engen shows how the phrase city on a hill from a 1630 sermon by Massachusetts Bay governor John Winthrop shaped the story of American exceptionalism in the twentieth century By tracing the history of Winthrop s speech its changing status through time and its use in modern politics Van Engen asks us to reevaluate our national narratives He tells the story of curators librarians collectors archivists antiquarians and other often anonymous figures who emphasized the role of the Pilgrims and Puritans in American history paving the way for the saving and sanctifying of a single sermon and its eventual transformation into an American tale This sermon s rags to riches rise reveals the way national stories take shape and shows us how they continue to influence competing visions of the country the many different meanings of America that emerge from its literary past

*Culture, Genre, and Literary Vocation* Michael Davitt Bell, 2001 In Culture Genre and Literary Vocation Michael Davitt Bell charts the important and often overlooked connection between literary culture and authors careers Bell s influential essays on nineteenth century American writers originally written for such landmark projects as The Columbia Literary History of the United States and The Cambridge History of American Literature are gathered here with a major new essay on Richard Wright Throughout Bell revisits issues of genre with an eye toward the unexpected details of authors lives and invites us to reconsider the hidden functions that terms such as romanticism and realism served for authors and their critics Whether tracing the demands of the market or the expectations of readers Bell examines the intimate relationship between literary production and culture each essay closely links the milieu in which American writers worked with the trajectory of their storied careers

Crowd Violence in American Modernist Fiction Benjamin S. West, 2013-04-05 This study explores numerous depictions of crowd violence literal and figurative found in American Modernist fiction and shows the ways crowd violence is used as a literary trope to examine issues of racial gender national

and class identity during this period Modernist writers consistently employ scenes and images of crowd violence to show the ways such violence is used to define and enforce individual identity in American culture James Weldon Johnson William Faulkner Richard Wright Ernest Hemingway F Scott Fitzgerald and John Steinbeck for example depict numerous individuals as victims of crowd violence and other crowd pressures typically because they have transgressed against normative social standards Especially important is the way that racially motivated lynching and the representation of such lynchings in African American literature and culture becomes a noteworthy focus of canonical Modernist fiction composed by white authors
