Making And Remaking Of Christian Doctrine:

The Making and Remaking of Christian Doctrine Sarah Coakley, David Arthur Pailin, 1993 Maurice Wiles was Regius Professor of Divinity at the University of Oxford from 1970 1991 To celebrate his seventieth birthday a group of distinguished friends and colleagues have written this important series of original and perceptive essays on the twin themes of making and remaking Christian doctrine The topics covered in this thought provoking collection range from the notion of divine action in Hebrew Wisdom literature to reflections on the nature of the ministry from the concept of God and the doctrines of Christology and of the Trinity to the character of theological reflection and from revelation and tradition to the *lex orandi* the nature of interpretation in religion and the historical basis of theological understanding The Formation of Christian Doctrine Malcolm B. Yarnell, Malcolm B. Yarnell, III, 2007 The Formation of Christian Doctrine is an advanced academic study of how Christian doctrine develops distinguishing in particular between scholarly term *inventio* and less revelatory process of invention **The Life of Christian Doctrine** Mike Higon, 2020-07-09 The lives of Christian churches are shaped by doctrinal theology That is they are shaped by practices in which ideas about God and God's ways with the world are developed discussed and deployed This book explores those practices and asks why they matter for communities seeking to follow Jesus Taking the example of the Church of England this book highlights the embodied affective and located reality of all doctrinal practices and the biases and exclusions that mar them It argues that doctrinal theology can in principle help the church know God better even though doctrinal theologians do not know God better than their fellow believers It claims that it can help the church to hear in Scripture challenges to its life including to its doctrinal theology It suggests that doctrinal disagreement is inevitable but that a better quality of doctrinal disagreement is possible And finally it argues that by encouraging attention to voices that have previously been ignored doctrinal theology can foster the ongoing discovery of God's surprising work *Doing Theology Today* Schubert M. Ogden, 2006-07-01 Here is an essential handbook for all those who would do theology today written by one of America's most distinguished theologians The book is divided into four parts Theology of Theology which extends deepens and renders more persuasive the author's lines of thought on theological prolegomena Theology and Christology which argues that to do theology today one must be concerned above all with the fundamental questions of God and Jesus Theology of Religions which implies that to do theology today is to do it in a truly global context in the presence of the plurality of ways of being human including those represented by non Christian religions Theology in Conversation which claims that to do theology today is to enter into close and sustained conversation with others who either are or have been engaged in the same task of critical reflection **The Nature of Christian Doctrine** Alister E. McGrath, 2024 Alister E McGrath provides a fresh and engaging account of the origins development and abiding importance of Christian doctrine The book explores why Christianity developed doctrines in the first place and why doctrines continue to be vital to the present and future of Christian communities **Rowan Williams** Rupert Shortt, 2003-09-01 The first

occupant of Lambeth Palace in several generations with an international reputation as a theologian he is nevertheless often considered a difficult writer more admired than read and understood Many people remain puzzled by how his social radicalism can coexist with a reputation for orthodoxy in doctrine Rowan Williams *An Introduction* is the first thorough account of the Archbishop's career and evolution as a thinker A long biographical chapter is followed by three further sections on key aspects of Williams's theology spirituality and politics The result is a sympathetic but not uncritical profile of a leader with unmatched talents for enhancing dialogue between Christianity and secular culture

On Rowan Williams Matheson Russell, 2009-01-01 Theologian poet public intellectual and clergyman Rowan Williams is one of the leading lights of contemporary British theology He has published over twenty books and one hundred scholarly essays in a distinguished career as an academic theologian that culminated in his appointment as Lady Margaret Professor of Divinity at Oxford University Williams left this post to serve in the Anglican Church first as Bishop of Monmouth then Archbishop of Wales before finally being enthroned in 2003 as the 104th Archbishop of Canterbury In this collection of essays a talented younger generation of Australian theologians critically analyzes the themes that bind together Williams's theology These sympathetic yet probing essays traverse the full breadth of Williams's work from his studies on Arius the Desert Fathers Hegel and Trinitarian theology to his more pastoral writings on spirituality sexuality politics and the Anglican Church

The Closing of the Western Mind Charles Freeman, 2007-12-18 A radical and powerful reappraisal of the impact of Constantine's adoption of Christianity on the later Roman world and on the subsequent development both of Christianity and of Western civilization When the Emperor Constantine converted to Christianity in 368 AD he changed the course of European history in ways that continue to have repercussions to the present day Adopting those aspects of the religion that suited his purposes he turned Rome on a course from the relatively open tolerant and pluralistic civilization of the Hellenistic world towards a culture that was based on the rule of fixed authority whether that of the Bible or the writings of Ptolemy in astronomy and of Galen and Hippocrates in medicine Only a thousand years later with the advent of the Renaissance and the emergence of modern science did Europe begin to free itself from the effects of Constantine's decision yet the effects of his establishment of Christianity as a state religion remain with us in many respects today Brilliantly wide ranging and ambitious this is a major work of history

Novel Theology Darren J. N. Middleton, 2000 Literature and theology constantly deconstruct each other Suggesting that this deconstructive assignment is one that cannot but be in process itself Middleton returns to it throughout his study

The Remaking of Christian Doctrine Maurice Wiles,1974 **The Tradition of Liberal Theology** Michael Langford,2014-01-20 Describes and defends a long standing tradition that maintains a proper balance between religious faith and human rationality Many of the early apologists including Justin Martyr and Origen presented a defense of the Christian faith that sought to combine the message of the Gospels with respect for the kind of rationality associated with Socrates and his followers Michael Langford argues that despite many misunderstandings the term liberal theology can properly be used to describe this tradition Langford s Tradition of Liberal

Theology begins with a historical and contemporary definition of liberal theology and identifies eleven typical characteristics such as a nonliteralist approach to interpreting Scripture a rejection of original guilt and the joint need for faith and works Langford then gives vignettes of thirteen historical Christian figures who personify the liberal tradition Finally he explores some contemporary alternatives to liberal theology fundamentalism the Catholic magisterium Karl Barth s theology and presents a rational defense of the tradition of liberal theology

Theology and Contemporary Critical Theory Graham Ward,1996-09-06 Graham Ward examines the core skills approaches and concepts employed in the study of theology and relates them to the work of relevant critical theorists Distinguishing theology s concern with representation history ethics and the experience of transcendence the book then reviews the work of two or three particular postmodern thinkers whose ideas challenge the traditional ways theology has handled these concerns The book suggests the way in which the study of theology may be transformed through a developed engagement with contemporary critical theory

The Spirit of God and the Christian Life JinHyok Kim,2014 Revision of author s thesis Ph D University of Oxford 2012 under title The spirit of God and the Christian life a constructive study of Karl Barth s pneumatology with special reference to his incomplete doctrine of redemption

Seeking the Welfare of the City Naomi Noguchi Reese,2025-01-27 In the history of public theology the Holy Spirit s role in creation has been underexplored If the Holy Spirit is the agent of transformation in creation why have so many theologians neglected the Spirit s activity in the context of public theology One of the causes of such neglect derives from a long held belief in dualism or its assumption As a result generally speaking theologians have neglected the eschatological aspect of the Spirit s work over creation and instead have devoted much of their attention to the immanent spiritual aspect of the Spirit s work Hence a theology is needed that recaptures the eschatological aspect of the Spirit s work over creation and Colin E Gunton s pneumatology that is trinitarianly formulated and eschatologically conceived brings a fresh approach to public theology and moves us toward a full bodied holistic and trinitarian public theology that takes into account the triune God This study attempts to draw upon the resources uncovered in Gunton s pneumatology to outline applications for Christian engagement of the public square for the twenty first century The book concludes with criteria for discerning the Spirit s work in the public square to give us practical ways to see how the Spirit may be working in the public square for transformation

Covenant of Redemption in the Trinitarian Theology of Jonathan Edwards Reita Yazawa,2019-10-11 Recently the immanent Trinity God as in himself has been criticized as abstract and impractical as opposed to the economic Trinity God in relation to the world Many scholars argue that the immanent Trinity is detached from the real life of believers and God s economic work of redemption and thus abstract and impractical But is this assumption itself really true What if the blueprint of God s work of redemption is already located in the immanent Trinity as the divine idea What if Jonathan Edwards arguably the American greatest theologian expounds this doctrine as a vital driving force in his theology Rediscovering the doctrine of the covenant of redemption will help us to see that the immanent Trinity actually

is not abstract but highly practical simply because the redemption of the believers hinges on the divine plan located there This study is a fruit of the recent convergence of the resurging doctrine of the Trinity and the renaissance of studies of Jonathan Edwards **Heavenly Bodies** Sigurdson,2016 Deep and wide study of 2 000 years of Christian thought on the human body Does Christianity scorn our bodies Friedrich Nietzsche thought so and many others since him have thought the same Ola Sigurdson contends to the contrary that Christianity understood properly in fact affirms human embodiment Presenting his constructive contributions to theology in relation to both historical and contemporary conceptions of the body Sigurdson begins by investigating the anthropological implications of the doctrine of the incarnation He then delves into the concept of the gaze and discusses a specifically Christian gaze of faith that focuses on God embodied in Jesus Finally he weaves these strands into a contemporary Christian theology of embodiment Sigurdson s profound engagement with the whole history of Christian life and thought not only elucidates the spectrum of Christian perspectives on the body but also models a way of thinking historically and systematically that other theologians will find stimulating and challenging
