## **Making Microplans:**

Microplanning manual to guide implementation of preventive chemotherapy to control and eliminate neglected tropical diseases World Health Organization, 2022-09-05 Neglected tropical diseases NTDs affect more than 1 billion people globally causing serious long term health effects Timely effective interventions such as preventive chemotherapy which involves the regular administration of safe effective medicines to a defined population irrespective of its infection status reduce morbidity and mortality The new NTD road map advocates preventive chemotherapy as a core intervention to reduce the burden of NTDs Effective administration of preventive chemotherapy relies largely on operational planning which addresses the need for programmes to reach all eligible people and maximize community demand for the intervention Local bottom up planning microplanning fosters effective implementation and monitoring of public health programmes Originally public health implementers developed microplanning for use in vaccination campaigns but various programmes including those for control and elimination of NTDs now use it This manual is based on these and other country experiences in microplanning of preventive chemotherapy for NTDs It describes the basic concepts of microplanning and provides steps and examples of tools to develop and implement a microplan Since microplanning originates at the lowest level of implementation and is a bottom up process the main target audience of this manual is individuals who are responsible for oversight of preventive chemotherapy against NTDs

*The Spacemaker's Guide to Big Change* Nabeel Hamdi, 2014-06-05 This book gives definition to participatory practice as a necessary form of activism in development planning for cities It gives guidance on how practice can make space for big and lasting change and for new opportunities to be discovered It points to ways of building synergy and negotiating our way in the social and political spaces in between conventional and often competing ideals public and private interests top down and bottom up formal and informal the global agendas which outsiders promote and the local needs of insiders for example It offers guidance on process designed to close gaps and converge worlds which we know have become divisive and discriminatory working from the detail of everyday life in search of beginnings that count building out and making meaningful locally the abstractions of the global causes we champion poverty alleviation environmental sustainability resilience Practice the collective process by which decisions are negotiated plans designed and actions taken in response to needs and aspirations locally and globally we will see is not just about being practical but more Its purpose is to give structure to our understanding of the order and disorder in our cities today then to disturb that order when it has become inefficient or inequitable even change it It is to add moral value to morally questionable planning practice and so build a social economy for the satisfaction of human need Practice in these spaces in between redraws the boundaries of expectation of disciplinary work and offers a new high ground of moral purpose from which to be more creative more integrated more relevant more resourceful more strategic

Making Microplans Reinhard Goethert, Nabeel Hamdi, 1988 Microplanning is a community based process which enables local people to prepare and implement programmes for

settlement upgrading Local participants contribute to both the content and structure of programmes Case studies from Chile and Sri Lanka RRA Notes Number 16 Special Issue on Applications for Health IIED.,1992 World At The Crossroads: New Conflicts New Solutions A - Proceedings Of The 43rd Pugwash Conference On Science And World Affairs Joseph Rotblat,1994-11-08 Photonics and nanotechnology are popular emerging fields of technology This proceedings volume contains over 12 selected papers from the International Workshop and Conference on Photonics and Nanotechnology ICPN 2007 held in Pattaya Thailand from December 16 18 2007 The papers cover a wide range of topics from optical and nonlinear optical physics to nanoelectronics **Regenerating Agriculture** Jules N. Pretty,2013-11-05 For the past 50 years the main goal of agriculture has been to increase production at any price using high amounts of fertilizers and pesticides and intensive industrial methods This has caused damage to the environment and widespread rural depopulation This study shows that there is a viable alternative a form of agriculture which conserves resources maintains rural employment and minimizes the external costs without loss of productivity Using case studies from industrialized and developing countries the author describes the new technical institutional and policy options available **Struggle for Shelter, the - 7043iiied** International Institute for Environment & Development,1997 *The Community Planning Event Manual* Nick Wates,John Thompson,2013-06-17 This book helps promote practical work that changes the way people deliver projects in the sustainable communities sector It is useful user friendly and easy to follow This is the kind of book the busy practitioners of today need to support them in their work Professor Peter Roberts chairman of ASC the Academy for Sustainable Communities Nick Wates is a trail blazer in communicating clear concise and immediately useful tools and techniques that transmit energy and make you want to get stuck in This publication is amongst a handful of documents that all urban practitioners should have to **Asian Economic Systems** Steven Rosefielde,2013 Asian Economic Systems provides readers with a crisp analytic framework concepts and narrative highlighting contemporary Asia s systemic diversity The framework facilitates insightful comparison with the western neoclassical ideal This method allows students to easily appreciate the special virtues of various Asian economic systems and compare them with those offered in the west This objective is buttressed with background material on Asian economic history where appropriate together with basic data on Asian and global economic performance to help students integrate concepts with experience The approach provides an objective platform for discussing Asia s place and future in the new global order It makes it clear that there is no universally best economic system There are a variety of good systems and nations should choose the system that best suits their cultural heritage values and aspirations The approach informs discussions about the wisdom of forming regional free trade zones economic communities like ASEAN and unions analogous to the European Union as well as forging a one world system of economic governance Also Asian Economic Systems has a secondary goal It provides the tools needed for training students in how to apply microeconomic macroeconomic and financial principles to practical issues of systems and policies The book

focuses on East and Southeast Asia The term Asia is used as a shorthand for the cultural region dominated historically by Confucian kinship networks Japanese communalism and Theravada Buddhism and more recently by MarxistOCoLeninist communism It excludes the Middle East Central Asia the Himalayan states South Asia Malaysia Indonesia the Philippines Russia and America s Asia Pacific possessions The book identifies and elaborates four rival market systems in contemporary Asia each with its own distinctive performance characteristics potentials and humanist properties 1 communist China Vietnam Laos and Cambodia 2 Confucian Taiwan Singapore Hong Kong and South Korea 3 communal Japan and 4 Theravada Buddhist Thailand and Sri Lanka Their comparative merit is partly obscured by differences in stages of economic development epochal and conjunctural factors but their special positive and negative attributes are unmistakable and are compared with North Korea s communist command system which is the region s fifth core alternative to democratic free enterprise
