Making Of A Moonie Choice Or Brainwashing

**James R. Lewis, Jesper Aagaard
Petersen**

Making Of A Moonie Choice Or Brainwashing:

The Making of a Moonie, 1984 Religious Freedom and the Global Regulation of Ayahuasca Beatriz Caiuby Labate, Clancy Cavnar, 2023-03-29 This book offers a comprehensive view of the legal political and ethical challenges related to the global regulation of ayahuasca bringing together an international and interdisciplinary group of scholars Ayahuasca is a psychoactive brew containing N N Dimethyltryptamine DMT which is a Schedule I substance under the United Nations Convention on Psychotropic Substances and the legality of its ritual use has been interpreted differently throughout the world The chapters in this volume reflect on the complex implications of the international expansion of ayahuasca from health spirituality and human rights impacts on individuals to legal and policy impacts on national governments While freedom of religion is generally protected this protection depends on the recognition of a religion s legitimacy and whether particular practices may be deemed a threat to public health safety or morality Through a comparative analysis of different contexts in North America South America and Europe in which ayahuasca is consumed the book investigates the conceptual philosophical and legal distinctions among the fields of shamanism religion and medicine It will be particularly relevant to scholars with an interest in indigenous religion and in religion and law *The Oxford Handbook of Religious Conversion* Lewis Ray Rambo, Charles E. Farhadian, 2014 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion which for centuries has profoundly shaped societies cultures and individuals throughout the world Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon This volume examines the experiences of individuals and communities who change religions those who experience an intensification of their religion of origin and those who encounter new religions through colonial intrusion missionary work and charismatic and revitalization movements The thirty two innovative essays provide overviews of the history of particular religions including Hinduism Buddhism Confucianism Taoism Sikhism Islam Christianity Judaism indigenous religions and new religious movements The essays also offer a wide range of disciplinary perspectives psychological sociological anthropological legal political feminist and geographical on methods and theories deployed in understanding conversion and insight into various forms of deconversion *The New Heretics of France* Susan Palmer, 2011-10-21 Since the Age of Enlightenment France has upheld clear constitutional guidelines that protect human rights and religious freedom Today however intolerant attitudes and discriminatory practices towards unconventional faiths have become acceptable and even institutionalized in public life Susan Palmer offers an insightful examination of France s most stigmatized new religions or sectes and the public management of religious and philosophical minorities by the state The New Heretics of France tracks the mounting government sponsored anticult movement in the wake of the shocking mass suicides of the Solar Temple in 1994 and the negative impact of this movement on France s most visible religious minorities whose names appeared on a blacklist of 172

sectes commissioned by the National Assembly Drawing on extensive interviews and field research Palmer describes the controversial histories of well known international NRMs the Church of Scientology Raelian Movement and Unificationism in France as well as esoteric local groups Palmer also reveals the partisanship of Catholic priests journalists village mayors and the passive public who support La R publique s efforts to control minority faiths all in the name of Liberty Equality and Fraternity Drawing on historical and sociological theory Palmer analyzes France s war on sects as a strategical response to social pressures arising from globalization and immigration Her study addresses important issues of religious freedom public tolerance and the impact of globalization and immigration on traditional cultures and national character

Misunderstanding Cults Benjamin Zablocki, Thomas Robbins, 2001-12-01 *Misunderstanding Cults* provides a uniquely balanced contribution to what has become a highly polarized area of study Working towards a moderate third path in the heated debate over new religious movements or cults this collection includes contributions from both scholars who have been characterized as anticult and those characterized as cult apologists The study incorporates multiple viewpoints as well as a variety of theoretical and methodological perspectives with the stated goal of depolarizing the discussion over alternative religious movements A prominent section within the book focuses explicitly on the issue of scholarly objectivity and the danger of partisanship in the study of cults The collection also includes contributions on the controversial and much misunderstood topic of brainwashing as well as discussions of cult violence children brought up in unconventional religious movements and the conflicts between alternative religious movements and their critics Unique in its breadth this is the first study of new religious movements to address the main points of controversy within the field while attempting to find a middle ground between opposing camps of scholarship

Religious Freedom Gerhard Besier, Olaf Lange, Ilkka Huhta, 2019-05 Restrictions with respect to religious freedom have been in place in authoritarian states for a number of years We can observe a new period of co operation between authoritarian states and state churches Some churches have assumed a clearly political position even in belligerent conflicts by justifying wars criminalizing their religious competitors and thereby exploiting the Christian Gospel for non Christian purposes In this volume scholars from Europe and North America discuss the core objective of religious freedom in the West and East seeking measures to encourage religions to act and interact independent of deliberate political stances to maintain their distance from territorial governments and to strengthen the principle of religious freedom and thereby their own denomination as well

Antiquity and Social Reform Dawn Hutchinson, 2010-06-09 Although religious innovation in America has historically been the norm rather than the exception mainstream Americans have often viewed new religious movements with suspicion and occasionally with outright alarm The question motivating many studies of new religious movements has been why would someone join these religions In *Antiquity and Social Reform* Dawn Hutchinson offers at least one answer to this often repeated query She argues that followers of new religious movements in the 1960s 1980s specifically the Unification Church Feminist Wicca and the Nation of Yahweh

considered these religions to be legitimate because they offered members a personal religious experience a connection to an ancient tradition and agency in improving their world Utilizing an historical approach Antiquity and Social Reform considers the conversion narratives of adherents and primary literature of the formative years of these movements which demonstrates that the religious experiences of the adherents and a resonance with the goals of these religions propelled members into social action

Religion and Politics in America Frank J. Smith, 2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students

Brainwashing Massimo Introvigne, 2022-07-21 The events of January 6 2021 gave new currency to the idea of brainwashing Some claimed that Trump s followers had been brainwashed while others insisted that a deep state had brainwashed most Americans into accepting a rigged election Scholars who explain that brainwashing theories have long been rejected by most academics and courts of law find it difficult to be heard Brainwashing nevertheless remains a convenient explanation of how seemingly normal citizens convert to unusual religious or political ideologies This Element traces its origins to the idea that conversion to deviant beliefs is due to black magic A more scientific hypnosis later replaced magic and the Cold War introduced the supposedly infallible technique of brainwashing From the 1960s new religious movements more commonly called cults were accused of using brainwashing Most scholars of religion reject the theory as pseudoscience but the controversy continues to this day

Religions in the Modern World Linda Woodhead, Christopher Partridge, Hiroko Kawanami, 2016-01-13 Religions in the Modern World Traditions and Transformations Third Edition is the ideal textbook for those coming to the study of religion for the first time as well as for those who wish to keep up to date with the latest perspectives in the field This third edition contains new and upgraded pedagogic features including chapter summaries key terms and definitions and questions for reflection and discussion The first part of the book considers the history and modern practices of the main religious traditions of the world while the second analyzes trends from secularization to the rise of new spiritualities Comprehensive and fully international in

coverage it is accessibly written by practicing and specialist teachers

Apocalypse and Millennium Kenneth G. C. Newport, 2000-08-10 *Apocalypse and Millennium* argues that far from being a random sequence of bizarre statements millennial schemes including the setting of dates for the second coming of Christ are more often characterised by highly complex and internally consistent interpretations of scripture Such interpretations do not always result in positive outcomes As an example the work of David Koresh is examined at length Koresh styled by some the Wacko from Waco clearly had views which some would find odd However his interpretation of scripture did not lack system or context and to see him in that light is to begin to understand why his message had appeal particularly to those of the Seventh day Adventist tradition The final three chapters in this book outline Koresh's thinking on end time events and trace the line of his interpretative tradition from nineteenth century Millerism through Seventh day Adventism and Davidianism which began in 1929

BOOK JACKET *Recovery from Cults* Michael D. Langone, 1995 Drawing upon the clinical expertise of professionals and the personal experiences of those formerly involved in high intensity mind control groups this book is a comprehensive guide to the cult experience Michael Langone and his colleagues provide practical guidelines for helping former cult members manage the problems they encounter when leaving cults

Polygamy's Rights and Wrongs Lori Gail Beaman, Gillian Calder, 2013-12-01 Assumptions about the harmful nature of polygamy have left little room for debate with monogamy coming to represent a hallmark of advanced societies and polygamy the immoral alternative Yet in this volume eleven scholars ask whether this condemnation is justified by examining among other perspectives the lived experiences of polygamous families In essays that fearlessly face difficult questions of choice dignity and love the authors seek to complicate a conversation that is more often simplified Thoughtful and persuasive *Polygamy's Rights and Wrongs* is both a close consideration of polygamy and a challenging reflection on the ways in which we value family and intimacy

America's Alternative Religions Timothy Miller, 1995-07-01 This is a single volume source of reliable information on the most important alternative religions covering for each such essentials as history theology impact on the culture and current status The chapters of the book were written by experts who study the movements they have written about

The Oxford Handbook of New Religious Movements James R Lewis, 2008-07-17 *The Oxford Handbook of New Religious Movements* both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and religious studies are leading figures in the study of NRMs

Controversial New Religions James R. Lewis, Jesper Aagaard Petersen, 2014 Written by established scholars as well as younger experts in their field this updated and revised second edition of *Controversial New Religions* offers a scholarly dispassionate look at the new religious groups that have generated the most attention in the media and general public

Handbook of Scientology James R. Lewis, 2017-01-05 *The Handbook of Scientology* brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small

tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology s background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorthe Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti Helles y Don Jolly James R Lewis Renee Lockwood Andr s M t T th G bor D niel Nagy Johanna Petsche Erin Prophet Susan Raine David G Robertson Mikael Rothstein Lisbeth Tuxin Rubin Nicole S Ruskell Shannon Trosper Schorey Michelle Swainson Inga B rdsen T llefsen Hugh G Urban Donald A Westbrook and Benjamin Zeller

The Blackwell Companion to the Study of Religion Robert A. Segal,2009-02-04 This prestigious Companion offers the most comprehensive survey todate of the study of religion Featuring a team of international contributors and edited by one of the most widely respected scholars in the field The Blackwell Companion to the Study of Religion provides an interdisciplinary and authoritative guide to the subject Examines the main approaches to the study of religion anthropology the comparative method economics literature philosophy psychology sociology and theology Also covers a diverse range of topical issues such as the body fundamentalism magic and new religious movements Consists of 24 essays written by an outstanding team of international scholars Reviews within each chapter an outline of a particular subfield and traces its development up to the present day Debates how the discipline may look in the future Represents all the major issues methods and positions in the field *Handbook of Children and Youth Studies* Johanna Wyn,Helen Cahill,Hernán Cuervo,2024-08-20 This second edition of the handbook gives a new scientific perspective to youth and childhood studies as multi scientific and interdisciplinary subjects which as such have not yet found their own framing in a particular discipline It provides theoretical and methodological key debates and issues that develop and add an understanding of childhood and youth research discipline from a broader perspective The Handbook on Children and Youth Studies draws on current thinking but also challenges theoretical and conceptual orthodoxies in the field drawing on interdisciplinary thinking and critical perspectives It focuses on childhood and youth to address the emerging consensus that the boundaries between childhood youth and adulthood are blurred The view that defining youth and childhood largely in terms of problem topics is out dated Instead the handbook focuses on 16 themes that are open to international perspectives and to different conceptual approaches Each theme is edited by a pair of field editors thereby capturing a plurality of views The 16 themes as a starting point are globally timely and they need scientific debates on the boundaries between childhoods youth and adulthood This handbook will meet the needs of childhood and youth researchers and the academics in the field It recognizes the changing social context of the lives of children and young people while developing theoretical frameworks and discussing about the core substantive issues of Children and Youth Studies *Social Issues in America* James Ciment,2015-03-04 Truly comprehensive in scope and

arranged in A Z format for quick access this eight volume set is a one source reference for anyone researching the historical and contemporary details of more than 170 major issues confronting American society Entries cover the full range of hotly contested social issues including economic scientific environmental criminal legal security health and media topics Each entry discusses the historical origins of the problem or debate past means used to deal with the issue the current controversy surrounding the issue from all perspectives and the near term and future implications for society In addition each entry includes a chronology a bibliography and a directory of Internet resources for further research as well as primary documents and statistical tables highlighting the debates
