The Encyclopedia of Public Choice Charles Rowley, Friedrich Schneider, 2008-01-25 The Encyclopedia provides a detailed and comprehensive account of the subject known as public choice However the title would not convey sufficiently the breadth of the Encyclopedia's contents which can be summarized better as the fruitful interchange of economics political science and moral philosophy on the basis of an image of man as a purposive and responsible actor who pursues his own objectives as efficiently as possible This fruitful interchange between the fields outlined above existed during the late eighteenth century during the brief period of the Scottish Enlightenment when such great scholars as David Hume Adam Ferguson and Adam Smith contributed to all these fields and more However as intellectual specialization gradually replaced broad based scholarship from the nineteenth century onwards it became increasingly rare to find a scholar making major contributions to more than one Once Alfred Marshall defined economics in neoclassical terms as a narrow positive discipline the link between economics political science and moral philosophy was all but severed and economists redefined their role into that of the humble dentist providing technical economic information as inputs to improve the performance of impartial benevolent and omniscient governments in their attempts to promote the public interest This indeed was the dominant view within an economics profession that had become besotted by the economics of John Maynard Keynes and Paul Samuelson immediately following the end of the Second World War

The Representative Claim Michael Saward, 2010-05-13 Representation is more than a matter of elections and parties This book offers a radical new perspective on the subject Representation it argues is all around us a dynamic practise across societies rather than simply a fixed feature of government At the heart of the argument is the straightforward but versatile notion of the representative claim People claim to speak or stand for others in multiple shifting and surprising patterns At the same time they offer images of their constituents and audiences as artists paint portraits Who can speak for and about us in this volatile world of representations Which representative claims can have democratic legitimacy The Representative Claim is set to transform our core assumptions about what representation is and can be At a time when political representation is widely believed to be in crisis the book provides a timely and critical corrective to conventional wisdom on the present and potential future of representative democracy

OECD Public Governance Reviews Promoting Deliberative Democracy in the Basque Country in Spain Lessons from the Tolosa Citizens' Assembly OECD, 2024-09-13 This

report takes stock of the project carried out by the OECD Arantzazulab and public authorities in the town of Tolosa and the province of Gipuzkoa Spain to experiment with the use of public deliberation It explores ways to improving deliberative processes in the Basque region including looking at the link between those who participate in deliberative processes and the broader public the role of civil servants in ensuring ownership of deliberative processes the governance structure or making evaluation and follow up more systematic The report also sets out three pathways to promoting and systemising deliberation across all levels of government in the Basque Country 1 institutionalising deliberative practices 2 embedding deliberation in public administration and 3 mainstreaming deliberation both within and outside government

Democracy and Public Space John R. Parkinson, 2012-01-26 In an online interconnected world democracy is increasingly made up of wikis and blogs pokes and tweets Citizens have become accidental journalists thanks to their handheld devices politicians are increasingly working online and the traditional sites of democracy assemblies public galleries and plazas are becoming less and less relevant with every new technology And yet this book argues such views are leading us to confuse the medium with the message focusing on electronic transmission when often what cyber citizens transmit is pictures and narratives of real democratic action in physical space Democratic citizens are embodied take up space battle over access to physical resources and perform democracy on physical stages at least as much as they engage with ideas in virtual space Combining conceptual analysis with interviews and observation in capital cities on every continent John Parkinson argues that democracy requires physical public space that some kinds of space are better for performing some democratic roles than others and that some of the most valuable kinds of space are under attack in developed democracies He argues that accidental publics like shoppers and lunchtime crowds are increasingly valued over purposive active publics over citizens with a point to make or an argument to listen to This can be seen not just in the way that traditional protest is regulated but in the ways that ordinary city streets and parks are managed even in the design of such quintessentially democratic spaces as legislative assemblies The book offers an alternative vision for democratic public space and evaluates 11 cities from London to Tokyo against that ideal

Reports of Cases Argued and Determined in Appeals and Circuit Courts of Ohio Ohio. Circuit Court, William John Tossell, 1904

Dignity, Mental Health and Human Rights Brendan D. Kelly, 2016-03-09 This book explores the human rights consequences of recent and ongoing revisions of mental health legislation in England and Ireland Presenting a critical discussion of the World Health Organization's Checklist on Mental Health Legislation from its Resource Book on Mental Health Human Rights and Legislation the author uses this checklist as a frame work for analysis to examine the extent to which mental health legislation complies with the WHO human rights standards The author also examines recent case law from the European Court of Human Rights and looks in depth at the implications of the United Nations Convention on the Rights of Persons with Disabilities for mental health law in England and Ireland Focusing on dignity human rights and mental health law the work sets out to determine to what extent if any human rights concerns have influenced recent revisions of

mental health legislation and to what extent recent developments in mental health law have assisted in protecting and promoting the human rights of the mentally ill The author seeks to articulate better clearer and more connected ways to protect and promote the rights of the mentally ill though both law and policy *Contested Representation* Claudia Landwehr,Thomas Saalfeld,Armin Schäfer,2022-11-17 In the past two decades democratic institutions have faced a crisis of representation From authoritarian backsliding in countries with recent democratic transformations to severe challenges to established liberal democracies the meaning of political representation and whether and when it succeeds has become highly debated In response to an increasingly fraught political climate *Contested Representation* brings together scholars from across the United States and Europe to critically assess the performance of representative institutions in Europe and North America Taking an interdisciplinary comparative approach this volume looks at the viability of electoral institutions the responsiveness of government to public preferences alternative institutions for more inclusive democracy and the political economy of populism Chapters also address the broader normative question of how democratic institutions can be adapted to new conditions and challenges Expertly researched and exceedingly timely *Contested Representation* provides critical frameworks that highlight realistic pathways to democratic reform *Town Journal* ,1923 **Doing Democracy Differently** Henrike Knappe,2017-01-16 Transnational civil society networks have become increasingly important democratizing actors in global politics Still the exploration of democracy in such networks remains conceptually and methodologically challenging Practice theory provides a framework to study democracy as routinized performances even in contexts of fluid boundaries temporal relations and a diffuse constituency The author attempts to understand how new forms of democratic practice emerge in the interaction between political actors and their structural environments *Investigation of the Tennessee Valley Authority* United States. Congress. Joint Committee to Investigate Tennessee Valley Authority,1939 **The American** ,1897 Constitutional Referendums Stephen Tierney,2012-04-05 The constitutional referendum has become a vital feature of modern constitution making and reform This book provides the first full length analysis of the theoretical foundations of constitutional referendums assessing their democratic credentials and the design decisions that affect the value and legitimacy of the referendum process **Assembly Journal** Wisconsin. Legislature. Assembly,1983 *Report of the Proceedings of the ... Annual Convention of the Master-Car Builders' Association* Master Car Builders' Association,1896

Decoding **Making Of The Representative**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Making Of The Representative**," a mesmerizing literary creation penned by a celebrated wordsmith, readers attempt an enlightening odyssey, unraveling the intricate significance of language and its enduring affect our lives. In this appraisal, we shall explore the book is central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
