Making Country Furniture:

Making Swedish Country Furniture and Household Things Hans Keijser, 2008-10-01 The 35 woodworking projects in this book come directly from Sweden's past and the original pieces can be seen in Swedish museums. Many of the pieces evoke familiar early American styles but with a distinctive Swedish touch. The projects include small and easy to make things such as a plate rack, child's stool, tray and simple cutting boards. Others are larger and more challenging like the stepladder, the armchair with turned arms and legs, the shelf with built-in drawers and the sturdy country bed. Each piece is photographed and every detail is accurately described. Step by step instructions and expertly drawn how-to diagrams are given for every project. There are also instructions for traditional Swedish finishing, painting and staining methods. [Making Country Furniture](#) Richard A. imbued with experience accrued over years of fashioning fine furnishings from gathered logs and branches The book begins with the very basics light rustic work is what you should practice at the outset like the jointing and fastening of wooden parts essential for rustic woodwork Simpler constructions such as flower stands and vases follow The core chapters concern interior and garden furnishings The most popular forms of seating as well as tables suited for indoor or outdoor use all receive attention What s more every single design discussed has at least one detailed illustration showing the exact schematics By the end of this guidebook you will not only have mastered a number of rustic methods but will also be inspired to create your own elaborations and designs You can for example opt for different woods and append your own flourishes and additions as you see fit This primer hopes to set you on a long path to achieving your own signature style of wooden furniture making With more people than ever tired of mass manufactured furnishings the rustic style is at the cusp of revival The last great eruption of rustic style was during The Great Depression it may be appropriate that The Great Recession of the present day should herald new and sustained interest Nugent notes a backlash against the endlessly similar furniture templates which so commonly grace the modern home which only a return to the personally crafted past can remedy Many homeowners regardless of age or background desire to stamp identity on a home or garden with their own self made furnishings What better a place to start stamping a real material identity on a place than crafting a simple flower stand a chair or a garden table created from the finest samples of hazel yew or birch wood Many a person particularly during the summer relishes the opportunity to sit outside and assemble their very own timber creations You needn t be a rugged outdoorsman a master carpenter or seasoned woodworker to embark on such a hobby the most important ingredient in your success is enthusiasm The money spent to start needn t be a concern expensive treatments or tools are few when we compare rustic against conventional means of furniture making That s why Making Rustic Furniture is a book worth purchasing
