Gender and Violence in the Middle East David Ghanim Ph.D., 2009-03-20 Gender and Violence in the Middle East argues that violence is fundamental to the functioning of the patriarchal gender structure that governs daily life in Middle Eastern societies Ghanim contends that the inherent violence of gender relations in the Middle East feeds the authoritarianism and political violence that plague public life in the region In this societal sense men as well as women may be said to be victims of the structural violence inherent in Middle Eastern gender relations The author shows that the varieties of physical violence against women for which the Middle East is notorious honor killings obligatory beatings female genital mutilation are merely eruptions of an ethos of psychological violence and the threat of physical violence that pervades gender relations in the Middle East Ghanim

documents and analyzes the complementary roles of both sexes in sustaining the system of violence and oppressive control that regulates gender relations in Middle Eastern societies He reveals that women are not only victims of violence but welcome the opportunity to become perpetrators of violence in the married female life cycle of subordination followed by domination The mother in law plays a crucial role in supporting the structure of patriarchal control by stoking tensions with her daughter in law and provoking her son to commit sanctioned violence on his wife The author applies his deep analysis of gender and violence in the Middle East to illuminate the motivational profiles of male and female political suicidalists from the Middle East and the martyrological adulation that they are accorded in Middle Eastern societies *A History of Anthropological Theory* Paul A. and sexuality but on examining the exploration of or attempt to make possible non normative gendered and sexual identities this volume will appeal to scholars across the social sciences and humanities with interests in popular culture fantasy media studies and gender and sexualities *Gender Pluralism* Michael G. Mascia-Lees,Nancy Johnson Black,2016-11-11 As an early reviewer wrote This is one of the clearest most concise statements on social theory in general let alone on gender that I have ever read Now updated Mascia Lees and Black continue to expertly trace how anthropologists have used different theoretical orientations to examine the nature and determinants of gender roles and gender inequality From the nineteenth century on anthropologists have used different theoretical orientations to understand the emotionally charged topic of gender With an insightful look at evolutionary materialist psychological structuralist poststructural sociolinguistic and self reflexive approaches this distinctive module also examines how these approaches best explain gender and sexual oppression in a global world The authors pack great amounts of valuable information into such a slim volume yet leave readers with digestible material that does more than cover the surface of anthropological perspectives on gender roles and stratification Readers gain insights and tools to develop their own critical analyses of gender
