Evolutions of Capitalism Catherine Casson, Philipp Robinson Rössner, 2022-04-05 This ambitious collection follows the evolution of capitalism from its origins in 13th century European towns to its 16th century expansion into Asia Africa and South America and on to the global capitalism of modern day Written by distinguished historians and social scientists the chapters examine capitalism and its critics and the level of variation and convergence in its operation across locations The authors illuminate the aspects of capitalism that have encouraged but also limited social

responsibility and environmental sustainability Covering times places and topics that have often been overlooked in the existing literature this important contribution to the field of economic history charts the most comprehensive chronology of capitalism to date

Research Handbook on Asian Financial Law Douglas W. Arner, Wai Yee Wan, Andrew Godwin, Wei Shen, Evan Gibson, 2020-01-31 This comprehensive Research Handbook provides an in depth analysis of the different financial law approaches legal systems and trends throughout Asia It considers how reforms following the crises have been critical for the development and growth of the region and explores a broad range of post crisis financial regulatory issues This timely book also examines how inconsistent and divergent approaches to financial market regulation are curtailing the region's potential

The Cultures of Markets Janelle Knox-Hayes, 2016-06-24 Anthropogenic climate change poses a grave threat to societies around the world The greenhouse gases that generate climate change are produced by virtually every sector of every economy The predominant response of governments around the world is to mitigate climate change through the capping and trading of emissions This book explores the establishment of emissions trading as a form of environmental market based governance in the United States Europe Australia South Korea Japan and China The book conceptualizes markets as institutions and analyzes them as a system of climate governance To this end it argues that international efforts to promulgate markets run up against local cultures of markets that shape economic practices and knowledge to different degrees While the global agenda under the United Nations Framework Convention on Climate Change has sought to develop similar systems to enable interconnected and synchronized emissions reductions each of the cases analyzed here has produced different results The markets and climate policies established reflect the syncretic impact of socio political and cultural context on the institutional transfer of markets Each country expresses a varying degree of ease or unease with the establishment of markets as systems of climate governance Exploration of market adaptation adds new insights to theories of varieties of capitalism The book also examines the material implications of emissions markets on the environment and climatic systems In sum the study finds that cultures of markets present a substantial challenge to a universalist prescription for resolving climate change and highlights issues at the interface of political and economic governance in different political economies This includes issues of citizen state and industry participation and the materiality of economic and financial productivity

The Institutional Dynamics of Culture, Volumes I and II Perri Six, 2018-12-20 These two volumes present the most important recent developments in the institutional theory of culture and demonstrate their practical applications Sometimes called grid group analysis or cultural theory they derive from the work of Durkheim in the 1880s and 1900s and develop the insights of the anthropologist Mary Douglas and her followers from the 1960s on First redefined within social and cultural anthropology the theory's influence is shown in recent years to have permeated all the main disciplines of social science with substantial implications for politics history business work and organizations the environment technology and risk and crime and consumption Today the institutional theory of culture now rivals the rational choice Weberian and
