## **Making Music Modern:**

Making Music Modern Carol J. Oja, 2000 This book recreates an exciting and productive period in which creative artists felt they were witnessing the birth of a new age Aaron Copland Henry Cowell George Gershwin Roy Harris and Virgil Thomson all began their careers then as did many of their less widely recognized compatriots While the literature and painting of the 1920 s have been amply chronicled music has not received such treatment Carol Oja s book sets the growth of American musical composition against parallel developments in American culture provides a guide for the understanding of the music and explores how the notion of the concert tradition as inherited from Western Europe was challenged and revitalized through contact with American popular song jazz and non Western musics *Making Music Modern* Carol J. Oja, 2000 This book recreates an exciting and productive period in which creative artists felt they were witnessing the birth of a new age Aaron Copland Henry Cowell George Gershwin Roy Harris and Virgil Thomson all began their careers then as did many of their less widely recognized compatriots While the literature and painting of the 1920 s have been amply chronicled music has not received such treatment Carol Oja s book sets the growth of American musical composition against parallel developments in American culture provides a guide for the understanding of the music and explores how the notion of the concert tradition as inherited from Western Europe was challenged and revitalized through contact with American popular song jazz and non Western musics

**Computers in Music Education** Andrew Brown, Andrew R. Brown, 2012-09-10 Computers in Music Education addresses the question of how computer technologies might best assist music education For current and preservice music teachers and designed as a development tool reference resource and basic teaching text it addresses pedagogical issues and the use of computers to aid production and presentation of students musical works Written by a music educator and digital media specialist it cuts through the jargon to present a concise easy to digest overview of the field covering notation software MIDI sound creation downloading music posting personal MP3s for mass distribution While there are many more technical books few offer a comprehensive understandable overview of the field Computers in Music Education is an important text for the growing number of courses in this area

**Innovative Computing** Jason C. Hung, Jia-Wei Chang, Yan Pei, Wei-Chen Wu, 2022-01-04 This book comprises select proceedings of the 4th International Conference on Innovative Computing IC 2021 focusing on cutting edge research carried out in the areas of information technology science and engineering Some of the themes covered in this book are cloud communications and networking high performance computing architecture for secure and interactive IoT satellite communication wearable network and system infrastructure management etc The essays are written by leading international experts making it a valuable resource for researchers and practicing engineers alike

**Aaron Copland and His World** Carol J. Oja, Judith Tick, 2018-06-05 Aaron Copland and His World reassesses the legacy of one of America s best loved composers at a pivotal moment as his life and work shift from the realm of personal memory to that of history This collection of seventeen essays by distinguished scholars

of American music explores the stages of cultural change on which Copland's long life 1900 to 1990 unfolded from the modernist experiments of the 1920s through the progressive populism of the Great Depression and the urgencies of World War II to postwar political backlash and the rise of serialism in the 1950s and the cultural turbulence of the 1960s. Continually responding to an ever-changing political and cultural panorama, Copland kept a firm focus on both his private muse and the public he served. No self-absorbed recluse, he was very much a public figure who devoted his career to building support systems to help composers function productively in America. This book critiques Copland's work in these shifting contexts. The topics include Copland's role in shaping an American school of modern dance, his relationship with Leonard Bernstein, his homosexuality especially as influenced by the writings of Andr  Gide, and explorations of cultural nationalism. Copland's rich correspondence with the composer and critic Arthur Berger, who helped set the parameters of Copland's reception, is published here in its entirety, edited by Wayne Shirley. The contributors include Emily Abrams, Paul Anderson, Elliott Antokoletz, Leon Botstein, Martin Brody, Elizabeth Crist, Morris Dickstein, Lynn Garafola, Melissa de Graaf, Neil Lerner, Gail Levin, Beth Levy, Vivian Perlis, Howard Pollack, and Larry Starr.

Charles Ives Reconsidered Gayle Sherwood Magee, 2008. An engaging new portrait of the seminal American composer.

Elliott Carter's Late Music John Link, 2022-01-27. Elliott Carter was born four months after Orville Wright demonstrated the Wright Brothers Flyer to the U.S. Army, and he died two months after the Voyager 1 spacecraft left the heliosphere at the threshold of interstellar space. Carter's remarkable longevity and the unusual trajectory of his life and work through more than a century of disruptive change has affected the reception history of his music in ways that we are only beginning to acknowledge. Over the course of a nearly eighty-year-long career, Carter leveraged his advantages and turned obstacles into opportunities with admirable persistence. He chose projects that not only interested him but also fit into the plans for artistic and professional development that he cultivated assiduously over decades. And he paid close attention to how his artistic objectives could be presented most effectively to the performers, listeners, and patrons on whom his career depended. Together with his wife Helen Frost Jones, Carter skillfully steered a course through the turbulent waters of the twentieth and early twenty-first centuries with steadily increasing success. The story of Carter's artistic life, as he told it and as it was promoted by several generations of advocates, is one of independence, uncompromising vision, and technical progress. It was astutely tailored to the beliefs and values of its intended audience, and as autobiography, it reports selectively and glosses over or omits events and attitudes deemed unhelpful in building Carter's reputation and authority and promoting his music.

**Mavericks and Other Traditions in American Music** Michael Broyles, 2008-10-01. From colonial times to the present, American composers have lived on the fringes of society and defined themselves in large part as outsiders. In this stimulating book, Michael Broyles considers the tradition of maverick composers and explores what these mavericks reveal about American attitudes toward the arts and about American society itself. Broyles starts by examining the careers of three notably unconventional composers.

William Billings in the eighteenth century Anthony Philip Heinrich in the nineteenth and Charles Ives in the twentieth All three had unusual lives wrote music that many considered incomprehensible and are now recognized as key figures in the development of American music Broyles goes on to investigate the proliferation of eccentric individualism in all types of American music classical popular and jazz and how it has come to dominate the image of diverse creative artists from John Cage to Frank Zappa The history of the maverick tradition Broyles shows has much to tell us about the role of music in American culture and the tension between individualism and community in the American consciousness

**Classical Music In America** Joseph Horowitz, 2005-03-15 Classical Music in America is a pioneering history by an award winning scholar and leading authority on American symphonic culture Joseph Horowitz argues that classical music in the United States is peculiarly performance driven and he traces a musical trajectory rising to its peak at the close of the nineteenth century and receding after World War I He defines the decades of ascendancy as the quest for an American compositional voice painting vivid vignettes of America s most celebrated performers and such pathbreaking institutions as the New York Philharmonic and the Metropolitan Opera He explores a century of decline characterized by illustrious orchestras conductors and virtuosos mostly foreign born and in a final chapter he exposes a crisis of leadership and suggests new musical directions in our postmodern age As with his acclaimed cultural histories Horowitz here fashions a sweeping narrative backed with personality and incident textured by literature sociology and intellectual history that freshly illuminates the American experience 32 pages of illustrations

**Queer Moderns** Alice T. Friedman, 2025-05-27 A richly illustrated history of the glittering world of queer artistic life in the 1920s and 30s In Queer Moderns Alice Friedman tells the fascinating story of the queer avant garde of the 1920s and 30s in New York Paris and Venice as seen through the eyes of Max Ewing 1903 1934 a young musician photographer and man about town who although virtually unknown today moved in extraordinary circles In his photographs and letters we meet the rising stars of modern art music dance and literature and enter a world of interracial friendship queer space and experimentation that shone brightly before being swept away by the Depression It is a remarkable story that reveals that the history of modernism is more queer and more Black than previously recognized In the 1920s Ewing became part of an international coterie of artists led by Carl Van Vechten and Muriel Draper In Europe he was entertained by Gertrude Stein met Stravinsky and took a road trip with Romaine Brooks and Natalie Barney In 1928 in a closet in his apartment Ewing created the Gallery of Extraordinary Portraits an installation of photos of his favorite celebrities Black and white clothed and nude For his Carnival of Venice he took portraits of more than a hundred friends including Paul Robeson Berenice Abbott Isamu Noguchi Agnes de Mille and E E Cummings posed in front of a backdrop of Saint Mark s Square Like a character from a story by F Scott Fitzgerald Ewing joined the party and then died tragically unable to accept the end of his era or the lost dream of a new way of living His story sheds new light on modernism and an artistic milieu that was ahead of its time

Proof through the Night Glenn Watkins, 2002-12-30 Carols floating across no man s land on Christmas Eve 1914

solemn choruses marches and popular songs responding to the call of propaganda ministries and war charities opera keyboard suites ragtime and concertos for the left hand all provided testimony to the unique power of music to chronicle the Great War and to memorialize its battles and fallen heroes in the first post Armistice decade In this striking book Glenn Watkins investigates these variable roles of music primarily from the angle of the Entente nations perceived threat of German hegemony in matters of intellectual and artistic accomplishment a principal concern not only for Europe but also for the United States whose late entrance into the fray prompted a renewed interest in defining America as an emergent world power as well as a fledgling musical culture He shows that each nation gave proof through the night ringing evidence during the dark hours of the war not only of its nationalist resolve in the singing of national airs but also of its power to recall home and hearth on distant battlefields and to reflect upon loss long after the guns had been silenced Watkins s eloquent narrative argues that twentieth century Modernism was not launched full force with the advent of the Great War but rather was challenged by a new set of alternatives to the prewar avant garde His central focus on music as a cultural marker during the First World War of necessity exposes its relationship to the other arts national institutions and international politics From wartime scores by Debussy and Stravinsky to telling retrospective works by Berg Ravel and Britten from *La Marseillaise* to *The Star Spangled Banner* from *It s a Long Way to Tipperary* to *Over There* music reflected society s profoundest doubts and aspirations By turns it challenged or supported the legitimacy of war chronicled misgivings in miniature and grandiose formats alike and inevitably expressed its sorrow at the final price exacted by the Great War *Proof through the Night* concludes with a consideration of the post Armistice period when on the classical music front memory and distance forged a musical response that was frequently more powerful than in wartime

### **Neoclassical Music in America** R. James

Tobin, 2014-07-02 From the 1920s to the 1950s neoclassicism was one of the dominant movements in American music Today this music is largely in eclipse mostly absent in performance and even from accounts of music history in spite of and initially because of its adherence to an expanded tonality No previous book has focused on the nature and scope of this musical tradition *Neoclassical Music in America* *Voices of Clarity and Restraint* makes clear what neoclassicism was how it emerged in America and what happened to it Music reviewer and scholar R James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope However neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common the basic characteristics of which extend to other neoclassicists This study focuses in particular on a group of interrelated neoclassical American composers who came to full maturity in the 1940s These included Harvard professor Walter Piston who had studied in France in the 1920s Harold Shapero the most traditional of the group Irving Fine and Arthur Berger his colleagues at Brandeis Lukas Foss later an experimentalist composer whose origins lay in neoclassicism of the 1940s Alexei Haieff and Ingolf Dahl both close associates of Stravinsky and others Tobin surveys the

careers of these figures drawing especially on early reviews of performances before offering his own critical assessment of individual works Adventurous collectors of recordings performing musicians concert and broadcasting programmers as well as music and cultural historians and those interested in musical aesthetics will find much of interest here Dates of composition approximate duration of individual works and discographies add to the work's reference value

**Schoenberg and Hollywood Modernism** Kenneth H. Marcus, 2016-01-14 Schoenberg is often viewed as an isolated composer who was ill at ease in exile In this book Kenneth H Marcus shows that in fact Schoenberg's connections to Hollywood ran deep and most of the composer's exile compositions had some connection to the cultural and intellectual environment in which he found himself He was friends with numerous successful film industry figures including George Gershwin Oscar Levant David Raksin and Alfred Newman and each contributed to the composer's life and work in different ways helping him to obtain students making recordings of his music and arranging commissions While teaching at both the University of Southern California and the University of California Los Angeles Schoenberg was able to bridge two utterly different worlds the film industry and the academy Marcus shows that alongside Schoenberg's vital impact upon Southern California Modernism through his pedagogy compositions and texts he also taught students who became central to American musical modernism including John Cage and Lou Harrison

*Sublime Noise* Josh Epstein, 2014-12-15 What is the significance of noise in modernist music and literature When Stravinsky's Rite of Spring premiered in Paris in 1913 the crowd rioted in response to the harsh dissonance and jarring rhythms of its score This was noise not music In *Sublime Noise* Josh Epstein examines the significance of noise in modernist music and literature How and why did composers and writers incorporate the noises of modern industry warfare and big city life into their work Epstein argues that as the creative class engaged with the racket of cityscapes and new media they reconsidered not just the aesthetic of music but also its cultural effects Noise after all is more than a sonic category it is a cultural value judgment a way of abating and categorizing the sounds of a social space or of new music Pulled into dialogue with modern music's innovative rhythms noise signaled the breakdown of art's autonomy from social life even the old favorites of Beethoven and Wagner took on new cultural meanings when circulated in noisy modern contexts The use of noise also opened up the closed space of art to the pressures of publicity and technological mediation Building both on literary cultural studies and work in the new musicology *Sublime Noise* examines the rich material relationship that exists between music and literature Through close readings of modernist authors including James Joyce T S Eliot Edith Sitwell E M Forster and Ezra Pound and composers including George Antheil William Walton Erik Satie and Benjamin Britten Epstein offers a radically contemporary account of musical literary interactions that goes well beyond pure formalism This book will be of interest to scholars of Anglophone literary modernism and to musicologists interested in how music was given new literary and cultural meaning during that complex interdisciplinary period

*Sacred Passions* Carol A. Hess, 2005 This biography offers a fresh understanding of the life and work of Spanish composer Manuel de Falla 1876 1946 recognized as the greatest

composer in the Spanish cultural renaissance that extended from the latter part of the 19th century until the outbreak of the Spanish Civil War in 1936 The biography incorporates recent research on Falla draws on untapped sources in the Falla archives reevaluates Falla's work in terms of current issues in musicology and considers Falla's accomplishments in their historical and cultural contexts

**2021** Günter Berghaus, Monica Jansen, Luca Somigli, 2022-01-19 This volume explores the fraught relationship between Futurism and the Sacred Like many fin de siècle intellectuals the Futurists were fascinated by various forms of esotericism such as theosophy and spiritualism and saw art as a privileged means to access states of being beyond the surface of the mundane world At the same time they viewed with suspicion organized religions as social institutions hindering modernization and ironically used their symbols In Italy the theorization of Futurist Sacred Art in the 1930s began a new period of dialogue between Futurism and the Catholic Church The essays in the volume span the history of Futurism from 1909 to 1944 and consider its different configurations across different disciplines and geographical locations from Polish and Spanish literature to Italian art and American music

**Women in Music** Karin Pendle, Melinda Boyd, 2005-09-19 First published in 2006 Routledge is an imprint of Taylor Francis an Informa company

Charles Ives's Concord Kyle Gann, 2017-05-16 In 1921 insurance executive Charles Ives sent out copies of a piano sonata to two hundred strangers Laden with dissonant chords complex rhythm and a seemingly chaotic structure the so called Concord Sonata confounded the recipients as did the accompanying book Essays before a Sonata Kyle Gann merges exhaustive research with his own experience as a composer to reveal the Concord Sonata and the essays in full Diffracting the twinned works into their essential aspects Gann lays out the historical context that produced Ives's masterpiece and illuminates the arguments Ives himself explored in the Essays Gann also provides a movement by movement analysis of the work's harmonic structure and compositional technique connects the sonata to Ives works that share parts of its material and compares the 1921 version of the Concord with its 1947 revision to reveal important aspects of Ives's creative process A tour de force of critical theoretical and historical thought Charles Ives's Concord provides nothing less than the first comprehensive consideration of a work at the heart of twentieth century American music

**Music for the Common Man** Elizabeth B. Crist, 2009-01-12 In the 1930s Aaron Copland began to write in an accessible style he described as imposed simplicity Works like El Sal n M xico Billy the Kid Lincoln Portrait and Appalachian Spring feature a tuneful idiom that brought the composer unprecedented popular success and came to define an American sound Yet the cultural substance of that sound the social and political perspective that might be heard within these familiar pieces has until now been largely overlooked While it has long been acknowledged that Copland subscribed to leftwing ideals Music for the Common Man is the first sustained attempt to understand some of Copland's best known music in the context of leftwing social political and cultural currents of the Great Depression and Second World War Musicologist Elizabeth Crist argues that Copland's politics never merely accorded with mainstream New Deal liberalism wartime patriotism and Communist Party aesthetic policy but advanced a progressive vision

of American society and culture Copland's music can be heard to accord with the political tenets of progressivism in the 1930s and 40s including a fundamental sensitivity toward those less fortunate support of multiethnic pluralism belief in social democracy and faith that America's past could be put in service of a better future Crist explores how his works wrestle with the political complexities and cultural contradictions of the era by investing symbols of America the West folk song patriotism or the people with progressive social ideals Much as been written on the relationship between politics and art in the 1930s and 40s but very little on concert music of the era Music for the Common Man offers fresh insights on familiar pieces and the political context in which they emerged Henry Cowell Joel Sachs, 2012-06-28 Henry Cowell A Man Made of Music is the first complete biography of one of the most innovative figures in twentieth century American music It explores in detail the complexities and impact of his life work and teachings

### **Making Music Modern Introduction**

In today's digital age, the availability of Making Music Modern books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Making Music Modern books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Making Music Modern books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Making Music Modern versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Making Music Modern books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Making Music Modern books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Making Music Modern books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Making Music Modern books and manuals for download have transformed the way we access information. They provide a

cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Making Music Modern books and manuals for download and embark on your journey of knowledge?

### FAQs About Making Music Modern Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Making Music Modern is one of the best book in our library for free trial. We provide copy of Making Music Modern in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Making Music Modern. Where to download Making Music Modern online for free? Are you looking for Making Music Modern PDF? This is definitely going to save you time and cash in something you should think about.
