Making Of A Slum:

The Making of a Slum Michael Dorman, 1972 This book presents a smoothly written journalistic account of the decline of an urban neighborhood Hunt s Point in the Bronx New York City The author contrasts the stability and sense of community in Hunt s Point before World War II with the decayed heroin scarred slum of the late 1960s and early 1970s Includes worthwhile interviews and has a good reporter s feel for letting people express themselves but the standard prescriptions for change which have been repeated for two decades offer nothing new

Making the Modern Slum Sheetal Chhabria, 2019-12-06 In the late nineteenth and early twentieth centuries Bombay was beset by crises such as famine and plague Yet rather than halting the flow of capital these crises served to secure it In colonial Bombay capitalists and governors Indian and British alike used moments of crisis to justify interventions that delimited the city as a distinct object and progressively excluded laborers and migrants from it Town planners financiers and property developers joined forces to secure the city as a space for commerce and encoded shelter types as legitimate or illegitimate By the early twentieth century the slum emerged as a particularly useful category of stigmatization that would animate city making projects in subsequent decades Sheetal Chhabria locates the origins of Bombay s now infamous slum problem in the broader histories of colonialism and capitalism She not only challenges assumptions about colonial urbanization and cities in the global south but also provides a new analytical approach to urban history Making the Modern Slum shows how the wellbeing of the city rather than of its people became an increasingly urgent goal of government positioning agrarian distress famished migrants and the laboring poor as threats to be contained or excluded

Slum Development in India Sulochana Shekhar, 2021-04-01 This book is an earnest effort in understanding the slums and their needs by taking a case study of Kalaburagi India This study aims to contribute sustainable methodologies to advance the living conditions of slum dwellers and for better execution of slum policies The core objectives are 1 mapping the existing slums of Kalaburagi formerly Gulbarga city using slum ontology from very high resolution data and validating the slum map through ground survey and using reliable data 2 developing a model to understand the factors which are responsible for the present growth as well as to predict the future growth of slums 3 estimating the housing demand of urban poor and suggesting a suitable site for the rehabilitation program and 4 suggestions for the better intervention of government policies with special reference to in situ program Urban is the future and slums are its reality Sustainable development goals are directly and indirectly concerned about the increasing urbanization and the slums Housing the urban poor and affordable housing to all are the national missions Practically making these plans successful depends on a deep understanding of urban issues and proper methodology and technology to handle it The participatory slum mapping cellular automata slum model housing demand analysis and the spatial decision support system demonstrated in the book help in monitoring and managing the slums and thus lead towards a slum free India

Slum Health Jason Corburn, Lee Riley, 2016-06-07 Urban slum dwellers especially in emerging economy countries are

often poor live in squalor and suffer unnecessarily from disease disability premature death and reduced life expectancy Yet living in a city can and should be healthy Slum Health exposes how and why slums can be unhealthy reveals that not all slums are equal in terms of the hazards and health issues faced by residents and suggests how slum dwellers scientists and social movements can come together to make slum life safer more just and healthier Editors Jason Corburn and Lee Riley argue that valuing both new biologic and street science professional and lay knowledge is crucial for improving the well being of the millions of urban poor living in slums **The Slum Problem** Bernard Stephen Townroe,1928 **Slum**

Tourism Fabian Frenzel,Ko Koens,Malte Steinbrink,2012 This multidisciplinary collection is unique both in its conceptual and empirical breadth **Informal Settlements** Marie Huchzermeyer,Aly Karam,2006 Informal settlements are a shameful feature of poverty and inherited inequalities in South Africa Defined in this book as settlements of the urban poor developed through the unauthorised occupation of land they are regarded by many as unhealthy and overcrowded blights on the urban landscape squatter camps in common parlance Yet census data tell us that 16 4% of households across the country live in informal settlements mostly in urban areas where an insecure foothold on the land enables these households to access the economic opportunities social and economic networks and basic amenities that are essential to their survival **Future is**

Urban Utpal Sharma,Swati Kothary,Vibha Gajjar,2024-06-07 GeoComputational Analysis and Modeling of Regional

Systems Jean-Claude Thill,Suzana Dragicevic,2017-07-28 The contributed volume collects cutting edge research in GeoComputational Analysis of Regional Systems The contributions emphasize methodological innovations or substantive breakthroughs on many facets of the socio economic and environmental reality of regional contexts **Poverty Amidst**

Prosperity Pushpa Agnihotri,1994 The book contains that there are misconceptions and vague ideas in society about slum settlements A general notion is that the slum dwellers are only a burden and a source of public nuisance It is always acute poverty in the homeland which compels this depressed class to migrate *Urban and Regional Planning and Development*

Rajiv R. Thakur,Ashok K. Dutt,Sudhir K. Thakur,George M. Pomeroy,2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers

Demanding Development Adam Michael Auerbach,2019-10-31 Explains the uneven success of India s slum dwellers in

demanding and securing essential public services from the state Inside the Transforming Urban Asia Darshini Mahadevia, 2008 Contributed articles chiefly with reference to India and China **The Sustainable City VIII (2 Volume Set)** S.S. Zubir, C.A. Brebbia, 2013-12-03 With majority of the Earth's people now urban dwellers and cities being the most efficient habitat for the utilisation of resources it is imperative that we continue to support standards of living and efficiencies of urban areas However the urbanisation process has not been without its problems While much has been done to address the original issues surrounding the quality of urban life new challenges continue to arise It is no longer sustainable to achieve improvements by means that require greater and greater energy consumption as we did in the past Despite their complexity however cities are a great laboratory for architects engineers and other key professionals to apply new ideas and new technology to meet our requirements for more sustainable city environments Containing papers presented at the latest in a series of conferences organised by the Wessex Institute of Technology these proceedings split in to two volumes address not just environmental architectural and engineering concerns but also quality of life security risk and heritage The diversity of topics and the case studies based on existing projects make the book an important contribution to the literature on urban planning **Worlding Cities** Ananya Roy, Aihwa Ong, 2011-08-15 Worlding Cities is the first serious examination of Asian urbanism to highlight the connections between different Asian models and practices of urbanization It includes important contributions from a respected group of scholars across a range of generations disciplines and sites of study Describes the new theoretical framework of worlding Substantially expands and updates the themes of capital and culture Includes a unique collection of authors across generations disciplines and sites of study Demonstrates how references to Asian power success and hegemony make possible urban development and limit urban politics *Governance and Public Space in the Australian City* Anna Temby, 2023-09-19 Governance and Public Space in the Australian City is a rich and evocative examination of the production and use of public spaces in Australian cities in the late nineteenth and early twentieth centuries Using Brisbane as a case study it demonstrates the way public spaces were constructed contested and controlled in attempts to create ideal city spaces This construction of space is considered not just in the literal and material sense but also as a product of aspirational and imaginative processes of city building by municipal authorities and citizens This book is as much about people as it is about cities uncovering the manner in which perceived models of ideal urban citizenship were reflected in the production and ordering of city spaces This book challenges common narratives that situate public spaces as universal or equalising aspects of the urban sphere Exploring three distinct types of public space the streets slums and parks the book questions how urban spaces functioned alongside how they were intended to function In so doing Governance and Public Space in the Australian City situates public spaces as products of manipulation and regulation at odds with broader concepts of individual liberty and the rights of people to public space It will be illuminating reading for scholars and students of urban history and Australian history The State of the World's Cities 2004/2005, 2004 As towns and cities expand at

unprecedented rates sustainable urban development is one of the most pressing challenges facing the international community in the 21st century This publication examines the realities faced by urban populations around the world focusing on the impact of globalisation and the way cities are governed and planned on the make up and density of their population and on their cultures and economies Issues considered include the impact of globalisation on urban culture urban renewal and cultural strategies the concept of metropolitanization socio economic and cultural impacts of international migration urban poverty and homelessness social inequality and exclusion urban governance safety and crime trends contemporary planning strategies and the role of civil society progress towards attainment of the Millennium Development Goals targets for sanitation and housing The report highlights the need for a new culture of planning to establish multicultural and inclusive cities involving civil society as well as public authorities

The Politics of Urban Land in South Asia Urmi Sengupta, Kenneth Nielsen, 2025-03-18 Cities in South Asia are homes to one of the highest concentrations of people anywhere in the world and the allocation of land and urban resources and the benefits that can be derived from them in this region have become increasingly contested This book explores the politics of urban land in South Asia and the challenges related to their respective urban futures For most people land comes at a premium and as a result conflicts and contestations over land and urban resources are rife in countries such as India Bangladesh Pakistan Sri Lanka and Nepal as witnessed in the many struggles of low income groups and vulnerable or marginalised communities to fight off dispossession or displacement This book maps current challenges shared across national borders and charts out new directions for future research and land policy With contributions from emerging and established authors the book offers a critical accounting of the situation that exists in urban South Asia while also critically engaging with the current challenges and future directions for land use and land politics The book will be useful to students and researchers of public policy development studies economics urban and regional development studies and sociology as well as to policy makers real estate professionals and commercial firms engaged in property market real estate study in Asia Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

In Pursuit of Proof Tarangini Sriraman, 2018-04-28 Weaving together a hitherto unattempted history of making and verifying identification documents *In Pursuit of Proof* tells stories from the ground about the urban margins of India and Delhi in particular The book moves with agility across the late colonial era and the postcolonial years marked by ration cards refugee registration certificates permits licences and affidavits How did the ration card introduced during the Second World War crystallize into proof of residence After the Partition how did the Indian state classify refugees as poor displaced and lower caste Might there be alternative conceptualizations of the much maligned Licence Raj How does proof manifest itself for those living in Delhi's slums And how does the unique identification number termed the Aadhaar impinge on rural migrants dwelling in the city Relying on intensive ethnographic and archival methods the book answers these

questions and theorizes the Indian state as one whose welfare capacities of governing are drawn from popular knowledge practices of documenting and proving identities *The Spectator* ,1927
