volume sets an extraordinarily high standard in scholarship completeness description and explanation of our political process. It has been said that all politics are local but never before has this been demonstrated with such clarity and panache using the simple method of standardized tables summarizing voting then showing state and county breakdowns of the numbers greatly strengthened by beautiful full color maps and cartograms. Every scholar of politics and democracy will benefit from the work laid out in this volume. Keith Clarke, Professor of Geography, University of California Santa Barbara, *Presidential Elections* is an almanac of the popular vote in every presidential election in American history analyzed at the county level with histories of each campaign, graphs and stunning four color maps. Most Americans are familiar with the crude red state blue state maps used by commentators and campaign strategists and even for want of an alternative by many academics. In providing a higher resolution view of voting behavior, the authors of this new volume enable examination of local and regional political trends that are invisible in state level aggregations. *Presidential Elections* will enable scholars to more subtly analyze voting behavior, campaigns and presidential politics; commentators will use it to analyze trends and trace the historical evolution of new coalitions and voting blocs; strategists will use it to plan campaigns and mobilize constituencies. *Presidential Elections* will become the standard almanac on the subject, a required resource for academic and public libraries as well as for scholars, consultants and pundits nationwide. Donald R. Deskins Jr. is a political geographer and Emeritus Professor of Sociology and a former Associate Dean of the Horace H. Rackham School of Graduate Studies at the University of Michigan. Hanes Walton Jr. is Professor of Political Science at the University of Michigan. He also holds positions as Senior Research Scientist at the Center for Political Studies and as a faculty member in the Center for Afroamerican and African Studies. Sherman C. Puckett is a Ph.D. graduate of the University of Michigan in urban and regional planning. He was a mayoral appointee in the data processing department of the Coleman A. Young administration in the City of Detroit and recently retired from Wayne County government as manager of technology, geographic information systems and development of maintenance management systems.

In *The Coalitions Presidents Make*, Marcus Mietzner explains how Indonesia has turned its volatile post-authoritarian presidential system into one of the world's most stable. He argues that since 2004 Indonesian presidents have deployed nuanced strategies of coalition building to consolidate their authority.

and these coalitions are responsible for the regime stability in place today In building coalitions Indonesian presidents have looked beyond parties and parliament the traditional partners of presidents in most other countries In Indonesia actors such as the military the police the bureaucracy local governments oligarchs and Muslim groups are integrated into presidential coalitions by giving them the same status as parties and parliament But while this inclusiveness has made Indonesia s presidential system extraordinarily durable it has also caused democratic decline In order to secure the stability of their coalitions presidents must observe the vested interests of each member when making policy decisions The Coalitions Presidents Make details the process through which presidents balance their own powers and interests with those of their partners encouraging patronage oriented collaboration and disincentivizing confrontation *Making Political Choices* Harold D. **I'm Here to Ask for Your Vote** Christopher J. Devine, 2023-12-19 During presidential campaigns candidates crisscross the country nonstop visiting swing states their home turf and enemy territory But do all those campaign visits make a difference when Election Day comes If so how and under what conditions Do they mobilize the partisan faithful or persuade undecided voters What do campaigns try to achieve through campaign visits and when do they succeed I m Here to Ask for Your Vote is a comprehensive and compelling examination of the strategy and effectiveness of presidential campaign visits Christopher J Devine uses an original database of presidential and vice presidential campaign visits from 2008 through 2020 to estimate the effects of visits on vote choice and turnout both among individual voters and within counties He finds that campaign visits do not usually influence voting behavior but when they do most often it is by persuading undecided voters as was the case for John McCain in 2008 and even Donald Trump in 2020 Challenging the recent emphasis on candidates playing to their base this book suggests that persuasion is still a viable campaign strategy in which candidate visits may play a major role I m Here to Ask for Your Vote is an authoritative and engaging analysis designed for scholars strategists students and other readers interested in understanding how campaign visits and campaigns more broadly shape presidential election outcomes **Institutions of**
