Making Of Urban Europe 1000 1994:

The Making of Urban Europe, 1000-1994 Paul M. Hohenberg, Lynn Hollen Lees, 1995-11-25 Tracing large scale processes of social economic and political change within cities and the evolving relationships between town and country and between city and city the authors offer an original synthesis of European urbanization within a global context This edition includes a new chapter entitled Europe's Cities in the Twentieth Century *Later Medieval Europe* Daniel Waley, Peter Denley, 2013-11-26 From the divine right of kings to the political philosophies of writers such as Machiavelli the medieval city states to the unification of Spain Daniel Waley and Peter Denley focus on the growing power of the state to illuminate changing political ideas in Europe between the thirteenth and sixteenth centuries Spanning the entire continent and beyond and using contemporary voices wherever possible the authors include substantial sections on economics religion and art and how developments in these areas fed into and were influenced by the transformation of political thinking The new edition takes the narrative beyond the confines of western Europe with chapters on East Central Europe and the teutonic knights and the Portuguese expansion across the Atlantic The third edition of this classic introduction to the period includes even greater use of contemporary voices full reading lists and new chapters on East Central Europe and Portuguese exploration Suitable as an introductory text for undergraduate courses in Medieval Studies and Medieval European History **Urban Societies in East-Central Europe, 1500-1700** Jaroslav Miller, 2016-02-11 Whilst much has been written about early modern urban history the majority of this work has focussed on Western Europe with relatively little available in English on towns and cities in the former communist East However in recent years urban scholars have increasingly looked to a much more inclusive picture of Europe that compares and contrasts development across the whole continent Dealing primarily with Bohemia Hungary and the Polish Lithuanian Commonwealth this book provides an insight into a number of key issues concerning the economic social and demographic trends in early modern East Central European urban history Taking a supra national perspective across a long time span it examines the effects of migration Reformation state building and economic change on the transformation of medieval urban communities into early modern societies Drawing on a wealth of primary sources particularly the registers of new citizens kept by many towns and cities a fascinating picture of urban development and social structure is reconstructed that not only tells us much about East Central Europe but adds to our knowledge of the whole continent **Persian Historic Urban Landscapes** Eisa Esfanyari, 2017-12-04 Provides a concise up to date introduction to and overview of black nationalism in American history **Yearbook of Transnational History** Thomas Adam, 2020-09-22 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This third volume is dedicated to the transnational turn in urban history It brings together articles that investigate the transnational and transatlantic exchanges of ideas and concepts for urban planning architecture and technology that served to modernize cities across East and Central Europe and the United States This collection includes

studies about regionals fairs as centers of knowledge transfer in Eastern Europe about the transfer of city planning among developing urban centers within the Austro Hungarian Empire about the introduction of the Bauhaus into American society and about the movement for constructing paved roads to connect cities on a global scale The volume concludes with a historiographical article that discusses the potential of the transnational perspective to urban history The articles in this volume highlight the movement of ideas and practices across various cultures and societies and explore the relations connections and spaces created by these movements The articles show that modern cities across the European continent and North America emerged from intensive exchanges of ideas for almost every aspect of modern urban life

Print Culture and Peripheries in Early Modern Europe Benito Rial Costas, 2012-11-09 This volume seeks to enhance our understanding of printing and the book trade in small and peripheral European cities in the 15th and 16th centuries through a number of specific case studies

Mussolini's Cities , The Social Sustainability of Cities Mario Polèse,Richard E. Stren,Richard

Stren,2000-01-01 Cities are a locus of human diversity where people with varying degrees of wealth and status share an association within a particular urban boundary Despite the common geography sharp social divisions characterize many cities High levels of urban violence bear witness to the difficult challenge of creating socially cohesive and inclusive cities The devastated inner cities of many large American urban centres exemplify the failure of urban development With an enlightened democratic approach to policy reform however cities can achieve social sustainability Some cities have been more successful than others in creating environments conducive to the cohabitation of a diverse population In this collection of original essays case studies of ten cities Montreal and Toronto in Canada Miami and Baltimore in the United States Geneva and Rotterdam in Europe S o Paulo and San Salvador in South America and Nairobi and Cape Town in South Africa are presented and analysed in terms of social sustainability The volume as a whole looks at the policies institutions and planning and social processes that can have the effect of integrating diverse groups and cultural practices in a just and equitable fashion The authors conclude that policies conducive to social sustainability should among other things seek to promote fiscal equalization weave communities within the metropolis into a cohesive whole and ideally provide transport systems that ensure equal access to public services and workplaces all within the framework of an open and democratic local governance structure

New State Spaces Neil Brenner,2004-09-10 In this synthetic interdisciplinary work Neil Brenner develops a new interpretation of the transformation of statehood under contemporary globalizing capitalism Whereas most analysts of the emergent post Westphalian world order have focused on supranational and national institutional realignments *New State Spaces* shows that strategic subnational spaces such as cities and city regions represent essential arenas in which states are being transformed Brenner traces the transformation of urban governance in western Europe during the last four decades and on this basis argues that inherited geographies of state power are being fundamentally rescaled Through a combination of theory construction historical analysis and cross national case studies of urban policy change *New State Spaces* provides an innovative analysis of the new formations of state power that are currently emerging This is a mature and sophisticated analysis by a major young scholar

The Evolving Boundaries of Defence Renaud Bellais,2014-08-14 This volume analyses key features of recent and ongoing transformations of defence issues from four key perspectives These are defence economics the spatial footprint of defence human resources management by the armed forces and the international landscape of defence

The Urban Social History of the Middle East, 1750-1950 Peter Sluglett,2008-12-08 The great cities of the Middle East and North Africa have long attracted the attention and interest of historians With the discovery and wider use over the last few decades of Islamic court records and Ottoman administrative documents our knowledge of Middle Eastern cities between the seventeenth and early twentieth centuries has vastly expanded Drawing upon a treasure trove of documents and using a variety of methodologies the contributors succeed in providing a significant overview of the ways in which Middle Eastern cities can be studied as well as an excellent introduction to current literature in the field

Urban

Ministry Manuel Ortiz, Harvie M. Conn, 2025-06-06 No 3 in the Academy of Parish Clergy Top Ten Books of the Year The city presents serious challenges that cry out for answers poverty racism human exploitation and government corruption How can the church move ahead in the midst of these demands with the gospel of hope Here in one comprehensive volume Harvie Conn and Manuel Ortiz two noted scholars and proven practitioners of urban ministry address the vital work of the church in the city Their dual goal to understand the city and God's work in it Through four great waves of development Conn and Ortiz trace the history of the city around the world Then they tackle the critical issue of a biblical basis for urban mission How does the Bible view the city Are we closer to God in the country than the city Does the Bible have an anti urban bias These questions are given a thorough analysis that unveils God's urban mandate as reflected in both Old and New Testaments From this foundation the authors unpack the multifaceted nature of the city as place as process as center as power and as a place of change and stability They move us beyond fragmented stereotypes to a new way of seeing that is holistic enough for a fully biblical ministry to develop In addition Conn and Ortiz lay out what the social sciences have to offer urban mission including ethnographic and demographic studies and they focus on the particular issues and needs of urban leadership including a plan for developing and mentoring leaders while equipping the laity for ministry in the city This is the essential text for bringing God's kingdom to the city through the people of God

Innovation and Creativity in Late Medieval and Early Modern European Cities Karel Davids, Bert De Munck, 2016-05-23 Late medieval and early modern cities are often depicted as cradles of artistic creativity and hotbeds of new material culture Cities in renaissance Italy and in seventeenth and eighteenth century northwestern Europe are the most obvious cases in point But how did this come about Why did cities rather than rural environments produce new artistic genres new products and new techniques How did pre industrial cities evolve into centres of innovation and creativity As the most urbanized regions of continental Europe in this period Italy and the Low Countries provide a rich source of case studies as the contributors to this volume demonstrate They set out to examine the relationship between institutional arrangements and regulatory mechanisms such as citizenship and guild rules and innovation and creativity in late medieval and early modern cities They analyze whether in what context and why regulation or deregulation influenced innovation and creativity and what the impact was of long term changes in the political and economic sphere

Governance, Policy and Juxtaposition Michael Roe, 2019-10-01 This book considers governance and policy making within the maritime sector and focuses significantly on the dimensional context within which governance works Recognising the importance of understanding governance and policy at times when the world is faced with social political and economic problems it highlights the fact that both areas are equally significant in understanding today's political economy By focusing on the maritime sector a pillar industry supporting international trade activities the book offers a unique perspective to explain the difficulties of balancing policy making with governance in order to provide solutions It also examines the importance of developing a governance process that encourages and accommodates juxtaposition in a way that

ensures that the effect of independent policy making is understood upon the success or otherwise of policies across a range of contexts and problems Given the in depth nature of the text it is of interest to academics researchers and professionals in the field
