## **Making Of Urban Japan:**

*The Making of Urban Japan* André Sorensen, 2005-08-19 During the twentieth century Japan was transformed from a poor primarily rural country into one of the world's largest industrial powers and most highly urbanised countries Interestingly while Japanese governments and planners borrowed carefully from the planning ideas and methods of many other countries Japanese urban planning urban governance and cities developed very differently from those of other developed countries Japan's distinctive patterns of urbanisation are partly a product of the highly developed urban system urban traditions and material culture of the pre modern period which remained influential until well after the Pacific War A second key influence has been the dominance of central government in urban affairs and its consistent prioritisation of economic growth over the public welfare or urban quality of life Andr Sorensen examines Japan's urban trajectory from the mid nineteenth century to the present paying particular attention to the weak development of Japanese civil society local governments and land development and planning regulations

*Urban Spaces in Japan* Christoph Brumann, Evelyn Schulz, 2012 *Urban Spaces in Japan* explores the workings of power money and the public interest in the planning and design of Japanese space Through a set of vivid case studies of well known Japanese cities including Tokyo Kobe and Kyoto this book examines the potential of civil society in contemporary planning debates Further it addresses the implications of Japan's biggest social problem the demographic decline for Japanese cities and demonstrates the serious challenges and exciting possibilities that result from the impending end of Japan's urban growth Presenting a synthetic approach that reflects both the physical aspects and the social significance of urban spaces this book scrutinizes the precise patterns of urban expansion and shrinkage In doing so it also summarizes current theories of public space urban space and the body in space which are relevant to both Japan and the wider international debate With detailed case studies and more general reflections from a broad range of disciplines this collection of essays demonstrates the value of cross disciplinary cooperation As such it is of interest to students and scholars of geography and urban planning as well as history anthropology and cultural studies

*Living Cities in Japan* André Sorensen, Carolin Funck, 2007 Over the last fifteen years local citizens movements have spread rapidly throughout Japan This volume examines the growth and nature of civil society participation in local urban and environmental governance

**Transnational Encounters between Germany and East Asia since 1900** Joanne Miyang Cho, 2018-04-09 This volume contributes to an emerging field of Asian German Studies by bringing together cutting edge scholarship from international scholars working in a variety of disciplines The chapters survey transnational encounters between Germany and East Asia since 1900 By rejecting traditional dichotomies between the East and the West or the colonizer and the colonized these essays highlight connectedness and hybridity They show how closely Germany and East Asia cooperated and negotiated the challenges of modernity in a range of topics such as politics history literature religion environment architecture sexology migration and sports

*Imaginary Athens* Jin-Sung Chun, 2020-11-25 This book comprehensively examines architecture

urban planning and civic perception in three modern cities as they transform into national capitals through an entangled transnational process that involves an imaginative geography based on embellished memories of classical Athens Schinkel's classicist architecture in Berlin especially the principle of tectonics at its core came to be adopted effectively at faraway cities in East Asia merging with the notion of national polity as Imperial Japan sought to reinvent Tokyo and mutating into an inevitable reflection of modern civilization upon reaching colonial Seoul all of which give reason to ruminate over the phantasmagoria of modernity

*Trains, Culture, and Mobility* Benjamin Fraser, Steven D. Spalding, 2012-01-01 *Trains Culture and Mobility* Riding the Rails goes beyond textual representations of rail travel to engage an impressive range of political sociological and urban theory Taken together these essays highlight the complexity of the modern experience of train mobility and its salient relation to a number of cultural discourses Incorporating traditionally marginal areas of cultural production such as graffiti museums architecture or even plunging into the social experience of travel inside the traincar itself each essay constitutes an attempt to work from the act of riding the train toward questions of much larger significance Crisscrossing cultures from the New World and Old from East and West these essays share a common preoccupation with the way in which trains and railway networks have mapped and re mapped the contours of both cities and states in the modern period Bringing together individual and large scale social practices this volume traces out the cultural implications of Riding the Rails

[Japan at the Millennium](#) David W. Edgington, 2003 Japan today is at an important historical juncture Buffeted in recent years by rapid economic social and political change yet still very much steeped in custom and history the nation has become an amalgam of the traditional and the modern As a result the country has become increasingly difficult to categorize How are we to represent today's Japan effectively and fairly predict its future This critical multi disciplinary collection explores the convergence of past and future in contemporary Japan Contributors comment on a wide range of economic socio cultural and political trends such as the mobilization of Japanese labour the burgeoning Ainu identity movement and the shifting place of the modern woman and conclude that despite the rapid changes many of the traditional facets of Japanese society have remained intact institutional change they assert is unlikely to occur quickly and Japan must find alternate ways to adjust to twenty first century pressures of global competition and interdependence A pleasure to read this broad volume will be welcomed by upper level undergraduates graduates and specialists in Japanese studies

**A Companion to Japanese History** William M. Tsutsui, 2009-07-20 *A Companion to Japanese History* provides an authoritative overview of current debates and approaches within the study of Japan's history Composed of 30 chapters written by an international group of scholars Combines traditional perspectives with the most recent scholarly concerns Supplements a chronological survey with targeted thematic analyses Presents stimulating interventions into individual controversies

*Cartographic Japan* Kären Wigen, Sugimoto Fumiko, Cary Karacas, 2016-03-16 This deeply rewarding compilation of maps offers a gorgeously illustrated tour through the evolution of Japan from the Edo Period to the Digital Age Los Angeles Review of

Books Japanese society underwent a cartographic renaissance in the late sixteenth century that would eventually turn maps and mapmaking into a central part of daily life Since that time the nation s society and landscape have undergone major transformations and at every point copious maps documented those monumental changes Cartographic Japan offers a rich introduction to the resulting treasure trove with close analysis of one hundred maps from the late 1500s to the present day each one treated as a distinctive window onto Japan s tumultuous history Forty seven distinguished contributors hailing from Japan North America Europe and Australia uncover the meanings behind a key selection of these maps situating them in historical context and explaining how they were made read and used at the time With more than one hundred full color illustrations Cartographic Japan offers an enlightening tour of Japan s magnificent cartographic archive The Urbanism of Metabolism Raffaele Pernice,2022-03-16 This edited book explores and promotes reflection on how the lessons of Metabolism experience can inform current debate on city making and future practice in architectural design and urban planning More than sixty years after the Metabolist manifesto was published the author s original contributions highlight the persistent links between present and past that can help to re imagine new urban futures as well as the design of innovative intra urban relationships and spaces The essays are written by experienced scholars and renowned academics from Japan Australia Europe South Korea and the United States and expose Metabolism s special merits in promoting new urban models and evaluate the current legacy of its architectural projects and urban design lessons They offer a critical intellectual and up to date account of the Metabolism projects and ideas with regard to the current evolution of architectural and urbanism discourse in a global context The collection of cross disciplinary contributions in this volume will be of great interest to architects architectural and urban historians as well as academics scholars and students in built environment disciplines and Japanese cultural studies **Street Performers and Society in Urban Japan, 1600-1900** Gerald Groemer,2016-01-13 This book presents a thoroughly researched and meticulously documented study of the emergence development and demise of music theatre recitation and dance witnessed by the populace on thoroughfares plazas and makeshift outdoor performance spaces in Edo Tokyo For some three hundred years this city was the centre of such arts both sacred and secular This study outlines the nature of the performances explores the social relations which lay behind them and reveals vast complexity an obligation of gift giving on the part of observers performers who were often economic migrants fallen on hard times relations of performance to social class a class system much more finely gradated than the official four caste system and institutions of professional organization and registration enforced by government with penalties for unregistered performers The book discusses how performing witnessing and rewarding performance were closely bound up with economy society and government how the interaction between various groups related to socio economic advancement how the system of street performance reinforced social control and how the balance between different groups shifted over time Historical Dictionary of Tokyo Roman Cybriwsky,2011-02-18 Tokyo is Japan s largest city and its capital It is also one of the largest

cities in the world and a major center of global economic influence The origins of human settlement in what is today Tokyo are lost in prehistory The city started out quite modestly as a small castle town of Edo in 1457 then the center of the Tokugawa shogunate from 1603 1868 the rapidly modernizing and Westernizing capital of the nation during the Meiji Period 1868 1912 and the capital of a prosperous nation and growing empire thereafter Tokyo was utterly devastated during World War II but this was not the first time Tokyo had to start seemingly from new Due to many fires and earthquakes the city has constantly rebuilt itself and today it outdoes all its previous emanations by far The second edition of the Historical Dictionary of Tokyo is a much needed reference source on the city This is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries on people places events and other terminology about the city of Tokyo This book is a must for anyone interested in Japan and Tokyo [Routledge Handbook of Contemporary Japan](#) Hiroko Takeda, Mark Williams, 2020-09-21 The Routledge Handbook of Contemporary Japan presents a synthesized interdisciplinary study of contemporary Japan based on up to date theoretical models designed to provide readers with a comprehensive and full understanding of the dynamics of contemporary Japan In order to achieve this the Handbook is organized into two parts Part I Foundations clarifies the state of contemporary Japan topic by topic by referring to the latest theoretical developments in the relevant disciplinary fields of politics international relations economy society culture and the personal Part II Issues then offers a series of concrete analyses building upon the theoretical discussions introduced in Part I to help undergraduate and postgraduate students learn how to conduct independent analysis Locating Japan in a comparative and interdisciplinary perspective this Handbook is an essential resource for students and scholars interested in Japanese studies Asian studies and global studies [Automobility and the City in Twentieth-Century Britain and Japan](#) Simon Gunn, Susan C. Townsend, 2019-08-22 Automobility and the City in Twentieth Century Britain and Japan is the first book to consider how mass motorization reshaped cities in Japan and Britain during the 20th century Taking two leading motor cities Nagoya and Birmingham as their principal subjects Simon Gunn and Susan C Townsend show how cars changed the spatial form and individual experience of the modern city and reveal the similarities and differences between Japan and Britain in adapting to the motor age The book has three main themes the place of automobility in post war urban reconstruction the emerging conflict between the promise of mobility and personal freedom offered by the car and its consequences for the urban environment the M E dilemma and the extent to which the Anglo Japanese comparison can throw light on fundamental differences in cultural understanding of the environment urbanism and the self The result is the first comparative history of mass automobility and its environmental consequences between East and West [Making Urban Revolution in China](#) Joseph K. S. Yick, 1995 An attempt to rethink the traditional interpretation of the victory of Mao Zedong's Chinese Communist Party CCP in 1949 The focus is on the activities of the student intellectual based communist underground which played a crucial role [U.S./Japan Foreign Trade](#) Rita E. Neri, 2018-02-21 This bibliography first

published in 1988 consists of annotated entries of monographs and journal articles published in English that discuss socio economic aspects of Japanese society as well as the general and economic dynamics of United States Japan trade relations Emphasis is on the Japanese perspective      Contemporary Urban Japan John Clammer,2011-08-04 This volume demonstrates a fresh approach to urban studies as well as a new way of looking at contemporary Japan which links economy and society in an innovative way      **Making Urban Revolution in China: The CCP-GMD Struggle for Beiping-Tianjin, 1945-49** Joseph K.S. Yick,2015-05-20 The end of the Sino Japanese War in 1945 brought not peace but renewed confrontation between Mao Zedong s Chinese Communist Party and Chiang Kaishek s Guomindang The ensuing Civil War at the threshold of the Cold War held enormous significance for international strategic alliances and in particular the interests of the United States in East Asia and has been the subject of intense research and debate ever since Joseph Yick s Making Urban Revolution in China The CCP GMD Struggle for Beiping Tianjin 1945 1949 based partly on the rich new sources available in the PRC since 1978 rethinks the traditional interpretations of the Chinese Communist Party s victory in 1949 and makes a major contribution to the historiography of this period      *Urban Networks in Ch'ing China and Tokugawa Japan* Gilbert Rozman,2015-03-08 Ch ing China and Tokugawa Japan were unusually urbanized premodern societies where about one half of the world s urban population lived as late as 1800 Gilbert Rozman has drawn on both sociology and history to develop original methods of illuminating the historical urbanization of China and Japan and to provide a way of relating urban patterns to other characteristics of social structure in premodern societies The author also hopes to redirect the analysis of premodern societies into areas where China and Japan can be compared with each other and with other large scale societies The author divides central places into seven levels and determines how many levels were present in each country century by century Through this method he is able to demonstrate how Japan was rapidly narrowing China s lead in urbanization and show that Japan was relatively efficient in concentrating resources in high level cities Explanations for differences in urban concentration are sought in a general discussion of the social structure of each country an analysis of marketing patterns a detailed study of Chihli province and the Kant region an examination of regional variations and a comparison of Peking and Edo which were probably the world s largest cities throughout the eighteenth century Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **Pyrotechnic Cities** Liam Ross,2022-06-24 This book explores the relationship between architecture government and fire It posits that through the question of fire safety standardisation building design comes to be both a problem for and a tool of government Through a close study of fire safety standards it demonstrates the shaping

effect that architecture and the city have on the way we think about governing Opening with an investigation into the Grenfell Tower fire and the political actors who sought to enrol it in programmes of governmental reform before contextualising the research in current literature the book takes four city studies each beginning with a specific historic fire The 1654 Great Fire of Meirecki Edo the 1877 town fire of Lagos the 1911 Empire Palace Theatre fire Edinburgh and the 2001 World Trade Centre attack New York Each study identifies the governmental response to the fire safety standards and codes designed in its wake and how these new processes spread and change Drawing on the work of sociologists John Law and Anne Marie Mol and their concept of Fire Space it describes the way that architectural design through the medium of fire is an instrument of political agency Pyrotechnic Cities is a critical investigation into these political implications written for academics researchers and students in architectural history and theory infrastructure studies and governance
