**Mathematics for Caribbean Schools** Althea A. Foster, Terry Tomlinson, 2007 Provide clear explanations of new topics and worked examples with a structured approach to secondary school mathematics matching the syllabi from across the Caribbean Reinforce knowledge and ensure sound mathematical understanding with practice exercises **Maths for Caribbean Schools Teachers Guide 1** Christine Ann Atkinson, 2007-05-10 **Nelson Primary Maths for Caribbean Schools Junior Book 1 Second Edition** Errol Furlonge, Education Service Education Service Providers Inter., 2005 Nelson Primary Maths for Caribbean Schools is specially written for school pupils in the Caribbean region This new edition provides children with a thorough grounding in the basic mathematical skills needed both in school and in everyday life **Success in Maths for the Caribbean** Althea A. Foster, 2000 Success in Maths is an exciting new course for secondary school mathematics Each of the four levels has a dedicated Students Book Workbook and Teacher Resource and Testing Book

*Mathematics for Caribbean Schools* John Bredin Channon, 1989-10 This course offers a structured approach to mathematics with clear explanations of new topics worked examples and reinforcement exercises to ensure sound mathematical understanding especially in pupils of lower ability mathematics syllabuses There are separate books for years 1 3 with a single book to cover work to be done in years 4 and 5 in preparation for CXC examinations at either Basic or General Proficiency level or for O Level **New Mathematics for Caribbean Schools** William McMullen Hawthorne, A. B. Richardson, 1967 **Nels Prim Math Caribbean Schools Jr Bk 1 - Te** Nelson Thornes Limited, *Electronic Journal of E-Learning*, Statutory Rules and Orders for the Year ... Saint Vincent and the Grenadines, 1980 The British National Bibliography Arthur James Wells, 2001 Modern Mathematics Dirk De Bock, 2023-03-08 The international New Math developments between about 1950 through 1980 are regarded by many mathematics educators and education historians as the most historically important development in curricula of the twentieth century It attracted the attention of local and international politicians of teachers and of parents and influenced the teaching and learning of mathematics at all levels kindergarten to college graduate in many nations After garnering much initial support it began to attract criticism But as Bill Jacob and the late Jerry Becker show in Chapter 17 some of the effects became entrenched This volume edited by Professor Dirk De Bock of Belgium provides an outstanding overview of the New Math modern mathematics movement Chapter authors provide exceptionally high quality analyses of the rise of the movement and of subsequent developments within a range of nations The first few chapters show how the initial leadership came from mathematicians in European nations and in the United States of America The background leaders in Europe were Caleb Gattegno and members of a mysterious group of mainly French pure mathematicians who since the 1930s had published under the name of a fictitious Nicolas Bourbaki In the United States there emerged during the 1950s various attempts to improve U S mathematics curricula and teaching especially in secondary schools and colleges This side of the story climaxed in 1957 when the Soviet Union succeeded in

launching Sputnik the first satellite Undoubtedly this is a landmark publication in education The foreword was written by Professor Bob Moon one of a few other scholars to have written on the New Math from an international perspective The final epilogue chapter by Professor Geert Vanpaemel a historian draws together the overall thrust of the volume and makes links with the general history of curriculum development especially in science education including recent globalization trends

**Handbook of Mobile Learning** Zane L. Berge, Lin Muilenburg, 2013-06-19 Winner of the AECT Division of Distance Learning DDL Distance Education Book Award This handbook provides a comprehensive compendium of research in all aspects of mobile learning one of the most significant ongoing global developments in the entire field of education Rather than focus on specific technologies expert authors discuss how best to utilize technology in the service of improving teaching and learning For more than a decade researchers and practitioners have been exploring this area of study as the growing popularity of smartphones tablets and other such devices as well as the increasingly sophisticated applications for these devices has allowed educators to accommodate and support an increasingly mobile society This handbook provides the first authoritative account of the theory and research that underlies mobile learning while also exemplifying models of current and future practice

**Decolonizing Philosophies of Education** Ali A. Abdi, 2012-01-01 Philosophy of education basically deals with learning issues that attempt to explain or answer what we describe as the major questions of its domains i e what education is needed why such education and how would societies undertake and achieve such learning possibilities In different temporal and spatial intersections of people's lives the design as well as the outcome of such learning program were almost entirely indigenously produced but later they became perforce responsive to externally imposed demands where as far as the history and the actualities of colonized populations were concerned a cluster of de philosophizing and de epistemologizing educational systems were imposed upon them Such realities of colonial education were not conducive to inclusive social well being hence the need to ascertain and analyze new possibilities of decolonizing philosophies of education which this edited volume selectively aims to achieve The book should serve as a necessary entry point for a possible re routing of contemporary learning systems that are mostly of de culturing and de historicizing genre With that in mind the recommendations contained in the 12 chapters should herald the potential of decolonizing philosophies of education as liberating learning and livelihood praxes This collection of critical and scholarly analyses provides an insightful and timely resource for decolonizing philosophies of education that continue to shape discourses policies curricula and practices in all levels of educational and social institutions It also usefully challenges versions of postcolonial studies that fail to recognize and demystify the continuity of colonial hegemony in contemporary societal formations in both the global north and south Toh Swee Hin Distinguished Professor University for Peace Costa Rica Laureate UNESCO Prize for Peace Education 2000 Decolonizing philosophies of education edited by Ali A Abdi is a collection of twelve essays by noted scholars in the field who provide strong readings of postcolonialism in education with an emphasis

on decolonizing epistemologies It provides a clear and comprehensive introduction to the critical history of colonization postcolonial studies and the significance of education to the colonial project This is an important book that provides a global perspective on the existential and epistemological escape from the colonial condition Michael A Peters Professor Educational Policy Studies University of Illinois at Urbana Champaign *British Books in Print* ,1985 Resources in Education ,1998-07 Research in Education ,1972-05 **School Effectiveness** Pamela Sammons,1999-01-01 This volume explores the influence of students background on educational outcomes ways of contextualising school performance and current issues and developments in school effectiveness research Also investigated is how the research contributes to understanding of school and classroom processes **Teacher Exchange Opportunities and Summer Seminars** United States.
