Free to Learn Peter Gray, 2013-03-05 A leading expert in childhood development makes the case for why self directed learning unschooling is the best way to get kids to learn All kids love learning Most don't love school That's a disconnect we've avoided discussing until this lightning bolt of a book If you've ever wondered why your curious kid is turning into a sullen slug at school Peter Gray's Free to Learn has the answer He also has the antidote Lenore Skenazy author of Free Range Kids In Free to Learn developmental psychologist Peter Gray argues that in order to foster children who will thrive in today's constantly changing world we must entrust them to steer their own learning and development Drawing on evidence from anthropology psychology and history he demonstrates that free play is the primary means by which children learn to control their lives solve problems get along with peers and become emotionally resilient A brave counterintuitive proposal for freeing our children from the shackles of the curiosity killing institution we call school Free to Learn suggests that it's time to stop asking what's wrong with our children and start asking what's wrong with the system It shows how we can act both as parents and as members of society to improve children's lives and to promote their happiness and learning
Teaching Maths D.M. Neal, 2013-10-23 School mathematics is a complex subject and an

ever changing topic but this book will help teachers parents and employers to understand it better **Supporting the Child of Exceptional Ability at Home and School** Susan Leyden,2013-07-04 Drawing on theories of child development and on research in the processes of learning this book examines the challenges that children parents and teachers may face at various stages of a child s development Children whose development is unusual in any way may experience particular challenges in forming relationships and in making good progress in school If we are to help children of exceptional ability to develop into confident and well adjusted young people we need to understand what lies behind many of the common frustrations and problems some of them may experience This book looks at ways in which supportive learning environments can be created in which children and young people s abilities can be nurtured and encouraged Ways in which the school curriculum can be extended and enriched to maintain children s interest and enthusiasm in their learning are also explored This will be of particular interest to parents teachers and educational psychologists to teachers in training and to other professionals who support the work of families and schools *ECGBL2014-8th European Conference on Games Based Learning* Carsten Busch,2014-11-11
