Matres Lectionis In Ancient Hebrew Epigraphs:

Matres Lectionis in Ancient Hebrew Epigraphs Ziony Zevit, 1980 **Ancient Hebrew Periodization and the Language of the Book of Jeremiah** Aaron Hornkohl, 2014-04-24 In Ancient Hebrew Periodization and the Language of the Book of Jeremiah Aaron Hornkohl defends the diachronic approach to Biblical Hebrew and the linguistic dating of biblical texts Applying the standard methodologies to the Masoretic version of the biblical book of Jeremiah he seeks to date the work on the basis of its linguistic profile determining that though composite Jeremiah is likely a product of the transitional time between the First and Second Temple Periods Hornkohl also contributes to unraveling Jeremiah's complicated literary development arguing on the basis of language that its short edition as reflected in the book's Old Greek translation predates that supplementary material preserved in the Masoretic edition but unparalleled in the Greek Nevertheless he concludes that neither is written in Late Biblical Hebrew proper **Linguistic Evidence for the Pre-exilic Date of the Yahwistic**

Source Rick Wright, 2005-05-01 For the past few decades a growing number of scholars have attempted to overthrow the traditional Wellhausenian view that the so called Yahwist or J source of the Pentateuch is the oldest of the four major sources These scholars have argued that J was composed during the exilic or post exilic periods of ancient Israel Their arguments have focused on the literary historiographic and theological characteristics of J This book attempts to re evaluate on linguistic grounds such efforts to place the Yahwist source in the exilic or post exilic periods The study employs the methodology developed most prominently by Avi Hurvitz for identifying characteristic features of post exilic Hebrew Late Biblical Hebrew This divides the language of the Hebrew Bible into three main chronological stages Archaic Biblical Hebrew ABH Standard Biblical Hebrew SBH and Late Biblical Hebrew LBH Wright examines 40 features of J for which useful comparisons can be made to LBH and finds no evidence of LBH in the entire Yahwist source Therefore it is unlikely that J was composed during the post exilic period Moreover since Hurvitz has shown that the exilic period was a time of transition between SBH and LBH such that late features began to occur in exilic texts the author concludes on linguistic grounds that J was most likely composed during the pre exilic period of ancient Israel **Hebrew, Jewish, and Early Christian Studies**

Heerak Christian Kim, 2005 This book is the first book in the new academic book series Hermit Kingdom Studies in Christianity and Judaism which seeks to encourage advancement of knowledge in the area of Hebrew language studies Jewish historical studies and Early Christianity New Testament studies The academic series particularly encourages the use of interdisciplinary approaches and creative thinking HEBREW JEWISH AND EARLY CHRISTIAN STUDIES ACADEMIC ESSAYS by Heerak Christian Kim contains 6 academic papers The academic papers represent fruits of academic research conducted in a period of 10 years in three countries in three continents Israel United States and United Kingdom The research was conducted under the auspices of some of the world most prestigious fellowships such as the Lady Davis Fellowship and the Raoul Wallenberg Scholarship Heerak Christian Kim researched with some of the world's greatest minds

at the Hebrew University of Jerusalem Cambridge University and America's Ivy League universities Some of the papers in the collection were delivered before an academic audience in important academic conferences Society of Biblical Literature British New Testament Conference and American Schools of Oriental Research and represent cutting edge research in the respective field The essays show erudition But more importantly some of the creative ideas contained in the book represent potentially a strong force of change in methodology and academic consensus in the area of Hebrew Jewish and Early Christian studies This book is aimed at specialists in the field and can be used as a text book for college courses in the area of Hebrew Jewish and Early Christian studies This book would be beneficial and helpful for clergy and informed laity who want a more serious study of the Bible Christianity and Judaism

The Recent Study of Hebrew Nahum M. Waldman, 1989

The Historical Depth of the Tiberian Reading Tradition of Biblical

Hebrew Aaron D. Hornkohl, 2023-02-06 This volume explores an underappreciated feature of the standard Tiberian Masoretic tradition of Biblical Hebrew namely its composite nature Focusing on cases of dissonance between the tradition's written consonantal and reading vocalic components the study shows that the Tiberian spelling and pronunciation traditions though related interdependent and largely in harmony at numerous points reflect distinct oral realisations of the biblical text Where the extant vocalisation differs from the apparently pre-exilic pronunciation presupposed by the written tradition the former often exhibits conspicuous affinity with post-exilic linguistic conventions as seen in representative Second Temple material such as the core Late Biblical Hebrew books the Dead Sea Scrolls Ben Sira rabbinic literature the Samaritan Pentateuch and contemporary Aramaic and Syriac material On the one hand such instances of written reading disharmony clearly entail a degree of anachronism in the vocalisation of Classical Biblical Hebrew compositions On the other since many

of the innovative and secondary features in the Tiberian vocalisation tradition are typical of sources from the Second Temple Period and in some cases are documented as minority alternatives in even earlier material the Masoretic reading tradition is justifiably characterised as a linguistic artefact of profound historical depth *Diachrony in Biblical Hebrew* Cynthia Miller-Naudé, Ziony Zevit, 2012-10-25 *Diachrony in Biblical Hebrew* is an indispensable publication for biblical scholars whose interpretations of scriptures must engage the dates when texts were first composed and recorded and for scholars of language who will want to read these essays for the latest perspectives on the historical development of Biblical Hebrew For Hebraists and linguists interested in the historical development of the Hebrew language it is an essential collection of studies that address the language's development during the Iron Age in its various subdivisions the Neo Babylonian and Persian periods and the Early Hellenistic period Written for both text people and language people this is the first book to address established Historical Linguistics theory as it applies to the study of Hebrew and to focus on the methodologies most appropriate for Biblical Hebrew and Aramaic The book provides exemplary case studies of orthography lexicography morphology syntax language contact dialectology and sociolinguistics and because of its depth of coverage has broad implications for the linguistic dating of Biblical texts The presentations are rounded out by useful summary histories of linguistic diachrony in Aramaic Ugaritic and Akkadian the three languages related to and considered most crucial for Biblical research **The Development of the Biblical Hebrew Vowels** Benjamin Suchard, 2019-09-24 *The Development of the Biblical Hebrew Vowels* investigates the sound changes affecting the Proto Northwest Semitic vocalic phonemes and their reflexes in Tiberian Biblical Hebrew Contrary to many previous approaches Benjamin Suchard shows that these developments can all be described as phonetically regular sound laws This confirms that despite its unique transmission history Hebrew behaves like other languages in this regard Many Hebrew sound changes have traditionally been explained as reflecting non phonetic conditioning These include the Canaanite Shift of tonic and pre tonic lengthening diphthong contraction Philippi's Law the Law of Attenuation and the apocope of short unstressed vowels By reconsidering reconstructions and re evaluating phonetic conditions this work shows how the Biblical Hebrew forms regularly derive from their Proto Northwest Semitic precursors *Dialect Geography of Syria-Palestine, 1000-586 B.C.E.* W. Randall Garr, 2004 Garr's classic study on dialect geography of the Levant was the first book length attempt to follow in the steps of Zellig Harris *The Development of the Canaanite Dialects* in 45 years This Eisenbrauns reprint makes the book out of print for several years available once again to students of the Canaanite languages The book opens with an introduction that gives the methodology used a survey of past studies the corpus of texts used in the study and Garr's goals The next three chapters provide a comprehensive list of phonological morphological and syntactical features which are then gathered into a comprehensive table and analyzed for their relevance to dialectical classification Conclusions and a rich bibliography follow as well as indexes of subject texts cited and words **Write that They May Read** Daniel Isaac Block, David C. Deuel, C.

John Collins, Paul John Nicholas Lawrence, 2020 *Write That They May Read* is a collection of essays written in honor of our mentor friend and fellow scholar Professor Alan R Millard. Respectful of his contribution to our understanding of writing and literacy in the ancient biblical world, all the essays deal with some aspect of this issue ranging in scope from archeological artifacts that need to be read to early evidence of writing in Israel's world to the significance of reading and writing in the Bible including God's own literacy to the production of books in the ancient world and the significance of metaphorical branding of God's people with his name. The contributors are distributed among Professor Millard's peers and colleagues in a variety of institutions: his own students and students of his students. They represent a variety of disciplines including biblical archeology, Egyptology, Assyriology, Hebrew and other Northwest Semitic texts and the literature of the Bible and reside in North America, Japan, the United Kingdom, Denmark, and Germany. *Write That They May Read* contains contributions by:

Dobbs-Allsopp, 2015-08-19 On Biblical Poetry takes a fresh look at the nature of biblical Hebrew poetry beyond its currently best known feature parallelism F W Dobbs Allsopp argues that biblical poetry is in most respects just like any other verse tradition and therefore biblical poems should be read and interpreted like other poems using the same critical tools and with the same kinds of guiding assumptions in place He offers a series of programmatic essays on major facets of biblical verse each aspiring to alter currently regnant conceptualizations in the field and to show that attention to aspects of prosody rhythm lineation and the like allied with close reading can yield interesting valuable and even pleasurable interpretations What distinguishes the verse of the Bible says Dobbs Allsopp is its historicity and cultural specificity those peculiar encrustations and encumbrances that typify all human artifacts Both the literary and the historical then are in view throughout The concluding essay elaborates a close reading of Psalm 133 This chapter enacts the final movement to the set of literary and historical arguments mounted throughout the volume an example of the holistic staging which Dobbs Allsopp argues is much needed in the field of Biblical Studies
