Matrilocal Residence In Pre Literate Society:

Matrilocal Residence in Pre-Literate Society William Divale,1984-03 **Matrilocal Residence in Pre-literate Society** William Divale,1984 Gentlemen and Amazons Cynthia Eller,2011-02-06 Eller is an excellent historian She expertly lays out the development of the little known myth of matriarchal prehistory in a way that is both highly knowledgeable and readable This is essential reading for anyone interested in the history of feminist thought and anthropology Rosemary Radford Ruether author of Goddesses and the Divine Feminine Without a doubt this is the best introduction into the mythological jungle of modern scholarship on matriarchy Cynthia Eller s book is not only perfectly researched it is also intelligent and pleasantly written Philippe Borgeaud author of Mother of the Gods From Cybele to the Virgin Mary Religion and Women Arvind Sharma,2015-09-21 This book discusses the position of women in the Native American African Shinto Jaina Zoroastrian Sikh and Baha i faiths for the first time in a single volume and evolves a conceptual framework within which their positions could be comprehensively considered The contributing scholars provide an enlarged database for a more thorough discussion of the questions pertaining to women and religion in general and simultaneously advance the theoretical frontiers in women s studies Religion and Women belongs to a trilogy about women and world religions edited by Arvind Sharma the first and third volumes being respectively Women in World Religions and Today s Woman in World Religions Archaeology of the Iroquois Jordan E. Kerber,2007-07-19 This timely volume offers a compilation of twenty four articles covering a wide spectrum of topics in Iroquoian archaeology Culled from leading publications the pieces collectively represent the current state of knowledge and research in the field A comprehensive research bibliography with more than 500 entries will be a key resource for specialists and non specialists alike Both text and bibliography are structured in five sections Origins Precolumbian Dynamics Postcolumbian Dynamics Material Culture Studies and Contemporary Iroquois Perspectives Repatriation and Collaborative Archaeology Along with seminal essays by major figures in regional archaeology the book includes responses by Haudenosaunee writers to the political context of contemporary archaeological work This collection will prove indispensable to scholars in all areas of Iroquois studies students and teachers of Iroquoian archaeology and professional and avocational archaeologists in the United States and Canada **Gender Relations in Forest Societies in Asia** Govind Kelkar,Dev Nathan,Pierre Walter,2003-12-06 Extrait de la couverture Of the numerous available studies on forest management in Asia only a few mention the role of women or pay attention to gender relations Even projects are largely designed in terms of households or communities where men are the decision makers and the owners or managers of forests This important volume views gender relations as a crucial factor in the management of land and forests and maintains that the continuing invisibility of women in these areas only compounds poverty shortages and the increased workloads of forest based women Based on fieldwork conducted in several forest societies in China Thailand India and Malaysia the contributors explore the changes in gender relations within indigenous

communities from matrilineal and or gender egalitarian systems to ones where male domination is the norm The Construction of Homosexuality David F. Greenberg,2008-10-29 At various times homosexuality has been considered the noblest of loves a horrible sin a psychological condition or grounds for torture and execution David F Greenberg s careful encyclopedic and important new book argues that homosexuality is only deviant because society has constructed or defined it as deviant The book takes us over vast terrains of example and detail in the history of homosexuality Nicholas B Dirks New York Times Book Review *The Archaeology of Villages in Eastern North America* Jennifer Birch,Victor D.

Thompson,2018-09-17 This volume highlights the similarities and differences in the historical trajectories of village formation and development in eastern North America as well as the larger processes by which villages have the power to affect large scale social transformations Contributors to this volume employ archaeological and historical evidence to explore the development of villages among eastern North American societies of the deep and recent past *Stone Artefact Production and Exchange Among the Lesser Antilles* Sebastiaan Knippenberg,2007 This archaeological study reconstructs Pre Columbian exchange networks in the Lesser Antilles based on lithic artefact distributions among the different islands

The Archaeology of Native North America Dean Snow,Nancy Gonlin,Peter Siegel,2019-07-30 The Archaeology of Native North America presents the ideas evidence and debates regarding the initial peopling of the continent by mobile bands of hunters and gatherers and the cultural evolution of their many lines of descent over the ensuing millennia The emergence of farming urban centers and complex political organization paralleled similar developments in other world areas With the arrival of Europeans to North America and the inevitable clashes of culture colonizers and colonists were forever changed which is also represented in the archaeological heritage of the continent Unlike others this book includes Mesoamerica and the Caribbean thus addressing broad regional interactions and the circulation of people things and ideas This edition incorporates results of new archaeological research since the publication of the first edition a decade earlier Fifty four new box features highlight selected archaeological sites which are publicly accessible gateways into the study of North American archaeology The features were authored by specialists with direct knowledge of the sites and their broad importance Glossaries are provided at the end of every chapter to clarify specialized terminology The book is directed to upper level undergraduate and graduate students taking survey courses in American archaeology as well as other advanced readers It is extensively illustrated and includes citations to sources with their own robust bibliographies leading diligent readers deeper into the professional literature The Archaeology of Native North America is the ideal text for courses in North American archaeology **Women of the Earth Lodges** Virginia Bergman Peters,2000 Originally published North Haven Archon Books 1995 **Late Woodland Societies** Thomas E. Emerson,Dale L. McElrath,Andrew C. Fortier,2000-01-01 Archaeologists across the Midwest have pooled their data and perspectives to produce this indispensable volume on the Native cultures of the Late Woodland period approximately A D 300 1000 Sandwiched between the well known Hopewellian

and Mississippian eras of monumental mound construction the Late Woodland period has received insufficient attention from archaeologists who have frequently characterized it as consisting of relatively drab artifact assemblages The close connections between this period and subsequent Mississippian and Fort Ancient societies however make it especially valuable for cross cultural researchers Understanding the cultural processes at work during the Late Woodland period will yield important clues about the long term forces that stimulate and enhance social inequality Late Woodland Societies is notable for its comprehensive geographic coverage exhaustive presentation and discussion of sites artifacts and prehistoric cultural practices and critical summaries of interpretive perspectives and trends in scholarship The vast amount of information and theory brought together examined and synthesized by the contributors produces a detailed coherent and systematic picture of Late Woodland lifestyles across the Midwest The Late Woodland can now be seen as a dynamic time in its own right and instrumental to the emergence of complex late prehistoric cultures across the Midwest and Southeast

Sanctifying Misandry Katherine K. Young, Paul Nathanson, 2010-01-01 How some feminists have used religion to turn the Fall of Man into the fall of men The Anthropology of War Jonathan Haas, 1990-07-12 The book brings together a group of authors who are addressing the nature and causes of warfare in simpler tribal societies The authors represent a range of different opinions about why humans engage in warfare why wars start and the role of war in human evolution Warfare in cultures from several different world areas is considered ranging over the Amazon the Caribbean the Andes the Southwestern United States Southeast Asia Polynesia and Malaysia To explain the origins and maintenance of war in tribal societies different authors appeal to a broad spectrum of demographic environmental historical and biological variables Competing explanatory models of warfare are presented head to head with overlapping bodies of data offered in support of each Primeval kinship Bernard Chapais, 2009-06-30 At some point in the course of evolution from a primeval social organization of early hominids all human societies past and present would emerge In this account of the dawn of human society Bernard Chapais shows that our knowledge about kinship and society in nonhuman primates supports and informs ideas first put forward by the distinguished social anthropologist Claude Lévi Strauss Chapais contends that only a few evolutionary steps were required to bridge the gap between the kinship structures of our closest relatives chimpanzees and bonobos and the human kinship configuration The pivotal event the author proposes was the evolution of sexual alliances Pair bonding transformed a social organization loosely based on kinship into one exhibiting the strong hold of kinship and affinity The implication is that the gap between chimpanzee societies and pre linguistic hominid societies is narrower than we might think Many books on kinship have been written by social anthropologists but Primeval Kinship is the first book dedicated to the evolutionary origins of human kinship And perhaps equally important it is the first book to suggest that the study of kinship and social organization can provide a link between social and biological anthropology **Chesapeake Prehistory** Richard J. Dent Jr., 2007-11-23 Chesapeake Prehistory is the first book in almost a century to synthesize the

archaeological record of the region offering new interpretations of prehistoric lifeways This up to date work presents a new type of regional archaeology that explores contemporary ideas about the nature of the past In addition the volume examines prehistoric culture and history of the entire region and includes supporting lists of radiocarbon assays A unique feature is a reconstruction of the dramatic transformation of the regional landscape over the past 10 15 000 years Effects of War on Society Giorgio Ausenda,2002 The conference Effects of War on Society was the first in a series aimed at placing in perspective the sociocultural variables that make outbreaks of war probable and identifying for policy makers steps that can be taken to control these variables The papers focus on analysis of historical thinking on war anthropological analysis of the effects of war on societies at different levels of sociocultural integration the expansion and decline of multi ethnic states and the wider effects of war political economic and moral Copyright Libri GmbH All rights reserved **North American Indigenous Warfare and Ritual Violence** Richard J. Chacon,Rubén G. Mendoza,2013-02 This groundbreaking book presents clear evidence from multiple academic disciplines that indigenous populations engaged in warfare and ritual violence long before European contact Continuity and Change in the Native American Village Robert A. Cook,2017-11-02 Cook demonstrates that we can better allow for affiliation of archaeological sites with living descendants by more fully examining the complexity of the past *How War Began* Keith F. Otterbein,2004-11-10 Have humans always fought and killed each other or did they peacefully coexist until states developed Is war an expression of human nature or an artifact of civilization Questions about the origin and inherent motivations of warfare have long engaged philosophers ethicists anthropologists as they speculate on the nature of human existence In *How War Began* author Keith F Otterbein draws on primate behavior research archaeological research data gathered from the Human Relations Area Files and a career spent in research and reflection on war to argue for two separate origins He identifies two types of military organization one which developed two million years ago at the dawn of humankind wherever groups of hunters met and a second which developed some five thousand years ago in four identifiable regions when the first states arose and proceeded to embark upon military conquests In carefully selected detail Otterbein marshals the evidence for his case that warfare was possible and likely among early Homo sapiens He argues from analogy with other primates from Paleolithic rock art depicting wounded humans and from rare skeletal remains with embedded weapon points to conclude that warfare existed and reached a peak in big game hunting societies As the big game disappeared so did warfare only to reemerge once agricultural societies achieved a degree of political complexity that allowed the development of professional military organizations Otterbein concludes his survey with an analysis of how despotism in both ancient and modern states spawns warfare A definitive resource for anthropologists social scientists and historians *How War Began* is written for all who are interested in warfare and individuals who seek to understand the past and the present of humankind
