## **Matter Really Matters:**

**Does Anything Really Matter?** Peter Singer, 2017 In the first two volumes of *On What Matters* Derek Parfit argues that there are objective moral truths and other normative truths about what we have reasons to believe and to want and to do He thus challenges a view of the role of reason in action that can be traced back to David Hume and is widely assumed to be correct not only by philosophers but also by economists In defending his view Parfit argues that if there are no objective normative truths nihilism follows and nothing matters He criticizes often forcefully many leading contemporary philosophers working on the nature of ethics including Simon Blackburn Stephen Darwall Allen Gibbard Frank Jackson Peter Railton Mark Schroeder Michael Smith and Sharon Street *Does Anything Really Matter* gives these philosophers an opportunity to respond to Parfit's criticisms and includes essays on Parfit's views by Richard Chappell Andrew Huddleston Katarzyna de Lazari Radek and Peter Singer Bruce Russell and Larry Temkin A third volume of *On What Matters* in which Parfit engages with his critics and breaks new ground in finding significant agreement between his own views and theirs is appearing as a separate companion volume

*Matter Really Matters* J. M. Patten, 1995 Text and photographs explain the scientific concepts of matter and properties

*How Matter Matters* Paul R. Carlile, Davide Nicolini, Ann Langley, Haridimos Tsoukas, 2013-03-28 Although human lives towards the second half of the twentieth century became increasingly mediated by objects and artifacts and have depended heavily on the functioning of technical systems materiality in a broad sense became relatively marginalized as a topic of research interest This volume contributes to redressing the balance by drawing together the work of scholars involved in exploring the sociomaterial dimensions of organizational life It will look at the way material objects and artifacts are conceived in organizations and how they function in interaction with human agents The book offers a new conceptual repertoire and vocabulary that allows deeper thought and discussion about the inherent entanglement of the social and material Like the preceding volumes in the *Perspectives on Process Organization Studies* series the book displays the richness that characterizes process thinking and combines philosophical reflections with novel conceptual perspectives and insightful empirical analyses

*The Phenomenology of Prayer* Bruce Ellis Benson, Norman Wirzba, 2005 This collection of groundbreaking essays considers the many dimensions of prayer and takes up the meaning of prayer from within a uniquely phenomenological point of view

*Poetic Meditations on Selected Scripture* John P. Davis, 2021-05-07 This devotional of poetic meditations grew out of forty five years of expository preaching and self reflection The author's intermittent attempts at poetry reveal both his best and worst parts These poems reflect experience as a follower of Jesus an inward battle with sin shame sadness defeats yet always the word of God leads to the gospel of Jesus Christ and his victory his forgiveness his power his love and his hope Never without the realization of sinfulness and the sufficiency of the work of Jesus Christ many live daily on a continuum between these two poles of striving by faith to rest in Christ and agonizing over the heart's inclination to wander By God's grace and through his Spirit that movement may be more toward victory than defeat

**Near Occasions of Grace** Richard Rohr, 2015-03-11

*For Love of Matter* Freya Mathews, 2012-02-01 In *For Love of Matter* Freya Mathews challenges basic assumptions of Western science modern philosophy and environmental philosophy arguing that the environmental crisis is a symptom of a larger metaphysical crisis Western science rests on the premise that the world is an inert backdrop to human presence rather than a communicative presence in its own right one capable of dialogical congress with us Mathews explores the transformative effects of a substitution of the latter panpsychist premise for the former materialist one She suggests that to exist in a dialogical modality is to enter an expanded realm of eros in which the self and world are mutually kindled into a larger more incandescent state of realization She argues that any adequate philosophical response to the so called environmental crisis cannot be encompassed within the minor discipline of environmental philosophy but must instead address the full range of existential questions

**A Bun in the Oven** Barbara Katz Rothman, 2016-03-22 There are people dedicated to improving the way we eat and people dedicated to improving the way we give birth A Bun in the Oven is the first comparison of these two social movements The food movement has seemingly exploded but little has changed in the diet of most Americans And while there s talk of improving the childbirth experience most births happen in large hospitals about a third result in C sections and the US does not fare well in infant or maternal outcomes In A Bun in the Oven Barbara Katz Rothman traces the food and the birth movements through three major phases over the course of the 20th century in the United States from the early 20th century era of scientific management through to the consumerism of Post World War II with its turn to the French in making things gracious to the late 20th century counter culture midwives and counter cuisine cooks The book explores the tension throughout all of these eras between the industrial demands of mass management and profit making and the social movements composed largely of women coming together from very different feminist sensibilities which are working to expose the harmful consequences of industrialization and make birth and food both meaningful and healthy Katz Rothman an internationally recognized sociologist named midwife to the movement by the Midwives Alliance of North America turns her attention to the lessons to be learned from the food movement and the parallel forces shaping both of these consumer based social movements In both movements issues of the natural the authentic and the importance of meaningful and personal experiences get balanced against discussions of what is sensible convenient and safe And both movements operate in a context of commercial and corporate interests which places profit and efficiency above individual experiences and outcomes A Bun in the Oven brings new insight into the relationship between our most intimate personal experiences the industries that control them and the social movements that resist the industrialization of life and seek to birth change
