What Remains? Joyce Marie Mushaben, 2023-03-11 This book tells the story of the German Democratic Republic from the inside out using the lens of generational change to deconstruct an intriguing array of social identities that had little to do with the official GDR version authoritarian rulers regularly sought to impose on their citizens. The author compares the identities of five societal subgroups GDR writers and intellectuals pastors and dissidents women youth and working class men exploring the policies defining their lives and status before during after the 1989 Wende as well as the diverging exit voice and loyalty dilemmas encountered by each The dialectical components treated in this work center on the extent to which eastern identities were lost found and reconfigured across three generations from 1949 to 1989 from 1990 to 2005 then up to 2020 It explores how the existence of a separate East German state and the socialization processes imposed on each subculture has not only complicated the search for national unity since 1990 but also perhaps more controversially invoked new challenges directly related to ongoing East West structural disparities since unification and the treatment of eastern Germans by often more privileged western Germans **Captive to Reason** Vincent Cheung, 2014-11-26 This is a collection of articles on Christian philosophy and apologetics It answers a number of objections raised by some professing Christians against biblical metaphysics epistemology and apologetics It is a corrective to both evidentialism and counterfeit presuppositionalism Chapters include Occasionalism and Empiricism The Fatal Maneuver Professional Morons Power Apologetics and The Preacher Speaks Philosophy The Bible Under Trial James Orr,1907 Morality Matters Roger Trigg, 2004-08-13 Morality still matters argues philosopher Roger Trigg in this accessible introduction to moral thinking Written for general readers with no background in philosophy Argues that we need a shared moral vision in order to live together both nationally and internationally Considers the need for a shared morality in relation to subjects of vital importance such as human rights Stresses that private behaviour cannot be kept separate from public choices Discusses matters of topical debate on both sides of the Atlantic The Heart of What Matters Anthony Cunningham, 2001-09-11 The Heart of What Matters shows that literature has a powerful and unique role to play in understanding life s deepest ethical problems Anthony Cunningham provides a rigorous critique of Kantian ethics which has enjoyed a preeminent place in moral philosophy in the United States arguing that it does not do justice to the reality of our lives He demonstrates how fine literature can play an important role in honing our capacity to see clearly and choose wisely as he develops a moral philosophy that engages with our intimate emotional concerns Written in an accessible style and drawing from a provocative body of contemporary literature this book shows how moral philosophy can reach a far wider audience than it has In part one of this book Cunningham sketches out the theoretical basis for a redefined conception of moral philosophy In part two he engages in extended analyses of novels that address significant life and character issues specifically Kazuo Ishiguro s The Remains of the Day Toni Morrison's Beloved and Zora Neale Hurston's Their Eyes Were Watching God and Seraph on the

reconciling the environmental and economic components of N cycling within the context of a productive agricultural industry The book is divided into seven main sections which examine systematically the nature of the problems associated with losses of N and a range of possible solutions Section 1 Drivers towards sustainability why change identifies the need to adopt new strategies to avoid losses to the environment Section 2 considers the options for Matching supply with demand followed by the reasons for and means of Controlling losses to air and to water in section 3 and 4 Section 5 describes the challenges of Reconciling productivity with environmental considerations. Portmore, 2019-06-11 We ought to opt for the best that is we ought to choose the option that is best in terms of whatever ultimately matters So if maximizing happiness is what ultimately matters then we ought to perform the option that results in the most happiness And if instead abiding by the Golden Rule is what ultimately matters then we ought to perform the option that best abides by this rule However even if we know what ultimately matters this is not always sufficient for determining which option we ought to perform There are other questions that we need to consider as well Which events are options for us How do we rank our options in terms of their own goodness or in terms of the goodness of the best options that entail them How exactly does that which ultimately matters determine which options we ought to perform In Opting for the Best Douglas W Portmore focuses on these three questions which he argues can best be answered by putting aside any specific determination of what ultimately matters He argues that tackling these three guestions is crucial to solving many of the puzzles concerning what we ought to do including those involving supererogation indeterminate outcomes overdetermined outcomes predictable future misbehavior and good acts that entail bad acts among others Engaging with arguments in areas as wide ranging as action theory and deontic logic the solutions that Portmore offers systematize our thinking about some of the most complex issues in practical philosophy
