Matter Spirit A Study Of Mind Body:

Matter and Spirit James Bissett Pratt,1922 *Matter and Spirit* James Bissett Pratt,2015-06-14 Excerpt from Matter and Spirit A Study of Mind and Body in Their Relation to the Spiritual Life The principal excuse for a new book on the eternal problem of matter and mind is just the fact that the problem is eternal And not only is it eternal it is so complex that there is no end of illuminating ways in which it may be presented A further excuse if it be needed is to be found in the many new attitudes toward the question which contemporary thought has suggested A fairly rapid survey of the various answers old and new which have been given to our question a bird s eye view so to speak of this ancient problem in its modern setting seems to be called for by the times in which we live The need for such a review becomes more patent the moment one stops to consider the absolutely central place of the mind body problem in metaphysical speculation and the fundamental nature of metaphysics in knowledge and in life About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Matter and Spirit** James Bissett Pratt,1926

Transpersonal Ecosophy, Vol. 1: Theory, Methods and Clinical Assessments Mark A. Schroll,2016-01-24 The image on the cover of this book represents the idea that brain state alterations at sacred sites allow us to re experience memories that are woven into the morphogenetic fields of that place an idea that originates with Paul Devereux s empirical enquiry into dreams at sacred sites in Wales and England This books examines how this investigation provides us with a new way of understanding consciousness and a new direction toward a reconciliation of the divorce between matter and spirit We

explore the work of David Lukoff and Stanislav and Christina Grof the connections between the varieties of transformative experience in dream studies ecopsychology transpersonal psychology and the anthropology of consciousness as well as the overlap between David Bohm's interpretation of quantum theory and Rupert Sheldrake's hypothesis of formative causation

The New-Church Review, 1924 The fabric(ation) of consciousness Pieter F. Craffert, 2024-05-28 Consciousness is central to the quest for being human and for what the world is made of While there is widespread agreement on the significance of consciousness for clarifying the human condition there is no agreement on the phenomenon in search of theorising Although there is no shortage of theories and concepts of consciousness in current consciousness research the dominant critical analysis of consciousness research in this study although based on existing analyses is as far as I can see new and unique in arguing for a crisis in consciousness research This book touches on most aspects of consciousness research the hard problem of consciousness neural correlates of consciousness brain models and consciousness consciousness and dualistic thinking etc but is a critical analysis of consciousness research It is not an insider but a third person perspective on current consciousness research In this regard it differs from most introductions and overviews where these topics are presented from a first person perspective the insiders claim about their research Representing the broad spectrum of consciousness research in terms of the theoretical framework of a neuro ecological perspective is a new and innovative move **Matters of Spirit** F.
