Ramesh Kumar, 2009-09 India is one of the emerging markets that pose a unique set of challenges to marketers The importance of the context and the usefulness of concepts in the Indian context is the core proposition of the book The diversity of a mix of factors such as cultural aspects lifestyles demographics and unbranded offerings make consumer behaviour a fascinating study This book focuses on the behavioural principles of marketing and its application to branding in the Indian context Consumer behaviour concepts associated with branding A combination of recent and traditional examples reflecting the application of behavioural concepts Touch of reality boxes to indicate context based examples Caselets and cases drawn from real life situations Research findings associated with the Indian context Topical issues in consumer behaviour like cultural aspects digital marketing and experiential branding The World of Goods Mary Douglas, Baron Isherwood, 2021-03-28 It is well understood that the consumption of goods plays an important symbolic role in the way human beings communicate create identity and establish relationships What is less well known is that the pattern of their flow shapes society in fundamental ways In this book the renowned anthropologist Mary Douglas and economist Baron Isherwood overturn arguments about consumption that rely on received economic and psychological explanations They ask new questions about why people save why they spend what they buy and why they sometimes but not always make fine distinctions about quality Instead of regarding consumption as a private means of satisfying one's preferences they show how goods are a vital information system used by human beings to fulfill their

intentions towards one another They also consider the implications of the social role of goods for a new vision for social policy arguing that poverty is caused as much by the erosion of local communities and networks as it is by lack of possessions and contrast small scale with large scale consumption in the household A radical rethinking of consumerism inequality and social capital The World of Goods is a classic of economic anthropology whose insights remain compelling and urgent This Routledge Classics edition includes a new foreword by Richard Wilk Forget that commodities are good for eating clothing and shelter forget their usefulness and try instead the idea that commodities are good for thinking Mary Douglas and Baron Isherwood Behavioural Travel Modelling David A. Hensher, Peter R. Stopher, 2021-05-11 Originally published in 1979 this study deals on a fully comprehensive level with both passenger and freight travel The 40 chapters deal with an extensive range of related topics including equilibrium modelling theoretical and conceptual developments in demand modelling goods movement and forecasting and policy It outlines approaches to understanding travel behaviour which move beyond the individual choice theory towards a broader consideration of activities **Finance** David Blake, 2002-09-11 Since the 1980s the characteristics model in economics has been applied to the field of finance and offers a fresh perspective for understanding financial behaviour This book brings together some of the latest research by leading exponents of the characteristics model and its application to finance *The Cambridge Economic History of Modern Britain* Roderick Floud, Paul Johnson, 2003 Publisher Description **Reader's Guide to the Social Sciences** Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense
