liberal fundamental and evangelical movements in shaping Philippine Christian history this study addresses the historical reason for a lack of unity in the Philippine church Dr Go applies Paul Hiebert s theory of bounded and centred sets to the divisions between key organizations and churches in the Philippines to analyze and understand the behaviours of the influential groups involved in shaping Protestantism in the Philippines today This important work is not only needed to draw attention to the history of the church in the Philippines but it is vital in showing the need to learn from a divided past when considering the potential for future reconciliation and unity in the body of Christ
