## **New Deal Thought American Heritage Series:**

**New Deal Thought** Howard Zinn, 1966 Covering the entire sweep of American history this unique new series draws its material entirely from primary sources Skillful annotation and interpretive introductions add to the vitality of these works and contribution to the cohesive character of the series which includes more than forty volumes Publisher **Tracts of the American Revolution, 1763-1776** Merrill Jensen, 2003-01-01 This volume brings together seventeen of the most important pamphlets produced by the American colonies as they opposed British measures and policies after 1763 and as they disputed the issue of independence with one another between 1774 and 1776 The most famous pamphleteers James Otis John Dickinson John Adams Thomas Jefferson and Thomas Paine are here so too are lesser known ones Students of American history and political thought will find in these tracts rich evidence of the colonists grievances against Britain their methods of persuasion and the development of political thought that led to the Declaration of Independence A student oriented introduction presents a capsule history of the events of the period and an analysis of the context of each tract **The Zinn Reader** Howard Zinn, 2011-01-04 No other radical historian has reached so many hearts and minds as Howard Zinn It is rare that a historian of the Left has managed to retain as much credibility while refusing to let his academic mantle change his beautiful writing style from being anything but direct forthright and accessible Whether his subject is war race politics economic justice or history itself each of his works serves as a reminder that to embrace one's subjectivity can mean embracing one's humanity that heart and mind can speak with one voice Here in six sections is the historian's own choice of his shorter essays on some of the most critical problems facing America throughout its history and today **Reading, Learning, Teaching Howard Zinn** Ed Welch, 2009 Howard Zinn is one of the most celebrated historians and social activists of our time Raised in a working class family in Brooklyn he was a shipyard worker and union organizer when World War II began He served as a bombardier in the European Theatre and this experience shaped his opposition to war as an instrument of foreign policy He became active in the civil rights movement as well as the anti war movement from the 1950s to the 1970s He is perhaps best known as the author of A People's History of the United States published in 1980 This study of Zinn's life and work opens the door to many aspects of historical study generally untouched in traditional secondary and collegiate survey courses in United States history To Zinn history is not an objective account of the past to be indelibly carved into the brains of American citizens rather history is an ever changing palette of events as people react to the contexts and cultures they find themselves immersed in By considering the lives and thoughts of less politically and socially prominent individuals students have the opportunity to re-examine their own beliefs and assumptions about contemporary American life Students will gain insight into how history is constructed and recorded through a consideration of the life and writings of Howard Zinn **Howard Zinn on History** Howard Zinn, 2011-06-14 Howard Zinn began work on his first book for his friends at Seven Stories Press in 1996 a big volume collecting all his shorter writings organized by subject The themes

he chose reflected his lifelong concerns war history law class means and ends and race Throughout his life Zinn had returned again and again to these subjects continually probing and questioning yet rarely reversing his convictions or the vision that informed them The result was *The Zinn Reader* Five years later starting with *Howard Zinn on History* updated editions of sections of that mammoth tome were published in inexpensive stand alone editions This second edition of *Howard Zinn on History* brings together twenty seven short writings on activism electoral politics the Holocaust Marxism the Iraq War and the role of the historian as well as portraits of Eugene Debs John Reed and Jack London effectively showing how Zinn's approach to history evolved over nearly half a century and at the same time sharing his fundamental thinking that social movements people getting together for peace and social justice can change the course of history That core belief never changed Chosen by Zinn himself as the shorter writings on history he believed to have enduring value originally appearing in newspapers like the *Boston Globe* or the *New York Times* in magazines like *Z* the *New Left* the *Progressive* or the *Nation* or in his book *Failure to Quit* these essays appear here as examples of the kind of passionate engagement he believed all historians and indeed all citizens of whatever profession need to have standing in sharp contrast to the notion of objective or neutral history espoused by some It is time that we scholars begin to earn our keep in this world he writes in *The Uses of Scholarship* And in *Freedom Schools* about his experiences teaching in Mississippi during the remarkable Freedom Summer of 1964 he adds Education can and should be dangerous

**Howard Zinn** Davis D. Joyce, 2010-05 This first ever biography of Zinn traces in broad strokes the story of his life placing special emphasis on his involvement in both the Civil Rights movement and the Viet Nam War protests

*The Essential Jefferson* Thomas Jefferson, 2006-03-15 Through substantial selections from Jefferson's writings including his earliest writings Notes on Virginia and key public papers and personal correspondence this volume traces the development of his thinking on such fundamental issues as republicanism constitutionalism slavery and the separation of religion from politics Footnotes identify Jefferson's correspondents and provide useful context

**The Political Thought of Benjamin Franklin** Benjamin Franklin, 1965-01-01 Too often dismissed as the least philosophic of the Founding Fathers Benjamin Franklin had a deep and lasting impact on the shape of American political thought In this substantial collection of Franklin's letters essays and lesser known papers Ralph Ketcham traces the development of Franklin's practical and distinctly American political thought from his earliest Silence Dogood essays to his final writings on the Constitution and The Evils of the Slave Trade

*Theology in America* Sydney E. Ahlstrom, 2003-01-01 Covering nearly 300 years of American religious writing this anthology compiles selections from thirteen notable thinkers including Thomas Hooker Jonathan Edwards Charles Hodge Ralph Waldo Emerson Josiah Royce William James and H Richard Niebuhr to reveal the vital and creative history of Protestant theology in America In his substantial Introduction Sydney Ahlstrom relates the history of American theology in broad and accessible terms tackling his subject with characteristic clarity passion and intellectual rectitude

*Puritan Political Ideas* Edmund S.

Morgan,2003-01-01 In this unique collection noted historian Edmund Morgan focuses upon three ideas that lay at the root of Puritan political theory and have had a continuing significance in our history calling covenant and the separate spheres of church and state The selections show the origin of these ideas in the writings of the early English Puritans before the colonization of America in seventeenth century New England and finally in new contexts in the eighteenth century One may read these documents as primary sources of Puritan thought per se as sources of American intellectual history or as sources of a political theory that flowered in the early years of the new constitutional republic from the Foreword
