New Directions In European Community Law:

New Directions in European Public Law Jack Beatson, Takis Tridimas, 1998 From two symposia in the winter and spring of 1997 at Cambridge England 13 essays analyze a cluster of issues arising in the European Union public law arena Some deal with issues of liability and the availability of remedies in European and domestic law Others take a broader view looking at the phenomenon of cross fertilization among national legal systems and between national systems and European Union law Distributed in the US by ISBS Annotation copyrighted by Book News Inc Portland OR *New Directions in European Community Law* Francis G. Snyder, 1990-01-01 *New Directions in European Community Law* Francis G. Snyder, 1990

The Modernisation of EC Antitrust Law Rein Wesseling, 2000-10-19 In recent years European Community EC competition law has come under fire Continued criticism of all aspects of the means by which EC competition law is enforced has brought to light ineffectiveness of the present system Consequently the European Commission has responded by issuing the White Paper on Modernisation which sets out its vision on the future of EC competition law This new book takes a step back and tries to understand the current challenges to EC competition policy by examining the origins of the Community's competition law system In the first part of the book the author sketches the development of Community competition law enforcement between the European Economic Community established in 1958 and the European Union of today Taking this dynamic perspective on EC competition law the second part of the book addresses topical problems of EC competition policy the pertinent objectives the institutional framework the division of jurisdiction between the Community and Member States and decentralised enforcement of Community law Notably the author's conclusions diverge considerably from the analysis found in the Commission White Paper on Modernisation The author proposes various alternative solutions to the existing problems which arguably fit better within the overall constitutional development of the Community than the solutions offered by the Commission The book will be of interest to competition lawyers as well as to all those interested in the constitutional development of the European Community

The Construction of Europe S. Martin, 2013-03-09 Stephen Martin The fourteen essays that constitute this work provide a coherent review of the past and present of the European Community and consider some of its possible futures Werner Abelshauser and Richard Griffiths offer separate perspectives on the precursors of the European Community Abelshauser argues that comparison of the fates of the European Coal and Steel Community and the European Defense Community demonstrate the dominance of political over economic considerations in the integration process Griffiths considers the stillborn European Political Community many of the proposed features of which somewhat transformed were embodied in the Treaty of Rome Both suggest that as a practical matter a coming together of French and German interests has been a precondition for advances in European integration Stephen Martin and Andrew Evans discuss the development of the Community's Structural Funds first envisaged as tools to smooth the transition from a collection of regional economies to a continent wide single market now increasingly seen as devices to guide adjustment to long term

structural problems Stuart Holland emphasizes the role of the Structural Funds as one element in a broad range of strategies to ensure social and economic cohesion as the Maastricht Treaty ushers the European Union into the next stage of its development

Britain in the European Union P. Giddings, G. Drewry, 2004-04-20 Written by the same team that produced Westminster and Europe 1996 this book reports and analyzes the major developments in the relationship between Britain and the European Union between the ratification of the Maastricht Treaty and the British General Election of 2001 Britain in the European Union focuses particularly on the EU's impact on parliamentary institutions in the UK and on law and policy in such controversial areas as employment and the social chapter foreign and security policy enlargement and governance immigration and asylum and the single currency

The Emerging Constitutional Law of the European Union Adam Bodnar, Michal Kowalski, Karen Raible, Frank Schorkopf, 2003-07-22 Young lawyers from different academic centres in Germany and Poland comment on the ongoing constitutional debate in the EU Each of the more than 20 articles is dedicated to a specific theme i.e. human rights institutional design current and future function of the EU homogeneity and identity security and defence policy home policy and common values Similarities as well as differences in the perspectives of an old EU Member State on the one hand and an EU Member State to be on the other hand are revealed

European Labour Law Brian Bercusson, 2009-07-09 This extensively updated second edition explores how individual European labour law systems combine to produce a distinctly European transnational system

The Enforcement of EU Law Stine Andersen, 2012-11-29 Examining the European Commission's current range of practices for exercising control over the meaning and implementation of EU law this book provides a comprehensive analysis of centralised EU enforcement It describes the different practices available analysing their effectiveness and discussing the Commission's role in ensuring compliance

The European Court and National Courts Anne Marie Slaughter, Alec Stone Sweet, Joseph Weiler, 1998-03-01 The essays comprising this volume are the outcome of a major and unique project which looks in detail at the application of EC law by national courts and the interaction of the demands of EC law with the constraints imposed by national legal orders and especially national constitutional orders The volume comprises seven country studies which are shaped around a common research protocol These are supplemented by three cross cutting studies which draw on the country studies as well as on broader contextual research work aimed at trying to understand the role of the European Court of Justice in the round The results of this multi national research are certain to provoke widespread interest among scholars of European law international law and European politics for they offer the first systematic and rigorous attempt to assess the impact of the ECJ among the leading member states of the European Union
