New Directions In Quantitative Comparative Sociology International Studies In Sociology And Social Anthropology:

New Directions in Quantitative Comparative Sociology ,2021-10-18 The comparative method is at the core of sociological inquiry and gained new importance emphasis and practitioners particularly after the second world war as a consequence of a large variety of international and global scale developments The contributions to this book regard nations or countries as contextual units of analysis and treat them as variables Theoretical explanations are presented of how social phenomena are systematically related to characteristics of the nation states and these explanations are tested empirically using the qualitative tools of mainstream sociology The chapters in this book can be useful to a broad audience and a range of social scientists who are interested in the understanding of contemporary social phenomena that are no longer limited to national borders but that are transnational or of a global order Contributors are Toril Aalberg Wil Arts Carole B Burgoyne Loek Halman Piet Hermkens Guillermina Jasso Mebs Kanji James R Kluegel Ola Listhaug David S Mason Petr Mat ju Neil Nevitte Thorleif Pettersson David A Routh Svetlana Sidorenko Stephenson Johan Verweij Bernd Wegener and Peter Van Wijck

Human Values and Social Change ,2003-02-01 This book presents findings based on a unique source of insight into the role of human values the World Values Survey and the European Values Survey covering 78 societies containing over 80 per cent of the world s population The findings reveal large and coherent cross national differences in what people want out of life Four waves of surveys from 1981 to 1999 2001 reveal the impact of changing values on societal phenomena Evidence from eleven Islamic societies demonstrates that a distinctive Islamic culture exists but the democratic ideal is endorsed overwhelmingly Other analyses examine Gender Equality and Democracy Corruption and Democracy Social Capital in Vietnam the Clash of Civilization political satisfaction in global perspective Trust in International Governance and Israeli and South African values

A Decade of Democracy in Africa ,2002-10-31 The democratic experiment in Africa has had a checkered history over the past ten years Analysts of this process tend to focus on the political and legal space instead of including broader issues such as norms generational change and class Authors in this volume argue that African civil society is less likely to support democracy they measure African democracy by the women s rights movements unravel the mythical hope of technology and point to ideological capitulation necessary for a limited transition Past experience from Botswana South Africa Ghana Kenya Uganda and Madagascar will give the readers an understanding of democracy in Africa Contributors are Judith van Allen Lisa Aubrey Nigel Gibson Richard R Marcus Kenneth Mease Stephen N Ndegwa Stephen Orvis Dan Ottemoeller and Wisdom J Tettey

Conceptualizing/Re-conceptualizing Africa Maghan Keita,2021-10-11 Africa is a legitimizing factor in the world some might argue because of the weakness of its position in the world others might say because of the realization on the part of some African leaders that there are strengths inherent to their states positions that can be tapped Africa s place in the world is being re thought and re shaped And that is exactly what this book is about

the authors invite and incite the reader to a much closer and nuanced reading of Africa and its history and the way in which that history over time and space allows for a re conceptualization of Africa s role and place in the world The authors evoke W E B Du Bois on the invention of identity in the modern world In that light these works remind us as Du Bois would that the current invention of Africa is indeed a modern one an identity configured in numerous ways with and without our interventions Contributions by Lamont de Haven King State and Ethnicity in Nigeria Jesse Benjamin Nubians and Nabateans Jeremy Prestholdt Portuguese on the Swahili Coast Thomas Ricks Slaves in Shi i Iran AD 1500 1900 Launay Robert Late Seventeenth Century Narratives of Travel to Asia and Richard J Payne and Cassandra Veney Taiwan and Africa *Critical Perspectives on Globalization and Neoliberalism in the Developing Countries* Richard Harris, Melinda Seid, 2021-10-01 This book gives a critique of the contemporary global capitalist system and the adverse consequences suffered by the developing countries as a result of their integration into this system The current neoliberal paradigm of capitalist development as the only or the best alternative for the economic social and political development of the developing countries is rejected The authors search for more human and ecologically sustainable alternatives focusing on Latin America Asia and women Contributors are David Barkijn Robert N Gwynne Richard L Harris Crist bal Kay Jorge Nef Mustapha Kamal Pasha Cathy A Rakowski Wilder Robles Melinda J Seid and John Weeks **New Directions in Relational Sociology, Volume One** Frédéric Vandenberghe, Christian Papilloud, 2025-11-14 This edited volume contains contributions from scholars from all over the world that outline their version of relational sociology situate it within the relational landscape and indicate how it might contribute to the development of a relational paradigm This book s aim is to open a variety of perspectives on relational sociology and to bring them into a fruitful frictional dialogue These chapters draw on the canonical authors of the relational turn present relational perspectives in the neighbouring disciplines integrate divergent approaches solve important conceptual problems articulate the relations between the core concepts of relational sociology and apply the relational perspective to subfields of sociology The first part of the book Sociology as Friendly Society is dedicated to Fran ois D pelteau in memoriam and contains excerpts from an unfinished manuscript The second section discusses the idea of a paradigm of relational sociology balancing affirmative with more critical stances The third part contains texts about social attachments interactions and relations by authors who adopt a Durkheimian perspective The fourth part extends these concerns with primary sociability from the micro to the macro level of politics **American Book Publishing Record**, 2000 Higher Education: Handbook of Theory and Research Laura W.
