remains one of the world's most recognizable guardian breeds. Prized for versatility, intelligence, and sleek good looks, the Doberman excels in various forums including dog shows, working trials, military and police work, assistance dog roles for the blind and deaf, and therapy work. As the history chapter depicts, the Doberman Pinscher was the brain child of Herr Louis Dobermann, who needed a protection dog to accompany him on his rounds as a tax collector. That the breed's history only goes back to the mid 1830s makes the Doberman Pinscher a fairly new breed to come into the world of purebred dogs. A powerful and staunch protection breed, the Doberman is not a dog for everyone, as author Lou Ann Cloidt explains in the chapter on characteristics. If a potential owner understands the demands and requirements of this breed in terms of training, exercise, socialization, and so forth, and still believes that he or she will make a qualified, responsible owner, then this Comprehensive Owner's Guide provides all the information a he or she wants and needs to become the best possible owner of a Doberman Pinscher. New owners will welcome the well-prepared chapter on finding a reputable breeder and selecting a healthy, sound puppy. Chapters on puppy proofing the home and yard, purchasing the right supplies for the puppy, as well as house training, feeding, exercise, and grooming, are illustrated with photographs of handsome adults and puppies. In all, there are over 135 full-color photographs in this useful and reliable volume. The author's advice on obedience training will help the reader better mold and train into the most well-mannered dog in the neighborhood. The extensive and lavishly illustrated chapter on healthcare provides up-to-date, detailed information on selecting a qualified veterinarian, vaccinations, preventing and dealing with parasites, infectious diseases, and more. Sidebars throughout the text offer helpful hints covering topics as diverse as historical dogs, breeders or kennels, toxic plants, first aid, crate training, carsickness, fussy eaters, and parasite control. Fully indexed. *Pure-bred Dogs, American Kennel Gazette*, 1968-12. Doberman Pinschers Pauline T., 2012-03-14.

ABOUT THE BOOK Doberman Pinschers have a reputation. They are alert, watchdogs, fearless war dogs, and loyal protectors of their owners. Karl Lewis Dobermann envisioned a faithful and steadfast companion when he developed the breed in the 19th century. There is no historical record of the various breeds that helped comprise the Doberman's genetic mix, but many speculate that the Doberman is a product of breeds such as the Manchester Terrier, the greyhound, the Weimaraner, and the Rottweiler. The dogs were bred to optimize quick reaction time, speed, power, and ferocity. This has helped to influence the reputation that has followed the Doberman Pinscher over the years. The breed has been repeatedly and often unfairly saddled with a reputation for being vicious and untrustworthy. The reputation is largely a product of exaggeration in the media and fear mongering. Any claims regarding the Doberman Pinscher's viciousness have been mitigated by the fact that breeders have worked to eliminate extraordinary aggression from the breeding pool in recent years. The modern American Doberman Pinscher is considerably less ferocious than its ancestors.

EXCERPT FROM THE BOOK The Doberman Pinscher is often described as a medium-sized breed, but this description depends on an

one's frame of reference The standard height of the breed is roughly 28 inches They typically weigh between 70 and a 100 pounds The Dobermans long lanky legs also tend to give an illusion of even greater size Many consider Dobermans to be a rather large dog The most unique aspects of the breeds appearance are their cropped ear and docked tail The pointed erect ears of the Doberman symbolise the its power and predatory skills Pointed ears aid the canine in hunting and stalking its prey Breeders have maintained the Dobermans natural predatory traits while domesticating the breed and familiarizing the breed with humans Cropping the ears involves cutting away the outer parts of the ear and then using a technique called posting which causes them to stand erect While not presently illegal in the United States the process of cropping ears and docking tails is against the law in many countries around the world The dog's reputation as an attack dog combined with its look provide a unique distinctive appearance that seems to signal the breed's willingness and ability to protect its home and family
