Quinn, A N Ryan, 2023-08-11 First published in 1983 *England's Sea Empire* was originally part of the Early Modern Europe Today book series It explores the relationships between the increase of English merchant shipping the growth of naval power and the early experiments in overseas trade and colonisation No other book combines these topics for the period from the middle of the 16th to the middle of the 17th century In dealing with economic strategic and technical problems the authors write in language which is intelligible to non specialist readers They illustrate the arguments with generous quotations from contemporary sources and with maps of the regions under discussion This book will be of value on undergraduate courses in early British or colonial or maritime history *The Cambridge History of American Literature: Volume 1, 1590-1820* Sacvan Bercovitch, Cyrus R. K. Patell, 1997-01-28 Volume I of *The Cambridge History of American Literature* was originally published in 1997 and covers the colonial and early national periods and discusses the work of a diverse assemblage of authors from Renaissance explorers and Puritan theocrats to Revolutionary pamphleteers and poets and novelists of the new republic Addressing those characteristics that render the texts distinctively American while placing the literature in an international perspective the contributors offer a compelling new evaluation of both the literary importance of early American history and the historical value of early American literature **The History of Colonization from the Earliest Times to the Present Day** Henry Crittenden Morris, 1900 *A Popular History of the United States of America* Mary Botham Howitt, 1859 *A Popular History of the United States of America* Mary Howitt, 2023-04-25 Reprint of the original first published in 1859 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost **'Settling the Peace of the Church'** N. H. Keeble, 2014-10-30 The 1662 Act of

Uniformity and the consequent ejections on 24th August St Bartholomew's Day of those who refused to comply with its stringent conditions comprise perhaps the single most significant episode in post Reformation English religious history. Intended in its own words to settle the peace of the church by banishing dissent and outlawing Puritan opinion it instead led to penal religious legislation and persecution vituperative controversy and repeated attempts to diversify the religious life of the nation until with the Toleration Act of 1689 its aspiration was finally abandoned and the freedom of the individual conscience and the right to dissent were within limits legally recognised. Bartholomew Day was hence unintentionally but momentously the first step towards today's pluralist and multicultural society. This volume brings together nine original essays which on the basis of new research examine afresh the nature and occasion of the Act its repercussions and consequences and the competing ways in which its effects were shaped in public memory. A substantial introduction sets out the historical context. The result is an interdisciplinary volume which avoids partisanship to engage with episcopalian nonconformist and separatist perspectives; it understands English history as part of British history taking in the Scottish and Irish experience; it recognises the importance of European and transatlantic relations by including the Netherlands and New England in its scope and it engages with literary history in its discussions of the memorialisation of these events in autobiography memoirs and historiography. This collection constitutes the most wide ranging and sustained discussion of this episode for fifty years.
