New England Life In The 18th Century Representative Biographies From Sibleys Harvard Graduates:

New England Life in the 18th Century Clifford K. Shipton, 1974-07 In 1859 John Langdon Sibley projected and began a series of biographical sketches of all Harvard graduates at his death in 1885 he had published three volumes covering the Classes from 1642 through 1689 In 1930 the work was resumed by Clifford K Shipton who carried the series through Volume XII and the Class of 1750 This book offers a representative selection from the nine volumes of Shipton s biographies In these sketches there appear royal governors counterfeiter college presidents bootleggers Indian fighters Revolutionary leaders Loyalists mariners lawyers drunkards and clergymen of four persuasions Together they form a cross section of Colonial life in which the Harvard tie is often only incidental

New England Life in the Eighteenth Century Clifford Kenyon Shipton, 1995 In 1859 John Sibley began a series of biographical sketches of all Harvard graduates at his death in 1885 he had published three volumes covering the Classes from 1642 1689 In 1930 the work was resumed by Shipton who carried the series through the Class of 1750 This book offers a selection from the nine volumes of Shipton s biographies

Conservative Revolutionaries John S. Oakes, 2018-01-01 Boston Congregationalist ministers Charles Chauncy 1705 1787 and Jonathan Mayhew 1720 1766 were significant political as well as religious leaders in colonial and revolutionary New England Scholars have often stressed their influence on major shifts in New England theology and have also portrayed Mayhew as an influential preacher whose works helped shape American revolutionary ideology and Chauncy as an active leader of the patriot cause Through a deeply contextualised re examination of the two ministers as men of their times Oakes offers a fresh comparative interpretation of how their religious and political views changed and interacted over decades The result is a thoroughly revised reading of Chauncy s and Mayhew s most innovative ideas Conservative Revolutionaries unearths strongly traditionalist elements in their belief systems focussing on their shared commitment to a dissenting worldview based on the ideals of their Protestant New England and British heritage Oakes concludes with a provocative exploration of how their shifting theological and political positions may have helped redefine prevailing notions of human identity capability and destiny

Hanging Ruth Blay Carolyn Marvin, 2010-06-04 The true story of a woman hanged in colonial Portsmouth for burying her stillborn out of wedlock baby On a cold December morning in 1768 thirty one year old Ruth Blay approached the gallows for her execution Standing on the high ground in the northwest corner of what is now Portsmouth s old South Cemetery she would have had a clear view across the pasture to the harbor and open sea The eighteenth century hanging of a schoolteacher for concealing the birth of a child out of wedlock has appeared in local legend over the last few centuries but the full account of Ruth s story has never been told Drawing on over two years of investigative research author Carolyn Marvin brings to light the dramatic details of Ruth s life and the cruel injustice of colonial Portsmouth s moral code As Marvin uncovers the real flesh and blood

woman who suffered the ultimate punishment her readers come to understand Ruth as an individual and a woman of her time

Handbook on the History of Mathematics Education Alexander Karp, Gert Schubring, 2014-01-25 This is the first comprehensive International Handbook on the History of Mathematics Education covering a wide spectrum of epochs and civilizations countries and cultures Until now much of the research into the rich and varied history of mathematics education has remained inaccessible to the vast majority of scholars not least because it has been written in the language and for readers of an individual country And yet a historical overview however brief has become an indispensable element of nearly every dissertation and scholarly article This handbook provides for the first time a comprehensive and systematic aid for researchers around the world in finding the information they need about historical developments in mathematics education not only in their own countries but globally as well Although written primarily for mathematics educators this handbook will also be of interest to researchers of the history of education in general as well as specialists in cultural and even social history

Before the Melting Pot Joyce D. Goodfriend, 2021-01-12 From its earliest days under English rule New York City had an unusually diverse ethnic makeup with substantial numbers of Dutch English Scottish Irish French German and Jewish immigrants as well as a large African American population Joyce Goodfriend paints a vivid portrait of this society exploring the meaning of ethnicity in early America and showing how colonial settlers of varying backgrounds worked out a basis for coexistence She argues that contrary to the prevalent notion of rapid Anglicization ethnicity proved an enduring force in this small urban society well into the eighteenth century

Peoples of a Spacious Land Gloria L. Main, 2009-07-01 Using original sources as well as the findings of demographers ethnologists and cultural anthropologists Main compares the family life of the English colonists in Southern New England with the lives of comparable groups remaining in England and of native Americans

A Colonial Woman's Bookshelf Kevin J. Hayes, 2016-02-05 A Colonial Woman's Bookshelf represents a significant contribution to the study of the intellectual life of women in British North America Kevin J Hayes studies the books these women read and the reasons why they read them As Hayes notes recent studies on the literary tastes of early American women have concentrated on the post revolutionary period when several women novelists emerged Yet he observes women were reading long before they began writing and publishing novels and in fact mounting evidence now suggests that literacy rates among colonial women were much higher than previously supposed To reconstruct what might have filled a typical colonial woman's bookshelf Hayes has mined such sources as wills and estate inventories surviving volumes inscribed by women public and private library catalogs sales ledgers borrowing records from subscription libraries and contemporary biographical sketches of notable colonial women Hayes identifies several categories of reading material These range from devotional works and conduct books to midwifery guides and cookery books from novels and travel books to science books In his concluding chapter he describes the tensions that were developing near the end of the colonial period between the emerging cult of domesticity and the appetite for learning many women displayed With its meticulous research and rich

detail A Colonial Woman s Bookshelf makes a valuable contribution to our understanding of the complexities of life in seventeenth and eighteenth century America *Enduring Roots* Gayle Brandow Samuels, 2005-01-03 Trees are the grandest and most beautiful plant creations on earth From their shade giving arching branches and strikingly diverse bark to their complex root systems trees represent shelter stability place and community as few other living objects can *Enduring Roots* tells the stories of historic American trees including the oak the apple the cherry and the oldest of the world s trees the bristlecone pine These stories speak of our attachment to the land of our universal and eternal need to leave a legacy and demonstrate that the landscape is a gift to be both received and sometimes tragically to be destroyed Each chapter of this book focuses on a specific tree or group of trees and its relationship to both natural and human history while exploring themes of community memory time and place Readers learn that colonial farmers planted marker trees near their homes to commemorate auspicious events like the birth of a child a marriage or the building of a house They discover that Benjamin Franklin s Newtown Pippin apples were made into a pie aboard Captain Cook s Endeavour while the ship was sailing between Tahiti and New Zealand They are told the little known story of how the Japanese flowering cherry became the official tree of our nation s capital a tale spanning many decades and involving an international cast of characters Taken together these and many other stories provide us with a new ways to interpret the American landscape It is my hope the author writes that this collection will be seen for what it is a few trees selected from a great forest and that readers will explore both the trees and the forest and find pieces of their own stories in each
