The Real Facts Of Life Margaret Jackson, 2005-08-04 During the last twenty years feminist research into the history of sexuality has made important contributions to the theoretical understanding of the relationship between sexuality and male power When sexology became established as a science feminists had for many years been engaged in a struggle to change male sexuality by waging campaigns against male sexual violence and abuse of women and children by challenging the institutions of marriage and prostitution and by asserting in theory and in practice the right to female sexual autonomy Despite the excellent research published in this important and fascinating aspect of feminist history there are still gaps in our knowledge *The Real Facts of Life* aims to fill these gaps Why and when did sexuality become an important political issue for the 19th century feminist What was the history of campaigns against double standards of sexual morality Why were feminists so divided in their views about sexual freedom and its relationship to women s emancipation The analysis of these issues illuminates past and present feminists ideas and theories about sexuality Margaret Jackson s main aims in *The Real Facts of Life* are to make a contribution towards understanding the history of the struggle for female sexual autonomy to provide a revolutionary feminist analysis of the social construction of sexuality and its relationship to male power and to provide a critique of sexology and the male defined concept of sexual liberation *Resources in Education* ,1994-05 **Sophie**

Hartley and the Facts of Life Stephanie Greene, 2013 Sophie 10 doesn't want to turn into a moody teenager like her older brother and sister and she certainly doesn't want to see *The Movie* about gross adolescent body changes at school. On the other hand, she doesn't want to be considered immature by her classmates. Facts of Life Rehana Shamsi, 2016 *Facts of Life* Reflections on Ignorance and Intelligence is the result of Rehana Shamsi's observations, experiences, and relationship to her former society. Many of the poems bring to the forefront the emotional and psychological trauma caused by men's traditional dominance over women in majority of South Asian households. Women's constant struggle to overcome suppression is a major theme covered in this collection of poetry. In addition, Shamsi showcases her perspective on life in general. Through her captivating and incisive style, she explores joys and sorrows, challenges and choices, and ignorance and intelligence.

The Work/life Collision Barbara Pocock, 2003 Longer working hours, insecure jobs, child care, declining birth rates, parental leave, the mummy track, the success or failure of feminism, the levels of passion, vitriol, despair, and guilt—these subjects engender attest to the importance Australians place on them, and rightly so. Their effects go beyond how we feel; they affect vital economic and demographic trends. *The Work Life Collision* grounded in thorough quantitative and qualitative research analyses how these factors affect each other, in particular the collision of work and care and its implications for how we live. Pocock demonstrates how the existing work-care regime that shapes how we live and work has high social costs for mothers, fathers, families, and those who want to be both workers and carers. She weighs the hidden costs of how we live and work now, costs that can be measured in bedrooms, kitchens, workplaces, and streetscapes, and in our declining birth rate and embedded gender inequality. *The Work Life Collision* goes further than just explaining our growing anxiety about quality of life despite the evidence of unmatched material wealth. Pocock proposes ways in which a new work-care regime can be built through the redistribution of working hours, the rehabilitation of degraded and insecure part-time jobs, a new system of leave from paid work, and better support for mothers, fathers, and all kinds of dependants. She guides us through the real experiences of Australian households and points to a uniquely Australian solution to a fairer world.

Contemporary Political Theory Colin Farrelly, 2004 *Contemporary Political Theory: A Reader* provides an accessible introduction to the key works of major contemporary political theorists. Key theorists and writers include John Rawls, Robert Nozick, Michael Walzer, Michael Sandel, Susan Okin, Will Kymlicka, Iris Marion Young, Charles Taylor, Nancy Fraser, and John Dryzek.

The Mommy Myth Susan Douglas, Meredith Michaels, 2004-03-26 Susan Douglas first took on the media's misrepresentation of women in her funny, scathing social commentary *Where the Girls Are Now*; she and Meredith Michaels have turned a sardonic but never jaundiced eye toward the cult of the new momism, a trend in American culture that is causing women to feel that only through the perfection of motherhood can true contentment be found. This vision of motherhood is highly romanticized, and yet its standards for success remain forever out of reach, no matter how hard women may try to have it all. *The Mommy Myth* takes a provocative tour through the past thirty years of media images about mothers.

the superficial achievements of the celebrity mom the news media's sensational coverage of dangerous day care the staging of the mommy wars between working mothers and stay at home moms and the onslaught of values based marketing that raises mothering standards to impossible levels just to name a few In concert with this messaging the authors contend is a conservative backwater of talking heads propagating the myth of the modern mom This nimble assessment of how motherhood has been shaped by out of date mores is not about whether women should have children or not or about whether once they have kids mothers should work or stay at home It is about how no matter what they do or how hard they try women will never achieve the promised nirvana of idealized mothering Douglas and Michaels skillfully map the distance traveled from the days when The Feminine Mystique demanded more for women than the unpaid labor of keeping house and raising children to today's not so subtle pressure to reverse this thirty year trend A must read for every woman
