

Regulating Globalization

Critical Approaches to Global Governance

Edited by **Pierre de Senarclens** and **Ali Kazancigil**

New Global Governance

Theodor Tudoroiu

New Global Governance:

China Engages Global Governance Gerald Chan, Pak K. Lee, Lai-Ha Chan, 2011-10-20 This book focuses on China's increasing involvement in global governance as a result of the phenomenal rise of its economy and global power. It examines whether and in what ways China is capable of participating in multilateral interactions if it is willing and able to provide global public goods to address a wide array of global problems and what impact this would have on both global governance and order. The book provides a comprehensive assessment of China's increasing influence over how world affairs are being managed, how far China with increasing clout interacts with other major powers in global governance and what the consequences and implications are for the evolving global system and world order. This book is the first to explore China's engagement with global governance in traditional and new securities.

Global Governance in the Twenty-first Century J. Clarke, G. Edwards, 2004-09-08 The key challenges of globalization are diffuse and outside the control of any one state. In its most ambitious and forward-looking form, global governance seeks to create an international social fabric, albeit imperfect, which cumulatively amounts to more than the sum of its parts. Global Governance in the Twenty-first century aims to open a number of new areas for further analysis and, in particular, to begin a process of cross-fertilization between different disciplines examining issues related to global governance.

Global Governance Thomas G. Weiss, 2013-07-11 Friends and foes of international cooperation puzzle about how to explain order, stability and predictability in a world without a central authority. How is the world governed in the absence of a world government? This probing yet accessible book examines global governance or the sum of the informal and formal values, norms, procedures and institutions that help states, intergovernmental organizations, civil society and transnational corporations identify, understand and address transboundary problems. The chasm between the magnitude of a growing number of global threats—climate change, proliferation of weapons of mass destruction, terrorism, financial instabilities, pandemics, to name a few—and the feeble contemporary political structures for international problem-solving provide compelling reasons to read this book. Fitful tactical and short-term local responses exist for a growing number of threats and challenges that require sustained strategic and longer-run global perspectives and action. Can the framework of global governance help us to better understand the reasons behind this fundamental disconnect as well as possible ways to attenuate its worst aspects? Thomas G. Weiss replies with a guardedly sanguine yes.

China Engages Global Governance Pak K. Lee, Lai-Ha Chan, 2011 This book focuses on China's increasing involvement in global governance as a result of the phenomenal rise of its economy and global power. It examines whether and in what ways China is capable of participating in multilateral interactions if it is willing and able to provide global public goods to address a wide array of global problems and what impact this would have on both global governance and order. The book provides a comprehensive assessment of China's increasing influence over how world affairs are being managed, how far China with increasing clout interacts with other major powers in global governance and what the consequences and

implications are for the evolving global system and world order This book is the first to explore China's engagement with global governance in traditional and new securities Global Governance Enterprises John J. Forrer, 2016-11-03 Global Governance Enterprises focuses on a specific multi sector collaboration the formation of an entity that carries out global governance providing a detailed analysis of the context of their emergence as well as how they are created managed and sustained Forrer considers the growing challenges to successful global governance and the role of multi sector collaborations in overcoming these challenges arguing that such partnerships should be considered successful only when they meet specific conditions that ensure they are doing well and doing good By establishing a coherent framework to define global governance enterprises across a wide span of sectors the book develops a strong theoretical foundation for this type of partnership and provides the reader with an understanding of the practical operational realities of organizing financing and sustaining global governance enterprises It includes a full section of case studies ranging from healthcare to environmental organizations providing practical insight into this form of governance and its function This book should be on the shelf of any professional or student interested in global governance public private partnerships or public management **Thinking about Global Governance** Thomas G. Weiss, 2012-04-27 One of the more prolific and influential analysts of multilateral approaches to global problem solving over the last three decades is Thomas G Weiss *Thinking about Global Governance Why People and Ideas Matter* assembles key scholarly and policy writing This collection organizes his most recent work addressing the core issues of the United Nations global governance and humanitarian action The essays are placed in historical and intellectual context in a substantial new introduction which contains a healthy dose of the idealism and ethical orientation that invariably characterize his best work This volume gives the reader a comprehensive understanding of these key topics for a globalizing world and is an invaluable resource for students and scholars alike *Global Governance in a World of Change* Michael N. Barnett, Jon C. W. Pevehouse, Kal Raustiala, 2021-12-09 Introduces the idea of modes of governance to compare the causes and consequences of changes in global institutions China's New Global Initiatives Theodor Tudoroiu, 2025-08-12 This book provides the first in depth analysis of China's Global Initiatives launched between 2021 and 2023 as elements of a coherent strategy intended to construct a Chinese led international order This highly ambitious enterprise was initiated in 2013 and has relied on the Chinese socialization of the Global South political elites which uses the prestige infrastructure projects of the Belt and Road Initiative BRI as material incentives In recent years however China's economic problems major difficulties with the repayment of BRI infrastructure loans and the Western infrastructure counteroffensive have triggered a serious crisis that has significantly reduced the effectiveness of the socialization process This book argues that the creation of the Global Development Initiative Global Security Initiative Global Civilization Initiative and Global Artificial Intelligence Governance Initiative as well as the recalibration of the Belt and Road Initiative represents a response to this crisis The new Global Initiatives complement and partially replace the old BRI by extending the repertoire of Chinese policies and actions to

the domains of non infrastructure development assistance international security civilizationism and AI based industrial revolution If successful they have the potential to bring China s international order to maturity which will result in the emergence of a bipolar international system **Critical Perspectives on the Crisis of Global Governance** S.

Gill,2015-01-02 The contributors highlight alternative imaginaries and social forces harnessing new organizational and political forms to counter and displace dominant strategies of rule They suggest that to address intensifying economic ecological and ethical crises far more effective legitimate and far sighted forms of global governance are required *Global Governance* Timothy J. Sinclair,2004

Decoding **New Global Governance**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**New Global Governance**," a mesmerizing literary creation penned with a celebrated wordsmith, readers embark on an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
