A New History of Ireland, Volume II Art Cosgrove, 2008-11-06 This second volume of the A New History of Ireland series opens with a character study of medieval Ireland and a panoramic view of the country c 1169 followed by nineteen chapters of narrative history There are further chapters on Gaelic and colonial society literature architecture sculpture manuscripts and illuminations and coinage

Medieval Ireland (1169-1534). Art Cosgrove, 1987

COLONY & FRONTIER IN MEDIEVAL IRELAND T. B. Barry, Frame, Katharine Simms, 1995-01-01 These essays explore aspects of the English colony in medieval Ireland and its relations with the Gaelic host society They deal both with the foundation and expansion of the English lordship in the twelfth and early thirteenth centuries and with the problems and adjustments that accompanied its contraction in the later middle ages Attention is paid both to the government and society of the colony itself and to the interactions between settler and native

The Medieval Irish Kings and the English Invasion Seán Ó Hóireabhárd, 2024-10-04 When Henry II accepted the Leinster king Diarmait Mac Murchada as his liegeman in 1166 he forged a bond between the English crown and Ireland that has never been undone Ireland was to be changed forever as a result of the momentous events that followed so much so that it is normal for professional historians to specialise in either the pre or post invasion period Here for the first time is an account of the impact of the English invasion on the Irish kingdoms in the context of their strategies across the whole twelfth century Ireland's leading men battled for spheres of influence for recognition of their hegemonies and ultimately for the coveted title of king of Ireland But what did it mean to be the king of Ireland when no one dynasty had secured their hold on it This book takes a close look at each pretender asking what it meant to them and whether the political dynamics surrounding the role had an impact on the course of the invasion itself

Ireland's English Pale, 1470-1550 Steven G. Ellis, 2021 Challenges the argument that the English

Pale was contracting during the early Tudor period A key argument of this book is that the English Pale the four counties around Dublin under English control was expanding during the early Tudor period not contracting as other historians have argued The author shows how the new system whereby the four obedient shires were protected by new fortifications and a newly constituted English style militia which replaced the former system of extended marches was highly effective making unnecessary money and troops from England and enabling the Dublin government to be self financing The book provides full details of this new system It also demonstrates how direct rule by an English army and governor which replaced the system in the years after 1534 was much more costly and led on in turn to the policy of surrender and regrant under which Irish chiefs became subject to English law The book highlights how this policy made the English Pale s frontiers redundant but how ideologically ideas of English civility nevertheless survived and the wild Atlantic way remained beyond the Pale

Ireland and the English World in the Late Middle Ages B. Smith, 2009-04-14 This volume extends the British Isles approach pioneered by Robin Frame and Rees Davies to the later middle ages Through examination of issues such as frontier formation colonial identities and connections with the wider world it explores whether this period saw the bonds between the British Isles weaken strengthen or simply alter
