New Image Of Religious Film

Robert K. Johnston

New Image Of Religious Film:

New Image of Religious Film John R. May, 1997 Contributors from richly diverse backgrounds explore a wide range of current issues concerning the interrelationship of religion and film The Routledge Companion to Religion and Film John C. Lyden, 2009-05-07 The Routledge Companion to Religion and Film brings together a lively and experienced team of contributors to introduce students to the key topics in religion and film and to investigate the ways in which the exciting subject of religion and film is developing for more experienced scholars Divided into four parts the Companion analyzes the history of the interaction of religion and film through periods of censorship as well as appreciation of the medium studies religion in film examining how the world's major religions as well as Postcolonial Japanese and New Religions are depicted by and within films uses diverse methodologies to explore religion and film such as psychoanalytical theological and feminist approaches and audience reception analyzes religious themes in film including Redemption the Demonic Jesus or Christ Figures Heroes and Superheroes considers films as diverse as The Passion of the Christ The Matrix Star Wars and Groundhog Day This definitive book provides an accessible resource to this emerging field and is an indispensable guide to religion and film for students of Religion Film Studies and beyond *Mystical Gaze of the Cinema* Richard Leonard, 2009-02-15 Magical out of this world an experience you'll never forget Peter Weir's films have enthralled audiences around the globe Whether in iconic Australian works such as Picnic at Hanging Rock and Gallipoli or international mainstream thrillers such as Witness Weir has deliberately created mystical movie experiences Modern cinema studies is used to dissecting films on the basis of gender class or race now for the first time Richard Leonard shows that a mystical gaze also exists and is exercised in the secular multiplex temples of today The *Mystical Gaze of the Cinema* is a meticulous and accessible book that uses a psychoanalytic approach incorporating the insights of Jung film theory and theology to break new ground in what continues to be a hot topic in cinema studies the spectator screen relationship Leonard provides a fresh and innovative perspective on what happens when we behold a film **Popular Hindi Cinema** Ronie Parciack, 2016-04-20 The popular Hindi film industry is the largest in India and the most conspicuous film industry in the non Western world This book analyses the pivotal visual and narrative conventions employed in popular Hindi films through the combined prism of film studies and classical Indian philosophy and ritualism The book shows the films outside Western paradigms as visual manifestations and outcomes of the evolution of classical Hindu notions and esthetic forms These include notions associated with the Advaita Vedānta philosophical school and early Buddhist thought concepts and dynamism stemming from Hindu ritualism rasa esthetic theories as well as Brahmanic notions such as dharma religion law order and moksha a liberation These are all highly abstract notions which the author defines as the unseen a cluster of diversified concepts denoting what subsists beyond the phenomenal what prevails beyond the empirical world of *samsara* and stands out of this world *alaukika* while simultaneously being embodied and transformed within visual filmic imagery codes and semiotics that are teased out and

analyzed A culturally sensitive reading of popular Hindi films the interpretations put forward are also applicable to the Western context They enable a fuller understanding of religious phenomena outside the primary religious field within the vernacular arenas of popular culture and mass communication The book is of interest to scholars in the fields of Indology modern Indian studies film media and cultural studies Representing Religion in World Cinema S. Plate,2016-04-30 Religious traditions have provided a seemingly endless supply of subject matter for film from the Ten Commandments to the Mahabharata At the same time film production has engendered new religious practices and has altered existing ones from the cult following of The Rocky Horror Picture Show to the 2001 Australian census in which 70 000 people indicated their religion to be Jedi Knight Representing Religion in World Cinema begins with these mutual transformations as the contributors query the two way interrelations between film and religion across cinemas of the world Cross cultural and interdisciplinary by nature this collection by an international group of scholars draws on work from religious studies film studies and anthropology as well as theoretical impulses in performance gender ethnicity colonialism and postcolonialism

Encyclopedia of Religion and Film Eric Michael Mazur,2011-03-08 Comprising 91 A Z entries this encyclopedia provides a broad and comprehensive introduction to the topic of religion within film Technology has enabled films to reach much wider audiences enabling today s viewers to access a dizzying number of films that employ diverse symbolism and communicate a vast array of viewpoints Encyclopedia of Religion and Film will provide such an audience with the tools to begin their own exploration of the deeper meanings of these films and grasp the religious significance within Organized alphabetically this encyclopedia provides more than 90 entries on the larger religious traditions the major film producing regions of the globe the films that have stirred controversy the most significant religious symbols and the more important filmmakers The included topics provide substantially more information on the intersection of religion and film than any of the similar volumes currently available While the emphasis is on the English speaking world and the films produced therein there is also substantial representation of non English non Western film and filmmakers providing significant intercultural coverage to the topic Mediating Religion Jolyon P. Mitchell,Sophia Marriage,2003-06-01 This is the first book to bring together many aspects of the interplay between religion media and culture from around the world in a single comprehensive study Leading international scholars provide the most up to date findings in their fields and in a readable and accessible way Some of the topics covered include religion in the media age popular broadcasting communication theology popular piety film and religion myth and ritual in cyberspace music and religion communication ethics and the nature of truth in media saturated cultures The result is not only a wide ranging resource for scholars and students but also a unique introduction to this increasingly important phenomenon of modern life **Film, Lacan and the Subject of Religion** Steve Nolan,2011-10-20 In their study of religion and film religious film analysts have tended to privilege religion Uniquely this study treats the two disciplines as genuine equals by regarding both liturgy and film as representational media Steve Nolan

argues that in each case subjects identify with a represented other which joins them into a narrative where they become participants in an ideological reality Finding many current approaches to religious film analysis lacking Film Lacan and the Subject of Religion explores the film theory other writers ignore particularly that mix of psychoanalysis Marxism and semiotics often termed Screen theory that attempts to understand how cinematic representation shapes spectator identity Using translations and commentary on Lacan not originally available to Screen theorists Nolan returns to Lacan s contribution to psychoanalytic film theory and offers a sustained application to religious practice examining several priest films and real life case study to expose the way liturgical representation shapes religious identity Film Lacan and the Subject of Religion proposes an interpretive strategy by which religious film analysts can develop the kind of analysis that engages with and critiques both cultural and religious practice **Reel Spirituality (Engaging Culture)** Robert K.

Johnston,2006-12-01 Increasingly thinking Christians are examining the influential role that movies play in our cultural dialogue Reel Spirituality successfully heightens readers sensitivity to the theological truths and statements about the human condition expressed through modern cinema This second edition cites 200 new movies and encourages readers to ponder movie themes that permeate our culture as well as motion pictures that have demonstrated power to shape our perceptions of everything from relationships and careers to good and evil Reel Spirituality is the perfect catalyst for dialogue and discipleship among moviegoers church based study groups and religious film and arts groups The second edition cites an additional 200 movies and includes new film photos **Religion and Film** Stefanie Knauss,2020-01-29 Is cinema evil or sacramental Can films make theological contributions Can film viewing be a religious practice How do films values and power interact The study of film and religion engages a range of diverse questions through different approaches and methods In this contribution I distinguish three complementary approaches In the first part I discuss those that focus on the film as text the representation of religion in film and how theology happens in film The next section will broaden this perspective by taking into consideration how films affect audiences and how the relationship between film and audience might have religious dimensions or serve religious functions In the third part attention to the text and the audience are combined with the consideration of both film and religion as agents in cultural processes in order to think about how film and religion are shaped by and shape value systems and ideologies In the last section I will begin to tackle the difficult question of theory and method I consciously postpone this part until the end because in many cases methodologies and theoretical frameworks are implied in and emerge from concrete case studies rather than being consciously reflected upon This final section has two goals it will make explicit some of these underlying assumptions to serve as a starting point for a more sustained reflection on the theories and methodologies of the field and it will highlight some of the pitfalls we encounter if we are not methodologically and theoretically precise in our work
