New Light on Early Farming International Work Group for Palaeoethnobotany. Symposium, 1991 Gesamtdarstellungen Pal o konomie Siedlungsgeschichte **Encyclopedia of Quaternary Science** Cary Mock, 2013-03-25 The second revised edition of the Encyclopedia of Quaternary Science Four Volume Set provides both students and professionals with an up to date reference work on this important and highly varied area of research There are lots of new articles and many of the articles that appeared in the first edition have been updated to reflect advances in knowledge since 2006 when the original articles were written The second edition will contain about 375 articles written by leading experts around the world This major reference work is richly illustrated with more than 3 000 illustrations most of them in colour Research in the Quaternary sciences has advanced greatly in the last 10 years especially since topics like global climate change geologic hazards and soil erosion were put high on the political agenda This second edition builds upon its award winning predecessor to provide the reader assured quality along with essential updated coverage Contains 357 broad ranging articles 4310 pages written at a level that allows undergraduate students to understand the material while providing active researchers with a ready reference resource for information in the field Facilitates teaching and learning The first edition was regarded by many as the most significant single overview of Quaternary science ever yet Editor in Chief Scott Elias has managed to surpass that in this second edition by securing even more expert reviews whilst retaining his renowned editorial consistency that enables readers to navigate seamlessly from one unfamiliar topic to the next **Landscape and Land Use in First Millennium BC Southeast Italy** Daphne Lentjes, 2025-10-01 This book offers a comprehensive overview of landscape and land use in southeast Italy in the first millennium BCE Using the most up to date techniques it combines archaeobotanical and archaeozoological data with information from excavations field surveys and ancient written texts to place the relationship between people and landscapes in a broad geographical and chronological framework It also confronts questions of food habits the scale and organisation of agricultural production the influx of Greek and Roman colonists and the effects of globalisation on local and regional land use Droughts, Food and Culture Fekri A. Hassan, 2007-05-08 Recent droughts in Africa and elsewhere in the world from China to Peru have serious implications for food security and grave consequences for local and international politics The issues do not just concern the plight of African peoples but also our global ecological future Global climatic changes become manifest initially in regions that are marginal or unstable Africa s Sahel zone is one of the most sensitive climatic regions in the world and the events that have gripped that region beginning in the 1970 s were the first indicator of a significant shift in global climatic conditions This work aims to bring archaeology with the domain on contemporary human affairs and to forge a new methodology for coping with environmental problems from an archaeological perspective Using the later prehistory of Africa as a comparison the utility of this methodological strategy in interpreting culture change and assessing long term response to current global climatic fluctuations is examined and understood

Archaeology Kevin Greene,2002-11 This fourth edition constitutes the most extensive reshaping of the text to date In a lucid and accessible style Kevin Greene explains the discovery and excavation of sites outlines major dating methods gives clear explanations of scientific techniques and examines current theories and controversies New features include a completely new user friendly text design with initial chapter overviews and final conclusions key references for each chapter section an annotated guide to further reading a glossary refreshed illustrations case studies and examples bibliography and full index a new companion website built for this edition providing hyperlinks from contents list to individual chapter summaries which in turn link to key websites and other material an important new chapter on current theory emphasizing the richness of sources of analogy or interpretation available today This new edition provides students with a sound introduction to the field of archaeology and guides them towards further study **Anglo-Saxon England: Volume 32**

Michael Lapidge,Malcolm Godden,Simon Keynes,2004-07-05 Throughout the centuries of its existence Anglo Saxon society was highly if not widely literate it was a society the functioning of which depended very largely on the written word All the essays in this volume throw light on the literacy of Anglo Saxon England from the writs which were used as the instruments of government from the eleventh century onwards to the normative texts which regulated the lives of Benedictine monks and nuns to the runes stamped on an Anglo Saxon coin to the pseudorunes which deliver the coded message of a man to his lover in a well known Old English poem to the mysterious writing on an amulet which was apparently worn by a religious for a personal protection from the devil The usual comprehensive bibliography of the previous year s publications in all branches of Anglo Saxon studies rounds off the book **Evolution on Planet Earth** Lynn Rothschild,Adrian Lister,2003-06-19

Driving evolution forward the Earth s physical environment has challenged the very survival of organisms and ecosystems throughout the ages With a fresh new perspective Evolution on Planet Earth shows how these physical realities and hurdles shaped the primary phases of life on the planet The book s thorough coverage also includes chapters on more proximate factors and paleoenvironmental events that influenced the diversity of life A team of notable ecologists evolutionary biologists and paleontologists join forces to describe drifting continents extinction events and climate change important topics that continue to shape Earth s inhabitants to this very day In a world where global change has become an international issue this book provides a several billion year evolutionary perspective on what the environment and environmental change means to life Provides thorough background information on each topic while introducing cutting edge research Features original material solicited from the leading minds in evolutionary biology and geology today Emphasizes the influence of massive geological forces continental drift volcanic activity sea and tides **A Biography of Power: Research and Excavations at the Iron Age 'oppidum' of Bagendon, Gloucestershire (1979-2017)** Tom Moore,2020-07-30 This book explores the changing nature of power and identity from the Iron Age to the Roman period in Britain It provides fresh insights into the origins and nature of one of the lesser known but perhaps most significant Late Iron Age oppida in Britain Bagendon in Gloucestershire

Archaeology Hannah Cobb, Kevin Greene, Tom Moore, 2024-03-19 This fully updated sixth edition of a classic classroom text is essential reading for core courses in archaeology. Archaeology: An Introduction explains how the subject emerged from an amateur pursuit in the eighteenth century into a serious discipline and explores changing trends in interpretation in recent decades. The authors convey the excitement of archaeology while helping readers to evaluate new discoveries by explaining the methods and theories that lie behind them. In addition to drawing upon examples and case studies from many regions of the world and periods of the past, the book incorporates the authors' own fieldwork research and teaching. It continues to include key reference and further reading sections to help new readers find their way through the ever-expanding range of archaeological publications and online sources as well as colour illustrations and boxed topic sections to increase comprehension. Serving as an accessible and lucid textbook and engaging students with contemporary issues, this book is designed to support students studying Archaeology at an introductory level. New to the sixth edition: Inclusion of the latest survey and imaging techniques such as the use of drones and eXtended reality. Updated material on developments in dating, DNA analysis, isotopes and population movement, including consideration of the ethical considerations of these techniques. Coverage of new developments in archaeological theory such as the material turn, ontological turn and work on issues of equality, diversity and inclusion. A whole new chapter covering archaeology in the present, including new sections on heritage and public archaeology and an updated consideration of archaeology's relationship with the climate crisis. A revised glossary with over 200 new additions or updates.
