New Logo:

Logo Design that Works Lisa Silver, 2001 Logo design titles continue to sell the most copies of all graphic design subjects. This hard working title examines 100 logo designs by illustrating how and why the design works. Sidebars compare and contrast rough drafts of popular logos with their final versions and short tips address issues such as testing designs, sourcing inspiration and typography. As well, the evolution of well known logos are traced by examining why design changes were made and how those changes benefited the client and were successful on the market. *Recycling and Redesigning Logos* Michael Hodgson, 2010-09-01 Redesigns are part of every designer's repertoire but sometimes getting inspired or motivated to redesign an existing logo can be challenging and cumbersome. The goal of maintaining equity by using existing elements in new ways and combining them with new elements is akin to the task of recycling. In other words, how do designers improve and recreate identities without throwing out the usable stuff that makes up the existing brand? *Recycling and Redesigning Logos* demonstrates the strategies and processes of successful redesigns and shows readers how to build on the equity the brand already retains to create a fresh look. The case studies feature before and afters of the logos and discuss why the redesign was necessary and demonstrate how to reuse reformat and build on the ingredients, materials and essence that is already there. *Logo Land* Amit Biswas, 2021-08-23 Logo Land tells the underlying story of the municipal logos of the Netherlands. There are 352 unique municipalities in the Netherlands. Each municipality has its own logo. A logo is more than just a photo or a slogan. A logo tells the story of what makes a municipality unique through a combination of logos and words. Every municipality is unique and so is every story behind every logo. This book offers a unique combination of insight into Dutch logo design and unknown stories about our country. Book lovers can travel through the past and present of the Netherlands and get to know all the hidden stories about this country through the logo and corporate identity. For the first time in Dutch history Logo Land looks behind the interesting story of all logos. *Creating Your Library Brand* Elisabeth Doucett, 2008-05-12 Branding is one part of the marketing process that focuses on developing a laser clear message and the means to communicate that message to the intended audience. But as a library where does branding fit? Design Matters: Logos 01 Capsule, 2007-06-01 The nuts and bolts of effective logo design. The design bar is at an all time high for those brave enough to participate in the industry. Today's designers must be clear on all the steps necessary to create work that stands out in an increasingly competitive marketplace. Unfortunately most design books only focus on type, color and layout issues. The Design Matters series takes a more in depth approach allowing designers to learn not only how to create work that is aesthetically appealing but that is also strategy driven and smart. This book focuses on creating logos while others in the series dissect brochures, packaging, publications and letterhead systems. Each book offers all the essential information needed to execute strong designs in concert with beautiful and well crafted examples so readers can successfully hit the mark every time. **Pitbull - Mr. Worldwide** C.
