New College Oxford 1379-1979:

New College, Oxford, 1379-1979 John Buxton, Penry Williams, 1979 *The History of the University of Oxford: Volume VIII: The Twentieth Century* Brian Harrison, Trevor Henry Aston, 1994-04-07 This volume the eighth in The History of the University of Oxford shows how one of the world's major universities has responded to the formidable challenges offered by the twentieth century. Because Oxford's response has not taken a revolutionary or dramatic form outside observers have not always appreciated the scale of its transformation. Here full attention is given to the forces for change: the rapid growth in provision for the natural and social sciences; the advance of professionalism in scholarship, sport and cultural achievement; the diffusion of international influences through Rhodes scholars; two world wars and the University's mounting research priorities; the growing impact of government and of public funding; the steady advance of women and the impact made by Oxford's broadened criteria for undergraduate admission. The volume also provides valuable background material for the discussion of educational policy. In short it presents the reader with a rich cornucopia of insight into many aspects of British life.

All Souls College, Oxford in the Early Eighteenth Century Jeffrey Wigelsworth, 2018-06-26 In the first detailed history of All Souls College under the Wardenship of Bernard Gardiner Jeffrey R Wigelsworth offers a character-driven story that addresses scheming, duplicity and self-righteousness projected against some of the most important political and religious episodes of the early eighteenth century and the people who animated them. Throughout this book Wigelsworth illuminates the ways in which All Souls and its warden were caught between competing visions of what England and consequently Oxford would look like in the aftermath of the Glorious Revolution of 1688.

English University Life in the Middle Ages Alan B Cobban, 2022-02-22 First Published in 1999 This work presents a composite view of medieval English university life. The author offers detailed insights into the social and economic conditions of the lives of students, their teaching masters and fellows. The experiences of college benefactors, women and university servants are also examined, demonstrating the vibrancy they brought to university life. The second half of the book is concerned with the complex methods of teaching and learning, the regime of studies, taught the relationship between the universities in Oxford and Cambridge as well as the relationship between town and gown.

William Waynflete, Bishop and Educationalist Virginia Davis, 1993 Study of the life of bishop of Winchester 1447-86, one of the great educationalists and patrons of learning of late medieval England. This is the first modern study of William Waynflete, powerful and influential bishop of Winchester from 1447 to 1486. Waynflete was one of the great educationalists and patrons of learning of late medieval England and his career was dominated by an interest in education. He played a leading role in some of the changes which transformed education in 15th century England: the emergence in Oxford and Cambridge of new and larger colleges; the influence of continental humanist ideas which reshaped English thought; the introduction of the teaching of Greek; the composition of new grammars and the introduction of printing as a means of disseminating the new learning. Through her examination of Waynflete's career Davis challenges the received

view of the gangrenous corruption of the medieval church and instead supports recent research which suggests the truth to have been far more complex As this biography records Waynflete himself was politically linked to Henry VI and the Lancastrian administration and most of his time was spent in southern England However he retained close links with his native Lincolnshire and his commitments there are also fully considered VIRGINIA DAVIS is lecturer in history at Queen Mary and Westfield College University of London The Years of Anger Andy Croft, 2020-05-01 Randall Swingler 1909 67 was arguably the most significant and the best known radical English poet of his generation A widely published poet playwright novelist editor and critic his work was set to music by almost all the major British composers of his time This new biography draws on extensive sources including the security services files to present the most detailed account yet of this influential poet lyricist and activist A literary entrepreneur Swingler was founder of radical paperback publishing company Fore Publications editor of Left Review and Our Time and literary editor of the Daily Worker later becoming a staff reporter until the paper was banned in 1941 In the 1930s he contributed several plays for Unity Theatre including the Mass Declamation Spain the Munich play Crisis and the revues Sandbag Follies and Get Cracking In 1936 MI5 opened a 20 year long file on him prompted by a song he co wrote with Alan Bush for a concert organised to mark the arrival of the 1934 Hunger March into London During the Second World War Swingler served in North Africa and Italy and was awarded the Military Medal for his part in the battle of Lake Comacchio His collections The Years of Anger 1946 and The God in the Cave 1950 contain arguably some of the greatest poems of the Italian campaign After the war Swingler was blacklisted by the BBC Orwell attacked him in Polemic and included him in the list of names he offered the security services in 1949 Stephen Spender vilified him in The God That Failed The book will challenge the Cold War assumptions that have excluded Swingler's life and work from standard histories of the period and should be of great interest to activists scholars and those with an interest in the history of the literary and radical left **A Descriptive Catalogue of the English Manuscripts of John Gower's Confessio Amantis** Derek Pearsall, Linne R.
