**Introducing Catholic Social Thought** J. Milburn Thompson, 2015-02-26 Introduces Catholic social teaching of the twenty first century and includes encyclicals of Benedict XVI *Modern Catholic Social Teaching* Joe Holland, 2003 The impact of the industrial revolution on the social structures of industrialized nations posed a difficult challenge to the Catholic Church and its Popes In the struggle for human and economic status should the Church side with the new working class or with capitalist barons who along with the old aristocracy identified themselves as upholders of Christian civilization In this history of papal social teaching Joe Holland tells how the popes at first backed the status quo Then with the accession of Pope Leo XIII in 1878 a seismic shift took place Leo's encyclical *Rerum novarum* was the first authoritative Church voice to declare that laboring people have rights the right to fair wages to decent living conditions the right to organize labor unions and even to strike Henceforth the notion of civilization at least for the Church would be grounded in the lives and aspirations of working people Modern Catholic Social Teaching traces this historic shift as it played out in the writings of Leo and the

popes who followed him Pius X Benedict XV Pius XI and Pius XII These popes supported Leo's encyclical and even elaborated it as European history experienced the emergence of modernity

**Catholic Social Thought** Jonathan Boswell, Francis P. McHugh, Johan Verstraeten, 2000 These essays are an attempt to recover something of the form style and force of Catholic non official social thinking in the face of contemporary social thought and contemporary injustice in advanced societies After an opening essay by the doyen of Catholic writers in this field Jean Yves Calvez SJ the book is divided into three sections The first and largest group of essays discuss patterns and predicaments of Catholic social thought in general terms and from different points of view The context here is partly the debate on modernity high modernity and post modernity partly the issue of how far and in what ways Catholic Social Thought can claim to be distinctive relative to contemporary secular thought The second section of the book focusses on relationships between Catholic social thought and its restatement and a number of contemporary debates on public issues Particular attention is given in successive essays to issues of anti poverty human rights economic theory and international finance A third and shorter section describes a number of institutional projects which attempt to carry Catholic social values forward into concrete action focussing on work in health and welfare grass roots economic co operation anti poverty and international peace and justice Final contributions by the reputed international scholar in this field John Coleman SJ and the book editors respectively evaluate the collection as a whole and discuss further steps

*Modern Catholic Social Teaching* Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII's *Rerum Novarum* The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI's encyclical *Caritas in Veritate* and one on Pope Francis's encyclical *Laudato Si* An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching

Sociology and Catholic Social Teaching Stephen R.

Sharkey, 2012-08-31 *Sociology and Catholic Social Teaching* Contemporary Theory and Research contains essays by key scholars in the territory where Catholic social thought and secular sociology meet and offers a much needed alternative to the relativism and individualism that so often characterize social scientific analysis today Contributors to this volume argue that Catholic social teaching as articulated so powerfully today in recent papal encyclicals and major summations such as the *Compendium of the Social Doctrine of the Church* offers a powerful moral framework for addressing today's pressing social problems This is especially true since many of its tenets find solid support in social scientific research on the nature of the

person and the workings of culture and social institutions Sponsored by the Society of Catholic Social Scientists and including work by sociologists from both the Society and the Pontifical Academy of Social Sciences this volume is offered in the spirit of Pope John Paul II's exhortation to draw from contemporary social science whatever can help the Church better understand contemporary social issues and trends and thus better serve humanity Specific articles address such topics as the Church as a virtual nation in the international arena changing cultural norms regarding deviance the historical and contemporary relationship between Catholicism and mainstream academic sociology empirical support for a natural law perspective on family relations the social psychology of happiness and moral behavior among emerging adults the sociology of knowledge from a distinctively Catholic perspective and how the principles of subsidiarity and solidarity can be used to analyze and evaluate the functioning of institutions like the family education and the state Each author also offers some autobiographical reflections on how they relate sociology and their life of Faith This anthology will interest scholars in both sociology and Catholic social thought as well as advanced undergraduate and graduate students in these areas

*Catholic Social Learning, Expanded Edition* Roger Bergman, 2023-12-20 The award winning and widely read first edition of *Catholic Social Learning Educating the Faith That Does Justice* published in 2011 described the critical edge of the tradition of justice pedagogy in Catholic higher education at the end of the first decade of the twenty first century But living traditions change in response to new challenges and develop their own resources more fully The most obvious and compelling development in recent years has been the publication in 2015 of Pope Francis landmark encyclical *Laudato Si On Care for Our Common Home* the occasion for the new chapter length afterword to this expanded edition of *Catholic Social Learning* The urgent imperative to defend creation is a major but not the only reason for a new edition Two new chapters on the many forms of shame as a pedagogical issue and on the Book of Job and belief in a just world add spiritual and theological depth to the original assessment of more than a decade ago Those three additions comprise the totally new Part IV *The Critical Edge of the Tradition* A new preface sets the argument in the context of current controversies over the place of painful emotions in educational settings

*Catholic Social Teaching, 1891-Present* Charles E. Curran, 2002-03-30 Charles E Curran offers the first comprehensive analysis and criticism of the development of modern Catholic social teaching from the perspective of theology ethics and church history Curran studies the methodology and content of the documents of Catholic social teaching generally understood as comprising twelve papal letters beginning with Leo XIII's 1891 encyclical *Rerum novarum* two documents from Vatican II and two pastoral letters of the U S bishops He contends that the fundamental basis for this body of teaching comes from an anthropological perspective that recognizes both the inherent dignity and the social nature of the human person thus do the church's teachings on political and economic matters chart a middle course between the two extremes of individualism and collectivism The documents themselves tend to downplay any discontinuities with previous documents but Curran's systematic analysis reveals the significant historical developments that have occurred over the

course of more than a century Although greatly appreciative of the many strengths of this teaching Curran also points out the weaknesses and continuing tensions in Catholic social teaching today Intended for scholars and students of Catholic social ethics as well as those involved in Catholic social ministry this volume will also appeal to non Catholic readers interested in an understanding and evaluation of Catholic social teaching     *The Challenge and Spirituality of Catholic Social Teaching*  
Marvin L. Krier Mich,2011 This work offers readers the insight and inspiration to live out the gospel of Jesus Christ the glad tidings to the poor here and now Mich weaves together the biblical tradition and the wisdom of Catholic social teaching with the stories of saints and spiritual leaders contemporary and historical
