Fall River Outrage David Richard Kasserman, 2010-08-03 Fall River Outrage recounts one of the most sensational and widely reported murder cases in early nineteenth century America When in 1832 a pregnant mill worker was found hanged the investigation implicated a prominent Methodist minister Fearing adverse publicity both the industrialists of Fall River and the New England Conference of the Methodist Episcopal Church engaged in energetic campaigns to obtain a favorable verdict It was also one of the earliest attempts by American lawyers to prove their client innocent by assassinating the moral character of the female victim Fall River Outrage provides insight in American social legal and labor history as well as women's studies

The Politics of Race in New York Phyllis F. Field, 2018-07-05 Black suffrage was a crucial and volatile issue in the North during the Civil War era In The Politics of Race in New York Phyllis F Field studies the development of racial policies in the Empire State Asserting that it is not possible to understand the move toward black suffrage by examining national trends and the actions of individual politicians she takes a close look at the social context of reform Field

assesses popular reaction to the idea of black suffrage by systematically analyzing the results of a series of referenda on the issue held in New York State between 1846 and 1869 Tracing the relation between changes in public opinion and the positions taken by political parties Field concludes that party leaders tried both to express the views of their constituents and to mold those views so as to strengthen and unify their own political organizations Inevitably this intrusion of political considerations in the issue of race had long term consequences for the process of social change in the United States The Politics of Race in New York shows clearly how in 1870 black suffrage could be achieved even though the battle for black equality had yet to begin **Outlook** ,1929
