Portrait of the Psychiatrist as a Young Man Allan Beveridge, 2011-08-25 RD Laing remains one of the most famous psychiatrists of the last 50 years In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy He championed the rights of the patient and challenged the often inhumane methods of treating the mentally ill Based on a wealth of previously unexamined archives relating to his private papers and clinical notes Portrait of the Psychiatrist as a Young Man sheds new light on RD Laing and in particular his early formative years a crucial but largely overlooked period in his life The first half of the book considers Laing s intellectual journey through the world of ideas and his development as a psychiatric theorist An analysis of his notebooks and personal library reveals Laing s engagement not only with psychiatric theory but also with a wide range of other disciplines such as philosophy literature and religion This part of the book considers how this shaped Laing s writing about madness and his evolution as a clinician The second half draws on a rich and completely unexplored collection of Laing s clinical notes which detail his encounters with patients in his early years as a psychiatrist firstly in the British Army subsequently in the psychiatric hospitals of Glasgow and finally in the Tavistock Clinic in London These notes reveal what Laing was actually doing in clinical practice and how theory interacted with therapy The majority of patients who were to appear in Laing s first two books The Divided Self and The Self and Others have been identified from these records and this volume provides a fascinating account of how the published case histories compare to the original notes There is a

considerable mythology surrounding Laing partly created by himself and partly by subsequent commentators By a careful examination of primary sources Allan Beveridge both a psychiatrist and an historian examines the many mythological narratives about Laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker who addressed questions about the nature of madness which are still being asked today This book will be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry

Economics, Capitalism, and Corporations Wm. Dennis Huber, 2020-12-10 This book is a continuation of Corporate Law and the Theory of the Firm Reconstructing Corporations Shareholders Directors Owners and Investors The author extends his analysis of contract law property law agency law trust law and corporate statutory law and applies that analysis to defy conventional concepts and theories in economics finance investment and accounting and expose the artificial boundaries established by decades of research founded on indefensible assumptions and fallacious conclusions Using the Humpty Dumpty principle where words mean what the authors want them to mean economists have created strange new worlds where contract law property law agency law and corporate statutory law no longer apply The author dismantles the theory of the firm by proving the theory of the firm wilfully and intentionally ignores fundamental contract law property law agency law and corporate statutory law Contrary to the theory of the firm shareholders do not own corporations directors are not agents of shareholders and shareholders are not investors in corporations The author proves that by property law and corporate law capital is not privately owned by capitalists but by corporations Entire economic and social systems have been constructed that have no basis in law With the advent of publicly traded corporations the capital is there but both capitalists and capitalism have been rendered extinct This book will appeal to researchers and graduate and upper level undergraduate students in economics finance accounting law and sociology as well as legal scholars attorneys and accountants
