New German Cinema Music History And The Matter Of Style:

The New German Cinema Caryl Flinn, 2004-02-09 This study of New German cinema identifies different styles of historical remembrance in which music participates

A New History of German Cinema Jennifer M. Kapczynski, Michael David Richardson, 2012 A dynamic event centered exploration of the hundred year history of German language film This dynamic event centered anthology offers a new understanding of the hundred year history of German language film from the earliest days of the Kintopp to contemporary productions like *The Lives of Others* Each of the more than eighty essays takes a key date as its starting point and explores its significance for German film history pursuing its relationship with its social political and aesthetic moment While the essays offer ample temporal and topical spread this book emphasizes the juxtaposition of famous and unknown stories granting attention to a wide range of cinematic events Brief section introductions provide a larger historical and film historical framework that illuminates the essays within it offering both scholars and the general reader a setting for the individual texts and figures under investigation Cross references to other essays in the book are included at the close of each entry encouraging readers not only to pursue familiar trajectories in the development of German film but also to trace particular figures and motifs across genres and historical periods Together the contributions offer a new view of the multiple intersecting narratives that make up German language cinema The constellation that is thus established challenges unidirectional narratives of German film history and charts new ways of thinking about film historiography more broadly Jennifer Kapczynski is Associate Professor of German at Washington University St Louis and Michael Richardson is Associate Professor of German at Ithaca College

New German Cinema and Its Global Contexts Marco Abel, Jaimey Fisher, 2025-01-14 Contributors explore these films transnational circuits of production distribution and exhibition as well as how the films were made and received thereby inviting us to reexamine the roots of what New German Cinema was and imagine what it might yet become

The A to Z of German Cinema Robert C. Reimer, Carol J. Reimer, 2010-04-01 German film is diverse and multi faceted its history includes five distinct German governments Wilhelmine Germany the Weimar Republic the Third Reich the Federal Republic of Germany and the German Democratic Republic two national industries Germany and Austria and a myriad of styles and production methods Paradoxically the political disruptions that have produced these distinct film eras as well as the natural inclination of artists to rebel and create new styles allow for the construction of a narrative of German film While the disjuncture generates distinct points of separation it also highlights continuities between the ruptures Outlining the richness of German film *The A to Z of German Cinema* covers mainstream alternative and experimental film from 1895 to the present through a chronology introductory essay appendix of the 100 most significant German films a bibliography and hundreds of cross referenced dictionary entries on directors actors films cinematographers composers producers and major historical events that greatly affected the direction and development of German cinema The book's broad canvas will lead students and scholars of cinema

Opera as Soundtrack Jeongwon Joe, 2016-05-13 Filmmakers fascination with opera dates back to the silent era but it was not until the late 1980s that critical enquiries into the intersection of opera and cinema began to emerge Jeongwon Joe focusses primarily on the role of opera as soundtrack by exploring the distinct effects opera produces in film effects which differ from other types of soundtrack music such as jazz or symphony These effects are examined from three perspectives peculiar qualities of the operatic voice various properties commonly associated with opera such as excess otherness or death and multifaceted tensions between opera and cinema for instance opera as live embodied high art and cinema as technologically mediated popular entertainment Joe argues that when opera excerpts are employed on soundtracks they tend to appear at critical moments of the film usually associated with the protagonists and the author explores why it is opera not symphony or jazz that accompanies poignant scenes like these Joe s film analysis focuses on the time period of the post 1970s which is distinguished by an increase of opera excerpts on soundtracks to blockbuster titles the commercial recognition of which promoted the production of numerous opera soundtrack CDs in the following years Joe incorporates an empirical methodology by examining primary sources such as production files cue sheets and unpublished interviews with film directors and composers to enhance the traditional hermeneutic approach The films analysed in her book include Woody Allen s *Match Point* David Cronenberg s *M. Butterfly* and Wong Kar wai s *2046* *Music, Collective Memory, Trauma, and Nostalgia in European Cinema after the Second World War* Michael Baumgartner, Ewelina Boczowska, 2019-09-23 In the wake of World War II the arts and culture of Europe became a site where the devastating events of the 20th century were remembered and understood Exploring one of the most integral elements of the cinematic experience music the essays in this volume consider the numerous ways in which post war European cinema dealt with memory trauma and nostalgia showing how the music of these films shaped the representation of the past The contributors consider films from the United Kingdom Poland the Soviet Union France Italy Germany Sweden Austria and the Netherlands providing a diverse and well

rounded understanding of film music in the context of historical memory Memory is often underrepresented within scholarly musical studies with most of these applications found in the disciplines of ethnomusicology popular music studies music cognition and psychology and music therapy Likewise trauma has mainly been studied in relation to music in only a few historical contexts while nostalgia has attracted even less academic attention In three parts this volume addresses each area of study as it relates to the music of European cinema from 1945 to 1989 applying an interdisciplinary approach to investigate how films use music to negotiate the precarious relationships we maintain with the past Music Collective Memory Trauma and Nostalgia in European Cinema after the Second World War offers compelling arguments as to what makes music such a powerful medium for memory trauma and nostalgia

Remixing Wong Kar-wai Giorgio Biancorosso, 2024-11-08
Like his fellow filmmakers Stanley Kubrick Quentin Tarantino and Sofia Coppola Wong Kar wai crafts the soundtracks of his films by jettisoning original scores in favor of commercial recordings In Remixing Wong Kar wai Giorgio Biancorosso examines the combinatorial practice at the heart of Wong s cinema to retheorize musical borrowing appropriation and repurposing Wong s irrepressible penchant for poaching music from other films whether old Chinese melodramas Hollywood blockbusters or European art films subsumes familiar music under his own brand of cinema As Wong combs through musical and cinematic archives and splices disparate music together exceedingly well known music loses its previous associations and acquires an infinite new constellation of meanings in his films Drawing on Claude L vi Strauss s concept of bricolage Biancorosso contends that Wong s borrowing is akin to a practice of creative destruction in which Wong becomes a bricoleur who remixes music at hand to create new and complete self sustaining statements By outlining Wong s modus operandi of indiscriminate borrowing and remixing Biancorosso prompts readers to reconsider the significance of transforming preexisting music into new compositions for film and beyond

Riefenstahl Screened Neil Christian Pages, Mary Rhiel, Ingeborg Majer O'Sickey, 2008-01-01
Leni Riefenstahl is larger than life From the lure of her persona as it enters our homes via television to our pleasure in the recognition of her film images at rock concerts to her place as part of the history of the Nazi period Riefenstahl lives on in our imagination and in our cultural productions Thus the editors introduction to this volume examines the manner in which Riefenstahl haunts debates on aesthetics and politics and how her legacy reverberates in the contemporary cultural scene The editors view the collection as a three part framework The essays in the opening section of the book show that Riefenstahl is still very much alive and well and controversial in popular culture Her films continue to determine the way in which we think about the Nazi period providing instantly recognizable images and messages that often go unquestioned We cannot separate these phenomena from Riefenstahl s years of avid self fashioning The second section of the book offers treatments of the shifting mobile relationship between Riefenstahl s stubborn attempts to create and control her personae and her reactions to others re appropriations of the meanings of her life and work

Reading the texts and discourses surrounding Riefenstahl these scholars treat her memoirs and her repeated assertions about herself as a springboard into understanding anew how we might approach her films in a productive way The closing section of the volume comprises essays that go right to the heart of the matter Riefenstahl s films and photography The new contexts theoretical discussions and emerging discourses that animate these essays include Scarry s treatise on beauty justice and the global the problems of history and memory the place of Riefenstahl s filmmaking technique in contemporary cinema and her appropriation of German musical traditions Fueled by the work of a diverse range of scholars then Riefenstahl Screened offers an opportunity to rethink the place of Leni Riefenstahl and her work in contemporary culture and in academic discourse It insists upon a critical self examination that maps a topography of how scholars and teachers avail themselves of Riefenstahl s corpus
