New Global Order World Regional Geography:

World Regional Geography Michael J. Bradshaw, Richard A. Walasek, 1997 *The new global order* Michael John Bradshaw, 1998 The theme adopted as the title of this text focuses attention on the essentially geographic nature of the forces at work for change in the world including political economic cultural and environmental concerns and processes It shifts the emphasis from a cataloging of differences between unique parts of the world to a context of interlinked dependencies and explanations that might form a basis for positive and productive action It alerts readers to an expectation of change and encourages personal involvement with a changing and unequal world It also questions the extent to which global forces are able to override local and internal country factors Within the format of regional geographic studies there is a comprehensive coverage of basic geographic concepts and a reflection of current research themes in the subject Pref

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White

movements within academe and in local global communities are growing at an unprecedented rate raising pointed questions about paradigms of Western feminism development global trade and scholarship Despite this growing visibility the perspectives of far too many women especially from the Global South are still excluded from mainstream U S scholarship Presented with the task of preparing students for life in this new and rapidly shrinking world many scholars have found

themselves overwhelmed by the need to cross disciplinary and geographic borders But some faculty are leading the way often in defiance of academic traditions and prejudices to a curriculum that reflects consequences of globalization Encompassing Gender is the long awaited anthology of more than 40 essays by 60 scholars many of them working in curriculum transformation groups that cut across the humanities the sciences and the social sciences all of them committed to an interdisciplinary approach to internationalizing the curriculum
