New Guinea Gardens:

Coral Gardens and Their Magic Bronislaw Malinowski, 2013-10-16 The first part of a two volume classic devoted to the agriculture and agricultural rites of the Trobriand Islanders This work looks at the significance of agriculture in the Trobriand Islands New Guinea gardens Axel Steensberg, 1978 *Indiana Getting Started Garden Guide* Shawna Coronado, 2014-10-10 In *Indiana Getting Started Garden Guide* internationally renowned gardening expert and Indiana native Shawna Coronado presents foolproof planting advice for over 150 species handpicked for their ability to flourish in the Hoosier State *The Secret Garden* Margaret Eileen Meredith, 2005 This fascinating study grew out of the author's abiding interest in gardening as a metaphor for the process of individuation *Coral Gardens and Their Magic: A Study of the Methods of Tilling the Soil and of Agricultural Rites in the Trobriand Islands* Bronislaw Malinowski, 2013-09 As part of Papua New Guinea the Trobriand Islands are located in a bordering sea of the Pacific Ocean At the beginning of the 20th century the anthropologist Bronislaw Malinowski was one of the first to explore the archipelago in the South Sea and its inhabitants In the context of his work he discovered that Freud's psychoanalytic universality thesis regarding the Oedipus complex is not true for the islanders In this first volume out of three Malinowski deals with the tribal economics and social organizations as well as the trobriandan gardening techniques and the magic within this kind of work The Garden, 1875

Tennessee & Kentucky Garden Guide Judy Lowe, 2012-11-03 *The Gardener's Guide* format is proven to help gardeners experience more success and enjoyment from their gardening efforts The *Gardener's Guide* series provides useable information on the plants that perform best in Tennessee and Kentucky in an easy to use format Gardeners will find information they can trust and use successfully in their own gardens This book is authored by Judy Lowe leading gardening expert in the region **Illinois Getting Started Garden Guide** Shawna Coronado, 2014-10-10 In *Illinois Getting Started Garden Guide* born and bred midwestern gardener Shawna Coronado offers planting instructions for more than 150 species from the blazing star to the ginkgo destined for success all throughout Illinois **Natives and Exotics** Judith A. Bennett, 2009-07-15 Ambitious in its scope and scale this environmental history of World War II ranges over rear bases and operational fronts from Bora Bora to New Guinea providing a lucid analysis of resource exploitation entangled wartime politics and human perceptions of the vast Oceanic environment Although the war's physical impact proved significant and oftentimes enduring this study shows that the tropical environment offered its own challenges Unfamiliar tides left landing craft stranded unseen microbes carrying endemic diseases disabled thousands of troops Weather terrain plants animals all played an active role as enemy or ally At the heart of *Natives and Exotics* is the author's analysis of the changing visions and perceptions of the environment not only among the millions of combatants but also among the Islands peoples and their colonial administrations in wartime and beyond Judith Bennett reveals how prewar notions of a paradisiacal Pacific set up millions of Americans Australians New Zealanders and Japanese for grave disappointment when they encountered the reality

She shows that objects usually considered distinct from environmental concerns souvenirs cemeteries war memorials warrant further examination as the emotional quintessence of events in a particular place Among native people wartime experiences and resource utilization induced a shift in environmental perceptions just as the postwar colonial agenda demanded increased diversification of the resource base Bennett's ability to reappraise such human perceptions and productions with an environmental lens is one of the unique qualities of this study Impeccably researched *Natives and Exotics* is essential reading for those interested in environmental history Pacific studies and a different kind of war story that has surprising relevance for today's concerns with global warming

Mundane Objects Pierre Lemonnier, 2016-06-16 This concise book shows the importance of objects that are considered ordinary by cultural outsiders and scholars yet lie at the heart of the systems of thought and practices of their makers and users This volume demonstrates the role of these objects in nonverbal communication both in non ritual and in ritual situations Lemonnier shows that some objects their physical properties and their material implementation are wordless expressions of fundamental aspects of a way of living and thinking as well as sometimes the only means of expressing the inexpressible Through the study of the most mundane technical activities such as fence building creating models cars or trapping fish we often gain a better understanding of what these objects mean and how they work within their cultures of origin In addition to anthropologists and archaeologists this book will also be of interest to sociologists historians philosophers cognitive anthropologists and primatologists for whom the intertwining of function and style is the very mark of all cultural behavior
