New Horizons In Chinese Linguistics

C-T James Huang, Audrey Li Yen Hui

New Horizons In Chinese Linguistics:

New Horizons in Chinese Linguistics C-T James Huang, Audrey Li Yen Hui, 1996 The past decade and a half has witnessed a great deal of renewed interest in the study of Chinese linguistics not only in the traditional areas of philological studies and in theoretically oriented areas of synchronic grammar and language change but also in the cultivation of new frontiers in related areas of the cognitive sciences There is a significant increase in the number of students studying one area or another of the linguistic structure of Chinese in various linguistic programs in the United States Europe Australia and in China Hong Kong Singapore Taiwan and other parts of Asia Several new academic departments devoted to the study of linguistics have been established in Taiwan and Hong Kong in the past few years The increasing research and study activities have also resulted in a number of national and international conferences including the North American Conference on Chinese Linguistics NACCL which has been held annually in the United States the International Symposium on Chinese Languages and Linguistics IsCLL which has had its fourth meeting since it was launched by Academia Sinica in Taiwan in 1990 the International Association of Chinese Linguistics IACL created in Singapore in 1992 and now incorporated in Irvine California which has held its annual meetings at major institutions in Asia Europe and the US *New Horizons in Chinese*

Linguistics C-T James Huang, Audrey Li Yen Hui, 2012-12-06 The past decade and a half has witnessed a great deal of renewed interest in the study of Chinese linguistics not only in the traditional areas of philological studies and in theoretically oriented areas of synchronic grammar and language change but also in the cultivation of new frontiers in related areas of the cognitive sciences There is a significant increase in the number of students studying one area or another of the linguistic structure of Chinese in various linguistic programs in the United States Europe Australia and in China Hong Kong Singapore Taiwan and other parts of Asia Several new academic departments devoted to the study of linguistics have been established in Taiwan and Hong Kong in the past few years The increasing research and study activities have also resulted in a number of national and international conferences including the North American Conference on Chinese Linguistics NACCL which has been held annually in the United States the International Symposium on Chinese Languages and Linguistics IsCLL which has had its fourth meeting since it was launched by Academia Sinica in Taiwan in 1990 the International Association of Chinese Linguistics IACL created in Singapore in 1992 and now incorporated in Irvine California which has held its annual meetings at major institutions in Asia Europe and the US **New Horizons in Chinese**

Linguistics C-T James Huang, Audrey Li Yen Hui, 1995-12-22 [The Handbook of Chinese Linguistics](#) C. T. James Huang, Y. H. Audrey Li, Andrew Simpson, 2018-03-20 The Handbook of Chinese Linguistics is the first comprehensive introduction to Chinese linguistics from the perspective of modern theoretical and formal linguistics Containing twenty five chapters the book offers a balanced accessible and thoughtfully organized introduction to some of the most important results of research into Chinese linguistics carried out by theoretical linguists during the last thirty years Presenting critical overviews of a wide

range of major topics it is the first to meet the great demand for an overview volume on core areas of Chinese linguistics. Authoritative contributions describe and assess the major achievements and controversies of research undertaken in each area and provide bibliographies for further reading. The contributors refer both to their own work in relevant fields and objectively present a range of competitor theories and analyses resulting in a volume that is fully comprehensive in its coverage of theoretical research into Chinese linguistics in recent years. This unique Handbook is suitable both as a primary reader for structured taught courses on Chinese linguistics at university level and for individual study by graduates and other professional linguists.

Current Issues in Chinese Linguistics Hooi Ling Soh, Liang Tao, Yun Xiao, 2011-07-12 Chinese is the most commonly spoken language in the world and one of the very few contemporary languages whose history is documented in an unbroken tradition extending back to the second millennium. Compared with Western languages, Chinese has a typology with distinguished features in sound system, syntax and discourse that have a strong impact on Chinese linguistics studies and language learning. Drawing on theoretical models from formal and functional linguistics, discourse analysis, computer-assisted corpus studies, language socialization and second language acquisition, this volume presents new advances and addresses a broad range of current issues in the study of Chinese linguistics with research studies that originated from the proceedings of the 21st North American Conference on Chinese Linguistics (NACCL 21). As globalization presses on more and more people are interested in Chinese, its history, structure, research and new developments. This volume aims to be instrumental. Written in a coherent and structured style, each section is concentrated on a particular linguistic area and each chapter is self-contained with a clear focus and theoretical framework. It will be valuable to linguists, educators, administrators, specialists, teachers and students of Chinese as a native, second, heritage or foreign language.

Chinese Linguistics Giorgio Francesco Arcodia, Bianca Basciano, 2021 This volume provides a broad introduction to Chinese linguistics. It offers an accessible synthesis of the most relevant topics in the field both for researchers and scholars on China studies and for linguists including those with little or no previous knowledge of Chinese.

The Routledge Handbook of Chinese Applied Linguistics Chu-Ren Huang, Zhuo Jing-Schmidt, Barbara Meisterernst, 2019-03-11 The Routledge Handbook of Chinese Applied Linguistics is written for those wanting to acquire comprehensive knowledge of China, the diaspora and the Sino-sphere communities through Chinese language. It examines how Chinese language is used in different contexts and how the use of Chinese language affects culture, society, expression of self and persuasion of others, as well as how neurophysiological aspects of language disorder affect how we function and how the advance of technology changes the way the Chinese language is used and perceived. The Handbook concentrates on the cultural, societal and communicative characteristics of the Chinese language environment. Focusing on language use in action in context and in vivo, this book intends to lay empirical grounds for collaboration and synergy among different fields.

[The Routledge Encyclopedia of the Chinese Language](#) Sin-Wai Chan, 2016-04-14 The Routledge Encyclopedia of the Chinese Language is an invaluable resource

for language learners and linguists of Chinese worldwide those interested readers of Chinese literature and cultures and scholars in Chinese studies Featuring the research on the changing landscape of the Chinese language by a number of eminent academics in the field this volume will meet the academic linguistic and pedagogical needs of anyone interested in the Chinese language from Sinologists to Chinese linguists as well as teachers and learners of Chinese as a second language The encyclopedia explores a range of topics from research on oracle bone and bronze inscriptions to Chinese language acquisition to the language of the mass media This reference offers a guide to shifts over time in thinking about the Chinese language as well as providing an overview of contemporary themes debates and research interests The editors and contributors are assisted by an editorial board comprised of the best and most experienced sinologists world wide The reference includes an introduction written by the editor which places the assembled texts in their historical and intellectual context The Encyclopedia of the Chinese Language is destined to be valued by scholars and students as a vital research resource

The Mandarin VP Rint Sybesma, 2013-04-17 The Mandarin VP deals with a number of constructions in Mandarin Chinese which involve the main verb and the material following it like the object NPs resultative phrases durative expressions and other elements The basis claim defended in this book is that all elements that follow the main verb in a Mandarin sentence form one single constituent which functions as the complement of the verb The Mandarin VP offers new and original analyses of such hot issues as resultative constructions the ba construction and verb le In addition the conclusions drawn from the research into Mandarin syntax are discussed in more general theoretic terms which leads to original proposals regarding the internal make up of accomplishments and the status of Theta Theory The research reported on in this book was concluded within the bounds of mainstream generative theorizing The Mandarin VP is of interest to all syntacticians especially those interested in Chinese

New Trends in Grammaticalization and Language Change Sylvie Hancil, Tine Breban, José Vicente Lozano, 2018-12-06 The chapters in this volume present a state of the art of grammaticalization research in the 2010s They are concerned with the application of new models such as constructionalization the ongoing debate about the status and modelling of the development of discourse markers and reveal a renewed interest in the typological application of grammaticalization and in the cognitive motivations for unidirectionality The contributors consider data from a wide range of languages including several that have not or marginally been looked at in terms of grammaticalization Chinese Dutch varieties of English French German Japanese Maltese Old Saxon Spanish and languages of the South Caucasian and Zhuang Tai Kadai families The chapters range from theoretical discussions to fine grained analyses of new historical and comparative language data This volume will be of interest to linguists studying morphosyntactic changes in a range of languages and in particular to those interested in models for grammatical change

Reviewing **New Horizons In Chinese Linguistics**: Unlocking the Spellbinding Force of Linguistics
