Human Rights John C. Pollock, 2017-10-02 This book is the first collection of original research to explore links between demographics and media coverage of emerging human rights issues It covers cross national reporting on human trafficking HIV AIDS water contamination and child labour and same sex marriage Guantanamo detainee rights immigration reform and post traumatic stress disorder in the United States The research asks questions such as What are the principal catalysts that propel rights issues into media agendas Why do some surface more quickly than others And how do the demographics of cross national reporting differ from those driving multi city US nationwide coverage of rights claims Using community

structure theory and innovative Media Vector content analysis the eight chapters of this book reveal three striking patterns that show how differences in female empowerment social or economic vulnerability and Midwestern newspaper geographic location link powerfully with variations in coverage of rights issues The patterns connecting demographics and rights claims confirm that coverage of human rights can mirror the concerns of stakeholders and vulnerable groups contrary to conventional assumptions that media typically serve as guard dogs reinforcing the interests of political and economic elites This book was originally published as a special issue of The Atlantic Journal of Communication

Freedom of Information in a Post 9-11 World Charles Sides, 2017-03-02 Freedom of Information in a Post 9 11 World is to date the first international scholarly examination of the impact of the terrorist attack on the United States in terms of how it may alter academic and corporate research as well as the sharing of information generated by that research by international colleagues in technological fields The collection of essays brings together a widely varied panel of communications experts from different backgrounds and cultures to focus their expertise on the ramifications of this world changing event Drawing upon the related but separate disciplines of law interpersonal communication semiotics rhetoric management information sciences and education the collection adds new insight to the potential future challenges high tech professionals and academics will face in a global community that now seems much less communal than it did prior to September 11 2001

Handbook of Biology and Politics Steven A. Peterson, Albert Somit, 2017-05-26 The study of biology and politics or biopolitics has gained considerable currency in recent years as articles on the subject have appeared in mainstream journals and books on the subject have been well received The literature has increased greatly since the 1960s and 1970s when this specialization first made an appearance This volume assesses the contributions of biology to political science Chapters focus on general biological approaches to politics biopolitical contributions to mainstream areas within political science and linkages between biology and public policy The volume provides readers with a comprehensive introduction to the subject
