New Light on Ancient Carthage John Griffiths Pedley, 1980 Ancient Urban Planning in the Mediterranean Samantha L. Martin-McAuliffe, Daniel M. Millette, 2017-12-06 New Directions in Urban Planning in the Ancient Mediterranean assembles the most up to date research on the design and construction of ancient cities in the wider Mediterranean In particular this edited collection reappraises and sheds light on lost Classical plans Whether intentional or not each ancient plan has the capacity to embody specific messages linked to such notions as heritage and identity Over millennia cities may be divested of their buildings and monuments and can experience periods of dramatic rebuilding but their plans often have the capacity to endure As such this volume focuses on Greek and Roman grid traces both literal and figurative This rich selection of innovative studies explores the ways that urban plans can assimilate into the collective memory of cities and smaller settlements In doing so it also highlights how collective memory adapts to or is altered by the introduction of re aligned plans and newly constructed monuments New Light on Ancient Carthage John Griffiths Pedley, 1980 **A Companion to North Africa in Antiquity** R. Bruce Hitchner, 2022-03-29 Explore a one of a kind and authoritative resource on Ancient North Africa A Companion to North Africa in Antiquity edited by a recognized leader in the field is the first reference work of its kind in English It provides a comprehensive introduction to all aspects of North Africa s rich history from the Protohistoric period through Late Antiquity 1000 BCE to the 800 CE Comprised of twenty four thematic and topical essays by established and emerging scholars covering the area between ancient Tripolitania and the Atlantic Ocean including the Sahara the volume introduces readers to Ancient North Africa s environment peoples institutions literature art economy and more taking into account the significant body of new research and fieldwork that has been produced over the last fifty years A Companion to North Africa in Antiquity is an essential resource for anyone interested in this important region of the Ancient World Delos, Carthage, Ampurias Birgit Tang, 2005 **The Bir Messaouda Basilica** Richard Miles, Simon Greenslade, 2019-12-31 This volume charts the radical transformation of an inner city neighbourhood in late antique Carthage which was excavated over a five year period by a team from the University of Cambridge Bordering the main thoroughfare leading from the Brysa Hill to the ports the neighbourhood remained primarily a residential one from the second century until 530s AD when a substantial basilica was constructed over the eastern half of the insula Further extensive modifications were made to the basilica half a century later when the structures on the western half of the insula were demolished and the basilica greatly enlarged with the addition of a new east west aisles a large monumental baptistery and a crypt By carefully reconstructing the complex architectural plan of this innovative building this study shows how the remodelled Bir Messaouda basilica was transformed into a major pilgrimage centre overturning established tradition that located such complexes outside the city walls The Bir Messaouda basilica provides important insights into the transition between Vandal and Byzantine control of the city the development of a new Christian inter mural urban landscape in the

sixth century AD and the significance of the pilgrimage in reinforcing ecclesiastical authority in post Justinianic North Africa

Emperor, Prefects & Kings P. S. Barnwell, 1992 P S Barnwell examines the development of imperial and royal government in the western part of the Roman Empire and in the early barbarian kingdoms that were established within its frontiers the Visigothic Burgundian Frankish and Vandal nations Covering the fifth century the period from the death of the Emperor Theodosius to the death of the Emperor Justinian Barnwell s book demonstrates the extent to which barbarian government was influenced by its Roman predecessor Earlier studies have argued implicitly that the fifth century witnessed the disintegration of an ordered Roman governmental system and its replacement by a series of disorganized Germanic administrations Barnwell by contrast examines Roman government of the fifth century western Empire on its own terms and then analyzes the administrations of individual Barbarian kingdoms in relation to this fifth century Roman background He shows that the law and government of the Barbarian kingdoms were more deeply indebted to Roman institutions than most previous historians have realized

Ezekiel in Context Brian Neil Peterson, 2012-05-03 One of the most perplexing and misunderstood books of the Bible Ezekiel has left many scholars and exegetes scratching their heads regarding its message coherency and interpretation Brian Peterson s look at the book of Ezekiel as a unified whole set within an exilic context helps explain some of the more difficult symbolic aspects in the book and makes Ezekiel as a whole more intelligible Drawing on ancient Near Eastern concepts and motifs such as covenant and treaty curses the various gods that made up the Babylonian pantheon and the position that Israel held as the people of Yahweh Peterson enlightens readers by showing that Ezekiel can only be understood in its original context By placing the book first in its historical context Peterson demonstrates how the original hearers of its message would have understood it and how this message can be appreciated and applied by people today as well
