Policymaking, Politics, and Urban Governance in Chihuahua Victoria Elizabeth Rodríguez, Peter M. Ward, 1992

Colonias and Public Policy in Texas and Mexico Peter M. Ward, 2010-01-01 Today in Texas over 1500 colonias in the counties along the Mexican border are home to some 400 000 people Often lacking basic services such as electricity water and sewerage fire protection policing schools and health care these irregular subdivisions offer the only low cost housing available to the mostly Hispanic working poor This book presents the results of a major study of colonias in three transborder metropolitan areas and uncovers the reasons why colonias are spreading so rapidly Peter Ward compares Texas colonias with their Mexican counterparts many of which have developed into fully integrated working class urban communities He describes how Mexican governments have worked with colonia residents to make physical improvements and upgrade services a model that Texas policymakers can learn from Ward asserts Finally he concludes with a hard hitting checklist of public policy initiatives that need to be considered as colonia housing policy enters its second decade in Texas

Decentralization In Mexico Victoria Rodríguez, 2018-05-04 This book assesses the impact of decentralization on Mexico's intergovernmental relations and examines the constraints upon the devolution of political power from the center to the lower levels of government It also discusses the distribution of power and authority to governments of opposition parties within the context of a more open political space Victoria Rodríguez uncovers a new paradox in the Mexican political system retaining power by giving it away She argues that since the de la Madrid presidency 1982-1988 the Mexican government has embarked upon a major effort of political and administrative decentralization as a means to increase its hold on power That effort continued under Salinas but paradoxically led to further centralization However since Zedillo assumed the presidency it has become increasingly clear that the survival of the ruling party and indeed the viability of his own government require a genuine de facto reduction of centralism

Mexico's New Politics David A. Shirk, 2005 Tracing the key themes and dynamics of a century of political development in Mexico David Shirk explores the evolution of the party that ultimately became the vehicle for Fox's success

Contemporary Mexican Politics Emily Edmonds-Poli, David A. Shirk, 2020-03-10 This comprehensive and engaging text explores contemporary Mexico's political economic and social development and examines the most important policy issues facing the country today Readers will find this widely praised book continues to be the most current and accessible work available on Mexico's politics and policy

Dismantling the Mexican State? Rob Aitken, Nikki Craske, David E. Stansfield, 2016-07-27 In assessing Carlos Salinas's socio-economic reforms the authors question the extent to which the Mexican state has been radically transformed and possibly dismantled The authors show that the changes which have occurred are uneven limited and reversible Despite the aura of reform it is the degree of continuity which is the most noticeable feature In many respects the Mexican State remains highly authoritarian

The Changing Role

Of The State In Latin America Menno Vellinga, 2018-02-19 Since the 1930s the state has played a primary role in the development process of Latin American countries and political systems have had strong corporatist and authoritarian centralist features In the last several years as that role has become increasingly incompatible with neoliberal reforms and the requirements of a transition to democracy state power has been significantly decentralized and the state has withdrawn from direct intervention in the economy This book examines the consequences of the redefinition of the state for processes of democratization and state-civil society relations Since the 1930s the state has played a primary role in the development process of most Latin American countries and political systems have had strong corporatist and authoritarian centralist features In the last several years as that role has become increasingly incompatible with neoliberal reforms and the requirements of a transition to democracy state power has been significantly decentralized and the state has withdrawn from direct intervention in the economy This book examines the consequences of the redefinition of the state for processes of democratization and state-civil society relations looking for example at transfers of power to local and regional authorities the role of NGOs and other interest groups in policymaking the emergence of new social movements and privatization and the introduction of market criteria Several country case studies are also included *Women's Participation In Mexican Political Life* Victoria Rodriguez, 2019-03-13 To date the mainstream literature on Mexican politics has said little about women even though their participation as formal political actors has increased dramatically in the past fifteen years Somewhat surprisingly the political participation of women although well documented in other Latin American countries has been neglected in the case **The Politics of Drug Violence** Angelica Duran-Martinez, 2017-12-13 Over the last few decades drug trafficking organizations in Latin America became infamous for their shocking public crimes from narcoterrorist assaults on the Colombian political system in the 1980s to the more recent wave of beheadings in Mexico However while these highly visible forms of public violence dominate headlines they are neither the most common form of drug violence nor simply the result of brutality Rather they stem from structural conditions that vary from country to country and from era to era In *The Politics of Drug Violence* Angelica Duran-Martinez shows how variation in drug violence results from the complex relationship between state power and criminal competition Drawing on remarkably extensive fieldwork this book compares five cities that have been home to major trafficking organizations for the past four decades Cali and Medellin in Colombia and Ciudad Juarez Culiacan and Tijuana in Mexico She shows that violence escalates when trafficking organizations compete and the state security apparatus is fragmented However when the criminal market is monopolized and the state security apparatus cohesive violence tends to be more hidden and less frequent The size of drug profits does not determine violence levels and neither does the degree of state weakness Rather the forms and scale of violent crime derive primarily from the interplay between marketplace competition and state cohesiveness An unprecedentedly rich empirical account of one of the worst problems of our era the book will reshape our understanding of the forces driving organized criminal violence in Latin

America and elsewhere **Urban Elections in Democratic Latin America** Henry A. Dietz, Gil Shidlo, 1998 Urban Elections in Democratic Latin America explores the electoral politics of several of the major urban centers and capital cities of democratic Latin America The primacy of urban centers throughout Latin America magnifies the importance of this study Latin America is over two thirds urban and two of the world s three largest cities are now Latin America the metropolitan areas of Mexico City and Sao Paulo *Comparative Federalism in the Devolution Era* Neil Colman McCabe, 2002-01-01 Comparative Federalism in the Devolution Era offers political scientists and legal scholars a new perspective on the diverse nature and exercise of postmodern federalism *The Politics of Drug Violence* Angélica Durán-Martínez, 2018 Over the last few decades drug trafficking organizations in Latin America became infamous for their shocking public crimes from narcoterrorist assaults on the Colombian political system in the 1980s to the more recent wave of beheadings in Mexico However while these highly visible forms of public violence dominate headlines they are neither the most common form of drug violence nor simply the result of brutality Rather they stem from structural conditions that vary from country to country and from era to era In *The Politics of Drug Violence* Angelica Dur n Mart nez shows how variation in drug violence results from the complex relationship between state power and criminal competition Drawing on remarkably extensive fieldwork this book compares five cities that have been home to major trafficking organizations for the past four decades Cali and Medell n in Colombia and Ciudad Ju rez Culiac n and Tijuana in Mexico She shows that violence escalates when trafficking organizations compete and the state security apparatus is fragmented However when the criminal market is monopolized and the state security apparatus cohesive violence tends to be more hidden and less frequent The size of drug profits does not determine violence levels and neither does the degree of state weakness Rather the forms and scale of violent crime derive primarily from the interplay between marketplace competition and state cohesiveness An unprecedentedly rich empirical account of one of the worst problems of our era the book will reshape our understanding of the forces driving organized criminal violence in Latin America and elsewhere *World Cities in a World-System* Paul L. Knox, Peter James Taylor, Peter J. Taylor, 1995-07-06 Cities such as New York Tokyo and London are the centres of transnational corporate headquarters of international finance transnational institutions and telecommunications They are the dominant loci in the contemporary world economy and the influence of a relatively small number of cities within world affairs has been a feature of the shift from an international to a more global economy which took place during the 1970s and 1980s This book brings together the leading researchers in the field to write seventeen original essays which cover both the theoretical and practical issues involved They examine the nature of world cities and their demands as special places in need of specific urban policies the relationship between world cities within global networks of economic flows and the relationship between world city research and world systems analysis and other theoretical frameworks *Urban Water Policy in Mexico* Nicolás Pineda Pablos, 2002

Governance on the Ground Patricia Louise McCarney, Richard E. Stren, 2003-09-15 Governance on the Ground

describes people at a local level working through municipal institutions to take more responsibility for their own lives and environment This study reports what social scientists in eight local networks found when they chose their own subjects for a worldwide comparative study of institutional reform at the local level Governance on the Ground is the culminating product of the Global Urban Research Initiative a major 10 year research effort that created a worldwide network of some 400 social scientists The topics these scholars cover include fiscal innovation infrastructure projects social development housing harbor development and political party participation Material comes from Chile Colombia Mexico Brazil Sudan Zimbabwe South Africa Lebanon Israel Egypt Bangladesh India Vietnam Indonesia Thailand and the Philippines All chapters present governance at a local level in a period characterized by decentralization and democratization when many governments were improving local accountability and transparency and people were actively participating in public forums especially through institutions of civil society Many chapters show the close connection between social science and actual policy formation and implementation in the developing world

World Cities Beyond the West Josef Gugler, 2004-10-14 This study was the first systematically to cover those cities beyond the core that most clearly can be considered world cities Bangkok Cairo Hong Kong Jakarta Johannesburg Mexico City Moscow Mumbai Sao Paulo Seoul Shanghai and Singapore Fourteen leading authorities from diverse backgrounds bring their expertise to bear on these cities across four continents and consider the major regional and global roles they play in economic political and cultural life Conveying how these cities have followed various pathways to their present position they offer multiple perspectives on the interplay of internal and external forces and demonstrate that any comprehensive discussion of world cities has to engage a multiplicity of perspectives With an introduction by Josef Gugler and an afterword from Saskia Sassen this substantial volume makes a major contribution to the world cities literature and provides an important impetus for further analysis

Free Trade? Kathleen A. Staudt, In the aspiring global cities of Ciudad Juarez and El Paso people generate income and develop their housing informally on both sides of the U S Mexico border Staudt analyzes women and men in low and middle income neighborhoods in the core and in the old and new peripheries of two cities that straddle an international border Residents counter national and international influences to build shelter and incomes albeit meager But the political machinery of both the U S and Mexico constrains the ability of these quintessential free traders to build political communities and organize around self sufficient work and housing in visible ways Experiences at the border along the central gateway for capital job and labor movement offer insights to readers as the globalized economy spreads and engulfs the heartlands of both the U S and Mexico People's everyday victories in countering petty regulations can counter or feed the grand global hegemonies

Subnational Politics and Democratization in Mexico Todd A. Eisenstadt, 1999 This volume highlights the growing disjuncture between Mexico's recently accelerated transition to democracy at the national level and what is occurring at the state and local levels in many parts of the country Subnational political regimes controlled by hard line antidemocratic elements linked to the Institutional

Revolutionary Party PRI remain important in late twentieth century Mexico even in an era of much intensified interparty competition The survival and even strengthening of state and local authoritarian enclaves in states like Puebla Tabasco Guerrero Oaxaca Chiapas and the Yucatan raises serious questions To what extent will failure to democratize in states and localities where little or no political change has occurred constrain or disrupt the national level democratization process How can Mexican leaders engineer a deconcentration of political power and a fiscal decentralization that do not simply strengthen authoritarian elites in the periphery Drawing on recent field research in ten Mexican states the contributors show how the increasingly uneven character of democratization in Mexico can be a significant obstacle to the completion of the process in an expeditious and lowconflict manner

Fragmented Lives, Assembled Parts Alejandro Lugo, 2009-09-15 Southwest Book Award Border Regional Library Association 2008 Association of Latina and Latino Anthropologists Book Award 2009 Established in 1659 as Misi n de Nuestra Se ora de Guadalupe de los Mansos del Paso del Norte Ciudad Ju rez is the oldest colonial settlement on the U S Mexico border and one of the largest industrialized border cities in the world Since the days of its founding Ju rez has been marked by different forms of conquest and the quest for wealth as an elaborate matrix of gender class and ethnic hierarchies struggled for dominance Juxtaposing the early Spanish invasions of the region with the arrival of late twentieth century industrial conquistadors *Fragmented Lives Assembled Parts* documents the consequences of imperial history through in depth ethnographic studies of working class factory life By comparing the social and human consequences of recent globalism with the region s pioneer era Alejandro Lugo demonstrates the ways in which class mobilization is itself constantly being unmade at both the international and personal levels for border workers Both an inside account of maquiladora practices and a rich social history this is an interdisciplinary survey of the legacies tropes economic systems and gender based inequalities reflected in a unique cultural landscape Through a framework of theoretical conceptualizations applied to a range of facets from multiracial mestizo populations to the notions of border crossings and inspections as well as the recent brutal killings of working class women in Ciudad Ju rez *Fragmented Lives Assembled Parts* provides a critical understanding of the effect of transnational corporations on contemporary Mexico calling for official recognition of the desperate need for improved working and living conditions within this community
