the environment Although both developed and developing countries are actively participating in this saga of globalization nearly ninety countries as the United Nations Human Development Report 1996 indicates are worse off economically than they were ten years ago leading to global polarization between haves and have nots The report further indicates that the gap between the per capita incomes of the industrialized world and the developing countries far from narrowing has more than tripled during the last thirty years Further a majority of the countries benefitting from this globalization drive have seen a rise in inequality and poverty This failure of market driven globalization to reward the benefits equitably led the United Nations to proclaim 1996 as the International Year for the Eradication of Poverty IYEP and the decade of 1997 2006 as the international decade for the eradication of poverty and to promote people centered sustainable development
