Public Opinion And Democratic Accountability How Citizens Learn About Politics

Jérôme Lafargue

Public Opinion And Democratic Accountability How Citizens Learn About Politics:

Public Opinion and Democratic Accountability Vincent L. Hutchings, 2003 Vincent Hutchings examines the process by which citizens acquire information about politicians how they subsequently use that information to hold them accountable at election time

Public Opinion Rosalee A. Clawson, Zoe M. Oxley, 2020-07-21 In *Public Opinion Democratic Ideals Democratic Practice* Fourth Edition Clawson and Oxley link the enduring normative questions of democratic theory to existing empirical research on public opinion Organized around a series of questions In a democratic society what should be the relationship between citizens and their government Are citizens opinions pliable Are they knowledgeable attentive and informed the text explores the tension between ideals and their practice Each chapter focuses on exemplary studies explaining not only the conclusion of the research but how it was conducted so students gain a richer understanding of the research process and see methods applied in context

Public Opinion and the Political Economy of Education Policy around the World Martin R. West, Ludger Woessmann, 2021-04-27 Comparative analyses of the influence of public opinion on education policy in developed countries Although research has suggested a variety of changes to education policy that have the potential to improve educational outcomes politicians are often reluctant to implement such evidence based reforms Public opinion and pressure by interest groups would seem to have a greater role in shaping education policy than insights drawn from empirical data The construction of a comparative political economy of education that seeks to explain policy differences among nations is long overdue This book offers the first comparative inventory and analysis of public opinion and education in developed countries drawing on data primarily from Europe and the United States

New Directions in Public Opinion Adam J. Berinsky, 2015-12-21 The field of public opinion is one of the most diverse in political science Over the last 60 years scholars have drawn upon the disciplines of psychology economics sociology and even biology to learn how ordinary people come to understand the complicated business of politics But much of the path breaking research in the field of public opinion is published in journals taking up fairly narrow questions one at a time and often requiring advanced statistical knowledge to understand these findings As a result the study of public opinion can seem confusing and incoherent to undergraduates To engage undergraduate students in this area a new type of textbook is required The second edition of *New Directions in Public Opinion* brings together leading scholars to provide an accessible and coherent overview of the current state of the field of public opinion Each chapter provides a general overview of topics that are at the cutting edge of study as well as well established cornerstones of the field Each contributor has made substantive revisions to their chapters and three chapters have been added on genetics and biology immigration and political extremism and the Tea Party Suitable for use as a main textbook or in tandem with a lengthier survey this book comprehensively covers the topics of public opinion research and pushes students further to explore critical topics in contemporary politics

The Oxford Handbook of Classics in Public Policy and Administration Steven J. Balla, Martin Lodge, Edward C. Page, 2015-03-26 This Handbook brings

together a collection of leading international authors to reflect on the influence of central contributions or classics that have shaped the development of the field of public policy and administration The Handbook reflects on a wide range of key contributions to the field selected on the basis of their international and wider disciplinary impact Focusing on classics that contributed significantly to the field over the second half of the 20th century it offers insights into works that have explored aspects of the policy process of particular features of bureaucracy and of administrative and policy reforms Each classic is discussed by a leading international scholars They offer unique insights into the ways in which individual classics have been received in scholarly debates and disciplines how classics have shaped evolving research agendas and how the individual classics continue to shape contemporary scholarly debates In doing so this volume offers a novel approach towards considering the various central contributions to the field The Handbook offers students of public policy and administration state of the art insights into the enduring impact of key contributions to the field

The Oxford Handbook of American Elections and Political Behavior Jan E. Leighley, 2012-02-16 The Oxford Handbooks of American Politics are the essential guide to the study of American political life in the 21st Century With engaging contributions from the major figures in the field The Oxford Handbook of American Elections and Political Behavior provides the key point of reference for anyone working in American Politics today

The Oxford Handbook of Contextual Political Analysis Robert E. Goodin, Charles Tilly, 2008-06-19 This is part of a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science This work explores the idea of context in politics from a number of angles including philosophically psychologically historically and culturally

Rescuing Democracy Paul E. Smith, 2016 This book proposes a new institution the People s Forum to enable democratic governments to effectively address long running issues like global warming and inequality It would help citizens decide what strategic problems their government must fix especially where this requires them to suffer some inconvenience or cost The People s Forum is first based on a new diagnosis of government failure in democracies The book tests its own analyses of government failure by seeing whether these might help us to explain the failures of particular democracies to address and in some cases to even recognize several crucial environmental problems The essential features of a new design for democracy are described and then compared with those of previous institutional designs that were also intended to improve the quality of democratic government In that comparison the People s Forum turns out to be not only the most effective design for developing and implementing competent policy but also the easiest to establish and run The latter advantage is crucial as there has been no success in getting previous designs into actual trial practice It is hoped that this book may inspire a small group to raise the money to set up and run the People s Forum Then as citizens see it operating and engage with it they may come to regard the new Forum as essential in helping them to deliberate long running issues and to get their resulting initiatives implemented by government Smith also discusses how the People s Forum must be managed and how groups with different political ideologies may react to it An Afterword

sets out the method by which this design was produced to help those who might want to devise an institution themselves The new concepts in environmental science that the book develops to test its diagnosis are applied in an Appendix to outline crucial options for the future of Tasmania Similar options apply to many countries states and provinces As indicated above those choices are currently beyond the capacity of democratic governments to address and in some cases even to recognize But the People s Forum may lift them out of that morass **Analyzing American Democracy** Jon R. Bond, Lydia M.

Andrade, 2023-08-31 Providing the tools for critical thinking the fifth edition of Analyzing American Democracy Politics and Political Science relies on statistical analysis constitutional scholarship and theoretical foundations to introduce the structure process and outcomes of the U S political system Interpretation and implications of the 2022 mid term elections and full results of the 2020 census are included as are discussions of the January 6th commission major developments in the Supreme Court the Covid 19 pandemic the Russian invasion of Ukraine and other key political events that shape domestic foreign judicial and economic policies For introductory courses in American government this text covers theory and methods as well New to the Fifth Edition New and updated statistical data reflecting the 2020 census and the 2022 midterm elections and discussions of the implications of the data and the results Offers a retrospective analysis of the entire Trump presidency and the first years of the Biden presidency Examines contemporary questions of social justice and anticipates upcoming challenges to voting rights affirmative action policies health care and reproductive rights and protections for ethnic minorities and the LGBT community Previews the policy implications of an increasingly partisan Supreme Court recaps the controversial recent decisions on health care abortion and environmental policy and covers the historic confirmation of new justice Ketanji Brown Jackson **Democracy and Political Ignorance** Ilya Somin, 2013-10-02 One of the biggest problems

with modern democracy is that most of the public is usually ignorant of politics and government Often many people understand that their votes are unlikely to change the outcome of an election and don t see the point in learning much about politics This may be rational but it creates a nation of people with little political knowledge and little ability to objectively evaluate what they do know In Democracy and Political Ignorance Ilya Somin mines the depths of ignorance in America and reveals the extent to which it is a major problem for democracy Somin weighs various options for solving this problem arguing that political ignorance is best mitigated and its effects lessened by decentralizing and limiting government Somin provocatively argues that people make better decisions when they choose what to purchase in the market or which state or local government to live under than when they vote at the ballot box because they have stronger incentives to acquire relevant information and to use it wisely **Mobilizing Inclusion** Lisa Garcia Bedolla, Melissa R. Michelson, 2012-10-09

Which get out the vote efforts actually succeed in ethnoracial communities and why Analyzing the results from hundreds of original experiments the authors of this book offer a persuasive new theory to explain why some methods work while others do not Exploring and comparing a wide variety of efforts targeting ethnoracial voters the authors present a new theoretical

frame the social cognition model of voting based on an individual's sense of civic identity for understanding get out the vote effectiveness Their book serves as a guide for political practitioners for it offers concrete strategies to employ in developing future mobilization efforts *The General Elections in Kenya, 2007* Jérôme Lafargue, 2009 The 2007 general elections in Kenya led to major unrest The aim of this book is to examine and analyse the events that set the country on fire for several weeks The situation has largely stabilised since April 2008 when the articles collected in this book were first individually published Some political information has been updated post April 2008 The coalition government took shape with Mwai Kibaki remaining President while Raila Odinga became the Prime Minister The country however remains in suspense as do the donors who had made it possible for Kenya to restore a semblance of peace But to what point will they be interested in investing in the country and to protect their place in it The collection comprises a translation of a special issue of *Les Cahiers d'Afrique de l'Est* n 37 the journal of the Institut Français de Recherche en Afrique IFRA and a collection of articles from *Politique Africaine* n 109 On site researchers Bernard Calas Anne Cussac Dominique Connan Musambayi Katumanga Jérôme Lafargue and Patrick Mutahi fieldwork carried out between December 2007 and February 2008 by Florence Brisset Foucault Ronan Porhel Brice Rambaud and in depth country knowledge by Claire Mardard and Hervé Maupeu combined to produce a mass of data within a short time Whilst the tone of the book is not highly optimistic the thrust is not intended to dampen the unanimous sense of hope in the country that the political and social situation will once more be more than just tolerable

The Oxford Handbook of the American Congress Eric Schickler, Frances E. Lee, 2013-03-14 No legislature in the world has a greater influence over its nation's public affairs than the US Congress The Congress's centrality in the US system of government has placed research on Congress at the heart of scholarship on American politics Generations of American government scholars working in a wide range of methodological traditions have focused their analysis on understanding Congress both as a lawmaking and a representative institution The purpose of this volume is to take stock of this impressive and diverse literature identifying areas of accomplishment and promising directions for future work The editors have commissioned 37 chapters by leading scholars in the field each chapter critically engages the scholarship focusing on a particular aspect of congressional politics including the institution's responsiveness to the American public its procedures and capacities for policymaking its internal procedures and development relationships between the branches of government and the scholarly methodologies for approaching these topics The Handbook also includes chapters addressing timely questions including partisan polarization congressional war powers and the supermajoritarian procedures of the contemporary Senate Beyond simply bringing readers up to speed on the current state of research the volume offers critical assessments of how each literature has progressed or failed to progress in recent decades The chapters identify the major questions posed by each line of research and assess the degree to which the answers developed in the literature are persuasive The goal is not simply to tell us where we have been as a field but to set an agenda for research on Congress for

the next decade The Oxford Handbooks of American Politics are a set of reference books offering authoritative and engaging critical overviews of the state of scholarship on American politics Each volume focuses on a particular aspect of the field The project is under the General Editorship of George C Edwards III and distinguished specialists in their respective fields edit each volume The Handbooks aim not just to report on the discipline but also to shape it as scholars critically assess the scholarship on a topic and propose directions in which it needs to move The series is an indispensable reference for anyone working in American politics General Editor for The Oxford Handbooks of American Politics George C Edwards III

Party Images in the American Electorate Mark D. Brewer, 2010-04-02 Party affiliation has long been the driving force behind electoral politics in the United States Despite this fact scant attention has been devoted to the American electorate's party images the mental pictures that individuals have about the parties which enable citizens to translate events in the larger political environment into terms meaningful to them as individuals Party images are central to understanding individuals' political perceptions and ultimately voting behavior *Party Images in the American Electorate* systematically examines the substance evolution and manipulation of party images within the American public over the last half century both within the public as a whole and within important subgroups based on class race and ethnicity sex and religiosity Ultimately this important book investigates how these party images are tied into the story of party polarization and how they affect electoral outcomes in the United States

The Making of the German Post-War Economy Christian L. Glossner, 2010-02-28 The years following the end of World War II in Germany were a significant period of change and upheaval This book on the economic reconstruction of post war West Germany traces the development of economic and socio political ideas and their gradual absorption by mainstream politicians officials and the general public during the period of transition between 1945 and 1949 In the aftermath of World War II several German think tanks political parties and individuals gave impulse to and then shaped the development of a viable socio political and economic model between the extremes of laissez faire capitalism and the collectivist planned economy In their endeavours to bring into effect their particular economic ideas often diametrically opposed to one another the parties of left and right stimulated not only academic and political debate but also public debate about the political and economic reconstruction of occupied post war Germany While all the various neo liberal approaches assigned to the people sovereign and decisive status in the institutional economic order and recognised the interdependence of politics economics and the public one particular school of economic thought outpaced the others in communicating a model of coordinated economic and social policy namely the Social Market Economy Christian Glossner here investigates whether or not it was primarily the subtlety of the political campaign for this model that led to its implementation by the then Economic Council and eventual validation by the German electorate The programmes published by the principal academic and political groups of the time and the practical day to day decisions of the first parliament in post war Germany are analysed with reference to popular preferences By examining both the formative involvement of

German parties in post war reconstruction and the role of the public during the process of economic liberalisation this book provides explanations for why the Social Market Economy prevailed as the socio political and economic model for the Federal Republic of Germany It will be of interest to scholars of German economic and twentieth century history *The Robust Federation* Jenna Bednar,2008-12-01 The Robust Federation offers a comprehensive approach to the study of federalism Jenna Bednar demonstrates how complementary institutions maintain and adjust the distribution of authority between national and state governments These authority boundaries matter for defense economic growth and adequate political representation and must be defended from opportunistic transgression From Montesquieu to Madison the legacy of early institutional analysis focuses attention on the value of competition between institutions such as the policy moderation produced through separated powers Bednar offers a reciprocal theory in an effective constitutional system institutions complement one another each makes the others more powerful Diverse but complementary safeguards including the courts political parties and the people cover different transgressions punish to different extents and fail under different circumstances The analysis moves beyond equilibrium conceptions and explains how the rules that allocate authority are not fixed but shift gradually Bednar s rich theoretical characterization of complementary institutions provides the first holistic account of federal robustness **Resilience Process and Its Personal and Social Bases** Chau Kiu Cheung,2024-10-30

This book is to elucidate personal and social bases for personal resilience thus addressing the issue concerning the predominance of social factors in shaping resilience Essentially the book starts with a clarification of resilience as a phenomenon rather than a trait The clarification also identifies the personal bases in terms of the resilience process which specifies belief about resilience as a precursor to learning about resilience action for resilience and resilience successively To justify the personal and social bases the book expounds the analytical functionalist framework to specify voluntaristic and deterministic mechanisms to perform the four requisite functions of goal attainment adaptation integration and latency Equipped with the conceptual and theoretical grounds the book proceeds to scrutinize the effects of personal and social factors on resilience and its process The personal factors include personal background characteristics personality functional disability and various beliefs whereas the social factors include experiences of caring peace violence and social exclusion in society kindness sociability and aid from other people and social capital The scrutiny engages five databases about 6 948 Chinese people in Hong Kong and neighboring Chinese cities composed of the public service users older adults students and people with visual impairment Overall the book presents ample theoretical and empirical substances to clarify the genesis of resilience **The Democracy Manifesto** Wayne Waxman,Alison McCulloch,2022-01-20 The Democracy Manifesto is about how to recreate democracy by replacing elections with government that is truly of by and for the people Written in engaging and accessible dialogue form the book argues that the only truly democratic system of government is one in which decision makers are selected randomly by sortition from the population at large operating much the way trial juries do today but

100% online enabling people to govern together even across great distances Sortition has a storied history but what sets The Democracy Manifesto apart is its comprehensive account of how it can be implemented not only across all sectors and levels of government but throughout society as well including the democratization of mass media corporations banks and other large institutions The resulting Sortitive Representative Democracy SRD is the true heir to ancient Greek democracy and the only means of ensuring we the people are represented by our fellow citizens rather than by the revolving groups of elites that dominate electoral systems In the process the book grapples with myriad hot topics including economic issues international relations indigenous rights environmentalism and more *Political Justice and Religious Values* Charles Andrain,2009-06-02

Why do individuals and groups hold distinctive theological views Why do these beliefs change In what ways do theological interpretations influence concepts of spiritual and political justice How and why do these concepts of justice affect policy preferences held by religious liberals and conservatives Much has recently been written about the relationship between power conservative politics and evangelical religious groups but very little attention has been paid to so called progressive religious groups among Protestants Catholics and Jews and their relationship to political thought and action This wide ranging and interdisciplinary work ideal for use in college courses on religion and social issues explores the impact of theological interpretations about God the individual society church and government on attitudes toward procedural and distributive justice Major issues revolve around civil liberties sexual choice gender equality world peace prison reform and income distribution **Emerging Adulthood in Hong Kong** Chau-kiu Cheung,2017-09-22 How emerging adults broadly referring to those aged from 18 to 29 years old fare in civic engagement as compared with other adults is the focus of the present work The work takes civic engagement to comprise prosociality in civil society sustaining social institutions and challenging institutions Delineating a theoretical framework based on voluntaristic theory the work expects to find differences in civic engagement due to the voluntaristic mechanisms of power realization utilitarian optimization normative conformity and idealistic consistency maintenance in the emerging adult as compared with the other Using survey data from 25 878 Chinese adults in Hong Kong the work illustrates that the emerging adult is higher than is the other in challenging social institutions notably in terms radicalism and occupying protest Moreover the emerging adult is less prosocial in terms in community participation Meanwhile the emerging adult is not consistently different from the other in sustaining social institutions The findings are crucial given the control various background characteristics including age education marriage and employment These findings are therefore useful for illustrating social forces postulated in voluntaristic theory for explaining civic engagement

Unveiling the Energy of Verbal Art: An Emotional Sojourn through **Public Opinion And Democratic Accountability How Citizens Learn About Politics**

In some sort of inundated with monitors and the cacophony of instant connection, the profound power and psychological resonance of verbal beauty often fade into obscurity, eclipsed by the continuous barrage of noise and distractions.
