Public Order In The Age Of The Chartists:

Public Order in the Age of the Chartists Frederick Clare Mather, 1959 The Police and the Expansion of Public Order Law in Britain, 1829-2014 Iain Channing, 2015-05-15 Incidences of public disorder and the manner in which they have been suppressed have repeatedly ignited debate on the role of policing the effectiveness of current legislation and the implications for human rights and civil liberties These same issues have reverberated throughout British history and have frequently resulted in the enactment of new legislation that reactively aimed to counter the specific concern of that era This book offers a detailed analysis of the expansion of public order law in the context of the historical and political developments in British society The correlation of key historical events and the enactment of consequent legislation is a key theme that resonates throughout the book and demonstrates the expanding influence of the law on public assemblies and protest which has continued to criminalise and prohibit certain social behaviours Crucial movements in Britain s social and political history who have all engaged in or have provoked public disorder are examined in the book Other incidents of riot and disorder such as the Featherstone Riot 1893 the Battle of Cable Street 1936 the Inner City Riots 1980s and the UK riots 2011 are also covered By positioning legal developments within their historical context the book demonstrates the ebb and flow between the prominence of the competing demands of the liberties of free expression and assembly on the one hand and the protection of the general public and property on the other This book is essential reading for academics and students in the fields of criminology history and law The Chartist Movement Mark Hovell, 1966 Chartism was a Victorian era working class movement for political reform in Britain between 1838 and 1848 It takes its name from the People s Charter of 1838 The term Chartism is the umbrella name for numerous loosely coordinated local groups often named Working Men s Association articulating grievances in many cities from 1837 Its peak activity came in 1839 1842 and 1848 It began among skilled artisans in small shops such as shoemakers printers and tailors The movement was more aggressive in areas with many distressed handloom workers such as in Lancashire and the Midlands It began as a petition movement which tried to mobilize moral force but soon attracted men who advocated strikes General strikes and physical violence such as Feargus O Connor and known as physical force chartists Wikipedia **Public Order in the Age of the Chartists, by F. C. Mather** Frederick Clare Mather, 1971 Law, State and Society Bob Fryer, Alan J. Hunt, Doreen McBarnet, Bert Moorhouse, 2018-05-11 Originally published in 1981 Law State and Society confronts many of the most important issues within the developing field of law and society The essays cover the key political debates and the subject of the sociology of law through two key debates the first tackling the wider theoretical and political system while the other essays are concerned with more concrete aspects of both the political and social face of law Together the essays show how crucial the potential is that exists for a considerable extension and integration of work that focuses explicitly on empirical problems yet is at the same time more conscious of the theoretical issues that underpin the effectivity of law Chartism Malcolm

Chase,2013-07-19 Chartism the mass movement for democratic rights dominated British domestic politics in the late 1830s and 1840s It mobilised over three million supporters at its height Few modern European social movements certainly in Britain have captured the attention of posterity to quite the extent it has done Encompassing moments of great drama it is one of the very rare points in British history where it is legitimate to speculate how close the country came to revolution It is also pivotal to debates around continuity and change in Victorian Britain gender language and identity Chartism A New History is the only book to offer in depth coverage of the entire chronological spread 1838-58 of this pivotal movement and to consider its rich and varied history in full Based throughout on original research including newly discovered material this is a vivid and compelling narrative of a movement which mobilised three million people at its height The author deftly intertwines analysis and narrative interspersing his chapters with short Chartist Lives relating the intimate and personal to the realm of the social and political This book will become essential reading for anyone with an interest in early Victorian Britain specialists students and general readers alike **London Chartism 1838-1848** David Goodway,2002-10-10 This book the first full length study of metropolitan Chartism provides extensive new material for the 1840s and establishes the regional and national importance of the London movement throughout this decade After an opening section which considers the economic and social structure of early Victorian London and provides an occupational breakdown of Chartists Dr Goodway turns to the three main components of the metropolitan movement its organized form the crowd and the trades The development of London Chartism is correlated to economic fluctuations and after the nationally significant failure of London to respond in 1838-9 1842 is seen as a peak in terms of conventional organization and 1848 as the high point of turbulence and revolutionary potential The section concludes with an exposition of the insurrectionary plans of 1848 **The Early Chartists** Dorothy Thompson,1971-07-22 *Enterprise and History* D. C. Coleman,Donald Cuthbert Coleman,Peter Mathias,2006-11-02 This collection of original essays written by friends colleagues and former students is a tribute to Charles Wilson Running through the essays is the theme of enterprise in history and especially in the two fields in which Charles Wilson has been pre eminent business history and the economic relations of England and the Netherlands This volume presents a comprehensive set of studies of diverse examples of the forms consequences and interpretations of economic enterprise in history *Chartism* Edward Royle,Roger Lockyer,2014-09-19 This text has established itself as the best short account of the Chartist movement available It considers its origins and development placing the movement within its broad social and economic context Dr Royle also provides clear analysis of its strategy and leadership and assesses the conflicting interpretations for the failure of Chartism **Class, Culture and Community** Anne Baldwin,Chris Ellis,2012-11-15 In recent years historians have debated fervently on the reason for the decline of British Labour History as an academic discipline Most certainly the challenge of Thatcherism to the working classes and trade unions in the 1980s and the fragmentation of Labour history into gender studies industrial studies and women s history have contributed to its

apparent decline Post modernists challenges to the concept of class culture and community have done their damage As a result Labour history in its broad school sense has been taught less and less in British universities Yet it survives and there are grounds for believing that it will revive This collection of chapters arose from a conference held at the University of Huddersfield in November 2010 held under the auspices of the Society for the Study of Labour History where nineteen papers were presented Ten of this disparate array of papers form the basis of this collection The theme of community and localised struggle form the first section ranging as it does from the newspapers representation of Yorkshire miners to brass bands and the development of separate culture The second section deals with the more traditional trade unionism and varieties of industrial struggle The third section focuses upon the political aspects of working class activity drawing upon the role of women and Labour policy on steel nationalisation and defence The fourth deals with radicalism ranging from the failure of Chartism the policy of working class organisations to emigration and the failure of the soft section of the British left in the 1920s and 1930s There is no all embracing concept here for what is a varied collection of chapters However what can be said is that British Labour history continues to provide new areas for research Indeed its death as an academic discipline has been greatly exaggerated This collection of book chapters represents the current revival in Labour history which has emerged in a form that brings together community and culture alongside class and political representation to explore the breadth and depth of working class identity

British Working-class Movements and Europe, 1815-48 Henry Weisser,1975 *The Chartists* John Charlton,1997-01-20 A lucidly written and well researched account Its particular value lies in its examination of areas of the movement often overlooked in introductory texts Teaching History Unrespectable Radicals? Paul A. Pickering,2016-02-24 In 1988 Iain McCalman s seminal work *Radical Underworld* unravelled the complex and clandestine revolutionary networks of democrats that operated in London between 1790 and the beginnings of Chartism to reveal an urban underworld of prophets infidels pornographers and rogue preachers where powerful satirical and subversive subcultures were developed This present volume reflects and builds upon the diversity of McCalman s discoveries to present fresh insights into the culture and operation of popular politics in the age of reform It is a coherent and integrated treatment of the subject that offers a window into this unrespectable underworld and questions whether it was a blackguard subculture or a more complex and rich counter culture with powerful literary legal and political implications This book brings together an international team of experienced scholars to explore the concepts and subjects pioneered by McCalman The volume presents a focused and coherent review of popular politics from the meeting rooms of a reform society and the theatre stage to the forum of the courtroom and the depths of prison
